Folding Bathtub and Heater
$43.50
No Pipes or Plumbing Work Necessary
Burns Kerosene
Note Bathtub Has Steel Rim
Folds Up in Small Space
Has new improved blue flame kerosene burner. No soot, no smoke, no odor. Absolutely safe.

Just fill the heater tank with water and light the burner. Heats water sufficiently for bath in thirty minutes. The water runs right into the tub by simply opening the faucet. To drain the water out of the tub, a 6-foot length of hose is provided which you can attach to the water outlet and let the water run outdoors. Water heater holds 12 gallons.

Tub is 5 feet long and 27½ inches wide. This is a strictly high grade tub. It is made of galvanized sheet steel with steel roll rim and should not be confused with cheap competitive steel tubs which have wood rims that soon deteriorate. Entire tub is coated with paint enamel, giving the outfit a handsome and sanitary appearance. Heater has galvanized steel inner casing covered with an outer casing of light nickel plated sheet steel, highly polished.

The entire outfit is on roller bearing rollers. It folds up into small space and can be quickly pushed out of the way into some convenient storeroom or clothes closet. Shipping weight, 165 pounds. **Shipped from factory at DETROIT, MICH.**

42F3815½—Outfit, complete as described..... $43.50

For other steel bath tubs and heaters, **see page 969**

We can furnish pneumatic water supply systems for deep wells, gasoline engine or windmill driven; also hand power outfits for deep wells. Prices quoted on request.

Hercules Water Softener

20,000-Grain Capacity

$79.75 Complete Ready to Install

Better Than a Cistern

Because—It's Cheaper, Cleaner and More Reliable

The Hercules Water Softener is installed in the basement, and the hard water piped so as to pass through it. As the water passes through the mineral bed in the softener, all the hardness is caught and held. The mineral absorbs the hardness like a sponge absorbs water. No chemicals are added—just the hardness is removed. The mineral in time takes up all the hardness it can hold. It is then necessary to put about 10 pounds of common salt in the softener, which releases the hardness and is flushed to the sewer with the salt. Salt must be added every two to four weeks, depending on the amount of hardness in the water. The mineral does not lose its efficiency; it is permanent, because it is insoluble in water and will continue to soften water for years.

A cistern is a catch-all place for the dirt of the roof and gutters; each rain washes the accumulation of bugs, chimney soot and bird wastage into the family wash water.

A Hercules Water Softener costs less than a cistern and gives an unlimited supply of 100 per cent soft, pure, untainted and delightfully clear water, good for drinking, and a pleasure in doing all household tasks.

With the cistern it is necessary to have a separate pump and storage tank. The Hercules Water Softener eliminates this. It is easily connected to your plumbing system in a few hours time. Any handy man can install it by following our simple instructions. It is shipped complete, ready to use; there is nothing to be added after you get it.

SPECIFICATIONS

Size of tank, 14 inches in diameter; height of shell, 48 inches; guaranteed to stand 125 pounds pressure. Built of heavy, rust resisting steel and coated inside and out with a specially prepared material which absolutely prevents rusting. The fittings are ¾ inch in size. The valves are the best obtainable. A 3-inch brass plug with rubber seated gasket on head of tank; 2 cubic feet of high capacity, white, synthetic mineral. THE HERCULES WATER SOFTENER CARRIES OUR MONEY BACK GUARANTEE.

$14.95 Kerosene Burning Water Heater

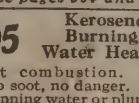
Perfect combustion. No smoke, no soot, no danger. No piping, running water or plumbing work necessary to use this heater; just fill the tank with water and light the new improved wick type blue flame burner. When water is hot open faucet and you can let it run into your bathtub, sink or wherever you want to use it. Tank holds about 11 gallons of water. Heats enough water for bath in twenty to thirty minutes. Range boiler not necessary. Tank made of galvanized iron nickel plated outside. Just the thing where city gas and water pressure are not available. Shipping weight, 35 pounds.

42F1826¼ **$14.95**

Special combination offer includes the five-foot steel bathtub illustrated and described above, and kerosene water heater illustrated and described above, making a very practical and serviceable outfit and suitable for any home without plumbing. Shipping weight, 115 pounds.

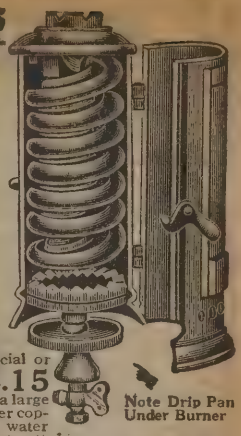
42F3719¼ **$27.60**

For Combination Folding Bathtubs and Heaters see page 967



Double Copper Coil Gas Water Heater

$6.15



Standard size. Used with galvanized range boiler. Has two coils of ¾-inch copper tubing and cast iron jacket with door, ¾-inch water connection and ½-inch gas connection. 7 inches in diameter and 24 inches high including burner. Iron pipe threads.

This is one of the most efficient gas water heaters on the market. Being constructed entirely of cast iron and copper, it is very durable. Heats water sufficient for bath in 20 minutes. Recommended where average amount of hot water is used. Where a considerable amount of hot water is used, however, we recommend our extra large capacity double coil water heater quoted below. Burns artificial or natural gas. Shpg. wt., 35 lbs. **$6.15**

42F1824¼ .....

Heater same as above, except extra large capacity. Has larger jacket and larger copper coil. If you want plenty of hot water and want it quickly, this is the heater to buy. Shipping weight, 45 pounds. **$7.95**

42F1827 .....

Note Drip Pan Under Burner

Hercules Gas Control

Saves Gas, Time and Steps

With this valve you can turn your gas heater on or off without going down to the basement. Simply step into your hall or kitchen and adjust the chain up or down to turn the gas on or off. No lighting of matches. Pays for itself in one year's time. Shipped complete, with full instructions. Any handy man can easily install it.

Shpg. wt., 10 lbs. **42F1818¼** **$5.75**

Kerosene Water Heater

$22.35

Used With Range Boiler

Will heat about 10 gallons of water per hour to a temperature suitable for ordinary household purposes. Will burn twelve hours on one gallon of kerosene. Very economical. Four spiral copper coils, cast iron jacket. Tapped for ¾-inch iron pipe. Removable glass reservoir holds 1 gallon of kerosene. Shpg. wt., 47 lbs.

42F1834¼ **$22.35**

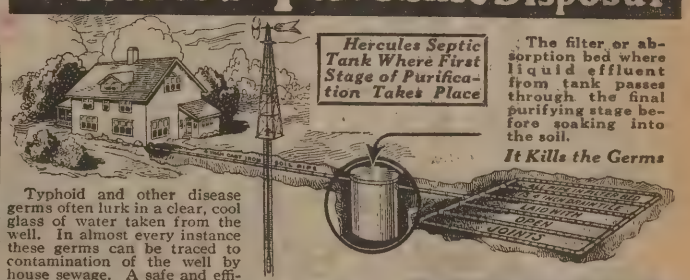
Hercules Septic Tank For Sewage Disposal



Hercules Septic Tank Where First Stage of Purification Takes Place

The filter or absorption bed where liquid effluent from tank passes through the final purifying stage before soaking into the soil.

It Kills the Germs

Typhoid and other disease germs often lurk in a clear, cool glass of water taken from the well. In almost every instance these germs can be traced to contamination of the well by house sewage. A safe and efficient system of sewage disposal is now universally recognized as an absolute necessity for the protection of human life. The Hercules Septic Tank is adapted for sewage disposal from any building where running water is available. By the natural process of bacterial action it provides a safe, effectual and inexpensive means of sewage disposal, as well as an effective protection for your water supply. Hercules tanks are quality built from Keystone Copper Bearing Steel Plate, which is unexcelled for rust resistance. In addition to this, they are coated with a special rust resisting preservative, making them very durable. **Complete instructions for installing furnished with each tank.**

Standard Steam, Gas and Water Pipe

Standard Pipe Nipples

Our nipples are classified as close, short and long, and are furnished in black or galvanized, pipe sizes from ¼ inch to 3 inches. When ordering state if close and short or long nipple is wanted and whether black or galvanized; also state pipe size. We do not furnish nipples to exact lengths, as our stock is in assorted sizes, but if you will specify lengths wanted we will furnish nipples as close possible to lengths you specify. Close nipples are about 1½ inches long. Short nipples are 2½ inches long. Nipples longer than 2½ inches are classed as long nipples. Nipples longer than 6 inches will be charged as pipe cut to length and threaded both ends.

Good quality evenly rolled stock, carefully welded and free from imperfections.

Use black pipe and fittings for steam and hot water heating systems, oil or gas, irrigation or air pipe lines, etc.

Use galvanized pipe and fittings for supply and waste pipes on plumbing systems, drinking water pipe lines, etc.

Sizes, ⅛-inch to 4½-inch, black and galvanized, in stock at our store. Prices on larger sizes quoted on application.

Prices quoted below are for pipe furnished in random mill lengths, about 20 feet long, threaded both ends. One coupling furnished with each piece of pipe. If wanted cut to specified lengths and threaded, couplings are not included and an extra charge is made for threading each end of each piece, as quoted below. Allow cost of two threads for each piece of pipe. **Prices subject to market changes.**

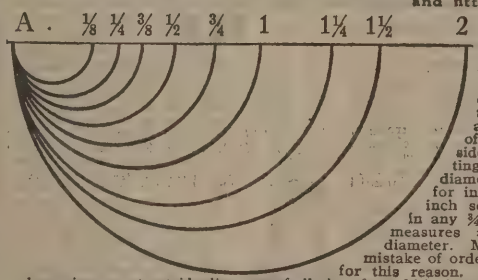
Shipping Weights

The shipping weight of pipe fittings varies, according to the number ordered and the method of shipment. An estimate of the shipping weights and freight, express or parcel post charges will be furnished, if desired, upon receipt of a list of the fittings in which you are interested.

Read This!

Before Ordering Fittings, Valves, Etc.

The sizes of standard pipe and fittings, as given in this catalog, refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, oil cups, etc., refer to the inside diameter of the pipe to which they connect, and not to the diameter of the tapping on the inside or outside of the fitting itself. The outside diameter of a ¾-inch pipe, for instance, is almost one inch so the tapped opening in any ¾-inch valve or fitting measures about one inch in diameter. Many people make the mistake of ordering fittings too large for this reason. The diagram shown here gives exact outside diameter of all pipes from ⅛-inch to 2-inch size measuring from the common point A to point where pipe size is indicated.



Sure Tight Cistern Cover for Safety and Cleanliness

Fits 18-inch opening. Made of cast iron with ring for lifting and two catches, making it necessary to turn cover slightly before it can be raised. Not easily opened by children. Shipping weight, 50 pounds.

Bigger Savings Than Ever

Set Length Lift Pump

Takes 1¼-Inch Pipe

Medium weight; anti-freezing; for wells up to 30 feet deep. Four-foot set length pump. Six-inch stroke. Takes 1¼-inch pipe. Cylinder comes four feet below pump platform. **$4.20** 4-ft. Set Length

While we guarantee this pump to be equal to competitive pumps offered at higher prices than we ask here, and while we guarantee this pump to be suitable for wells up to 30 feet deep by adding extra pipe, still, considering the small difference in price, we would strongly recommend our extra heavy weight lift pump quoted below as being a more satisfactory pump for general farm service. This medium weight pump is, however, a remarkable value at the price we offer it.

42F2349¼—With 3x10-in. iron cylinder. Four-foot set length. Shpg. wt., 50 lbs. **$4.20**

How to Order Your Pump Outfit!

If the distance from pump platform to the lowest water level is less than 25 feet, you can use one of our 4-foot set length pumps, quoted on this page, and order sufficient extra pipe to reach to about 3 feet below water.

If the distance to the lowest water level is over 25 feet, then it will be necessary to order sufficient extra pipe and pump rod to extend cylinder down below water. Lift pumps draw water to the pump spout only. If you want to force the water to an elevated tank or a pressure tank, order a force pump.

We charge 2 cents per foot in addition to cost of pump rod and pipe for cutting and fitting pump outfits to specifications.

For your convenience in ordering we have listed a number of pumps on this page, completely made up, with pipe, pump rod and cylinder cut and fitted for depths of well specified. Prices given on these outfits include all cost for cutting and fitting so there is no extra charge for this. Measure distance from pump platform to water level in well during dry season, and order outfit 5 feet longer than this so cylinder will come below water line. Outfits for wells 25 feet deep and under have cylinder placed 4 feet below pump. For deeper wells cylinder is placed at bottom of extension pipe and pump rod is extended down.

Cistern Force Pump

$4.65 3-Inch Size

For wells or cisterns 20 feet deep or less. Has solid brass cylinder, valve seat and stuffing nut. Gooseneck spout fitted with hose coupling or faucet spout, as illustrated. Tapped for 1¼-inch suction. Top outlet is tapped for 1-inch pipe. Suction pipe not included.

42F2377¼—With plain spout and 3-inch cylinder. Shipping weight, 20 lbs.. **$4.65**

42F2379¼—With faucet spout and 3-inch cylinder. Shipping weight, 24½ pounds... **$5.25**

Pitcher Spout Pump

$1.45 3-In. Size

For wells up to 20 feet deep. Tapped for 1¼-inch suction pipe. Order pipe from water to pump. By using our special cast iron pump bracket shown below, pump can be easily attached to end of sink.

42F2370¼—3-inch iron cylinder. Shipping wt., 18 lbs... **$1.45**

42F2371¼—3-inch brass lined cylinder. Shipping weight, 21 pounds... **$2.35**

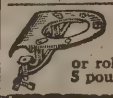
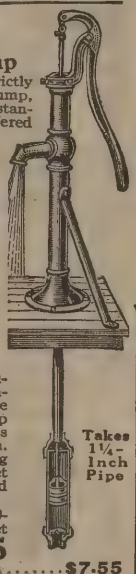
42F2373¼—3½-inch brass lined cylinder. Shipping weight, 22 pounds.. **$2.75**



42F390—Cast iron pump bracket. For attaching pitcher spout pumps to flat or roll rim sinks. Shipping weight, 5 pounds..... **$1.10**

Heavy Weight Lift Pump

$5.85 4-ft. Set Length



Takes 1¼-Inch Pipe

Here is a strictly high grade pump, strong and substantially built, offered at a price usually asked for pumps of much lighter weight. Do not confuse this heavy weight pump with pumps of lighter construction offered on the market at about the price we ask for this high grade article.

It is true that there is some saving in first cost when you buy a pump of lighter weight construction, but unless you only intend to use the pump for a few years, from our long experience in the pump business, we know that it is money well invested to purchase a pump of heavy weight which will stand up and give continuous service for many years without repairs. Made up complete with cylinder, pipe and pump rod, as shown. Cylinder comes four feet below pump platform. It is sufficiently heavy and strong for use in wells up to 60 feet deep by adding extra pipe and pump rod.

42F2351¼—With 3x10-inch iron cylinder. 4-foot set length as shown. Shpg. wt., 60 lbs... **$5.85**

With brass lined cylinder..... **$7.55**

42F2352¼—With 3½x10-inch iron cylinder, 4-ft. set length. Shipping weight, 65 pounds..... **$6.50**

With brass lined cylinder..... **$8.30**

Prices below are for heavy weight pumps all made up and ready to install complete with iron cylinder, black pipe and pump rod for depths of well specified. For shipping weights, allow for weight of pump as given above and add 2½ pounds per foot for extension.

Depth of Well	42F2351¼ With 3x10-In. Iron Cylinder. For Brass Lined Cylinder Add $1.70	42F2352¼ With 3½x10-In. Iron Cylinder. For Brass Lined Cylinder Add $1.80

Wind Mills SEE PAGE 1081

on High Grade Farm Pumps

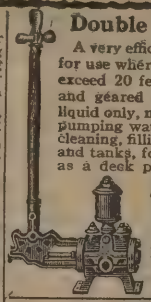
Large Capacity Tank Pump

For filling thresher tanks, stock watering tanks, etc., pumping from shallow wells or cisterns. Used also as a deck pump, trench pump or for emptying cesspools, etc., or for any purpose where it is desired to pump a large volume of water. Pumps 50 gallons per minute. Suction limit, 20 feet. This is a strictly high grade pump. Has brass valve seats. This is a feature not contained in many competitive pumps and it is a feature which we consider necessary for satisfactory service in this type of pump. Cylinder, 5 inches in diameter, 5-inch stroke; suction and discharge, 2 inches. Has extra connection for discharge to connect 1-inch hose for sprinkling, etc. Shipping weight, 78 pounds.

42F2266¼—Pump as described. **$9.85**

42F828—5-Inch Crimped Plunger Leathers. Shipping weight, 8 ounces.
Set of two..... **65c**

Double Acting Pump



A very efficient hand force pump for use where suction lift does not exceed 20 feet. All brass valves and geared head drive. Pumps liquid only, no air. Much used for pumping water to elevated tanks, cleaning, filling and testing boilers and tanks, for fire protection and as a deck pump. Has 1¼-inch suction and 1-inch discharge. Shipping weight, 65 pounds.

42F2187¼
With 3-inch brass lined cylinder.
$11.40

Air and Water Force Pump

Highly efficient for pumping water from cisterns or shallow wells into pneumatic pressure tanks. This pump is same as 42F2187¼, except that it has brass air pumping attachment so that it can pump air and water at same time. 1¼-inch suction and 1-inch discharge. 4-inch stroke, 3-inch brass lined cylinder. Suction limit, 20 feet. Shipping weight, 76 pounds.

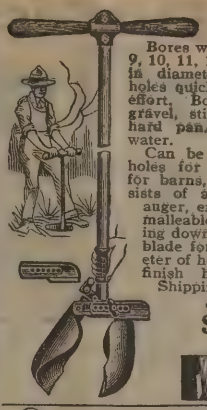
42F2188¼
Pump, as described..... **$13.50**

Galvanized Malleable Strainers

Placed at end of pump suction pipe in well to keep out foreign matter. Covered with brass wire cloth. Size, 1¼-inch. Shipping weight, 1¼ pounds.

42F826 **46c**

Well Boring Outfit



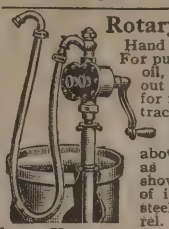
Bores wells 25 feet deep, 8, 9, 10, 11, 12, 13 or 14 inches in diameter, or digs post holes quickly and with little effort. Bores through sand, gravel, sticky clay, mud or hard pan. Will dig under water.

Can be used for digging holes for foundation piling for barns, etc. Outfit consists of a new type earth auger, extension rods with malleable couplings for boring down 25 feet, extension blade for increasing diameter of hole and a smooth finish hardwood handle. Shipping wt., 50 pounds.

42F1861¼
$6.95

Posthole Implements
SEE ALSO PAGE 1031

Rotary Barrel Pump



Hand Rotary Barrel Pump. For pumping gasoline, motor oil, syrup or other liquids out of barrels. Much used for filling gasoline tanks on traction engines, automobiles, etc. Forces liquids 15 to 20 feet above pump. Works same as Acme Rotary Pump shown on this page. Made of iron. Furnished to fit steel barrel or wooden barrel. Both types quoted below. Has 3-foot suction pipe, 5-foot discharge hose and goose neck. Pumps 13 gallons per minute. Shipping weight, 65 lbs.

42F2259¼—With attachment for steel barrel as shown..... **$13.00**

42F2260¼—With attachment for wooden barrel. **$12.75**

For Barrel Pumps Also See Pages 496, 1087

Pump Cylinders

10-in. cylinders have 6-in. stroke and 16-in. a 10-in. stroke. Cylinders 3½ in. in diameter, fitted for 1½-in. pipe; 4 in. in diameter for 2-in. pipe; all others fitted for 1½-in. pipe. 10-in. cylinders have one leather on plunger. 16-in. cylinders have two. Brass lined cylinders have seamless brass tubular lining and have brass cage and brass valve in plunger.

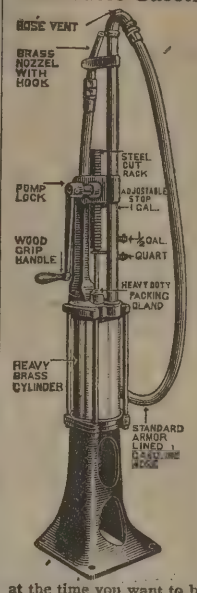
Hercules Gasoline Pump



For farmers, contractors, garage owners and others using or dispensing gasoline in moderate quantities for tractors, cartage trucks, automobiles, etc., this pump is a big money saver. A big saving can be made by buying gasoline in quantities. A bigger saving still can be made if you own your own pump and storage tank so that you can buy it from whom you please and are not under obligation to any one concern. Why not be independent? Buy your gasoline where you can buy it the cheapest at the time you want to buy it.

This outfit will pay for itself in a short time. Our Hercules Pump is strictly high grade, and is approved by the National Board of Fire Underwriters. Cylinder is solid brass made of 6-inch heavy brass pipe, and is 13 inches long. Pump discharges one gallon at each full stroke of plunger.

Height of pump over all, 67 inches. Base, 12x12 inches. Hose is 6 feet long. Base and upper parts of pump are cast iron, finished in bright red enamel. Outfit includes positive closing brass ball check valve and strainer for attaching to end of suction pipe. Suction pipe not included. **Shipped from factory in WESTERN NEW YORK.** Shipping weight, 100 pounds.

42F2390½..... **$32.45**

Gasoline Storage Tanks

Made of 14-gauge steel, galvanized inside and out. Welded seams. Approved by the National Board of Fire Underwriters. Each tank has 3¼-inch suction tapping, 2-inch filling tapping and 1-inch vent and is furnished complete with filler cap and bushing for suction pipe.

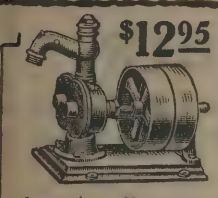
Shipped from factory near CHICAGO, PHILADELPHIA or ST. LOUIS, whichever is nearest you.

$12.95 Acme Rotary Power Force Pump



Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. An excellent pump for raising a large amount of water with minimum amount of power where lift is not over 15 feet and elevated tank into which water is forced not over 50 feet above pump. Reliable protection in case of fire. Driving shaft made long enough to allow use of balance wheel with handle so pump may be worked by hand when desired. Spout threaded for iron pipe at end and also at top where it connects to pump. Can be run at 300 revolutions per minute without injury, although 200 is recommended. One of the simplest and most satisfactory power pumps on the market. High speed permits belting direct to engine. If wanted with balance wheel and handle for hand power, allow $5.50 extra. Prices quoted do not include pipe or belt. For pumping gasoline, special machining and packing of parts is necessary on these pumps owing to the very thin body of this fluid. For water and heavier liquids, pumps are furnished regular. If you wish to pump gasoline or benzine, or other such light bodied liquids, be sure to order the special gasoline pumps quoted below. **Order by catalog number, and specify capacity of pump desired.**

Centrifugal Pumps

For irrigation, pit drainage, etc., or wherever a large volume of water is to be handled against a total head not exceeding 40 feet, the centrifugal type of pump is unexcelled. Our Hercules centrifugal pump is scientifically designed for greatest efficiency. It is a strictly high grade pump in every way. Long babbitted bearings insure minimum friction, smooth running and long wear at high speeds. Impeller is cast iron single suction open type, carefully machined and balanced. It is necessary that **Centrifugal Pump be thoroughly primed before it can be started.** A foot valve is ordinarily used on the bottom of the suction pipe to keep pump primed, but where the well will not admit the foot valve, it is necessary to use a swing check valve in the discharge and equip the pump with a hand primer.

Shipped from factory in NORTHERN INDIANA. Complete instructions for installing and operating furnished with each pump

Fire Chief Slate Surfaced Roofing

Dayton, Ohio.

Sears, Roebuck and Co.
Gentlemen:
We are very much pleased with our Fire-Chief Roof.
It looks exactly like wood shingles painted green, but cost us $60.00 less than a new wood shingle roof.
Its fire resisting qualities, permanent color and many years of wear, as covered in your 17-year guarantee, make it the best roof on the market at anywhere near its price.
Yours very truly,
ROSS L. JONES, R. R. 2,
Wilmington, Pike.

NOTE—We can furnish Fire-Chief Roofing in either green or red shingle design.

Fire-Chief Shingle Roll Slate Surfaced Asphalt Roofing

Guaranteed 17 Years

Approved by the National Board of Fire Underwriters

Fire-Chief has a perfect shingle design; looks just like wood shingles when laid on the roof. See illustration above.

Fire-Chief is known for absolute reliability in all climates and weather. For example: It excludes snow and rain better than wood shingles. It is airtight and watertight. It defies heat and cold.

Fire-Chief is made of the highest quality roofing materials. The formula and process for making it have been used for many years. It has been put to the most severe tests. Roofing laid 17 years ago is practically as good as the day it was laid.

Fire-Chief is the heaviest, thickest, strongest and most beautiful of all our roofings. It does not curl, warp, rust or decay. Costs less than half, and is warmer than wood shingles. Economical to lay over old shingles, giving double roof protection.

Fire-Chief is made of heavy roofing felt—saturated with the highest grades of imported elastic asphalts and the choicest natural slate. The pattern is real red or sea green crushed slate, with black lines of asphalt applied to form a shingle design that is permanent and beautiful.

Approved by National Board of Fire Underwriters. Protects against fire from flying sparks, etc.

Weighs 90 pounds, contains 108 square feet, will cover 100 square feet, all in one piece.

CAUTION! Buy Only Roofing With 2-Inch Watertight Lap Joint. If slate or pebbles lay between the two layers of roofing, the joints will loosen up and leak.

Fire-Chief Shingle Roll Roofing, complete with 1-inch large headed galvanized roofing nails and cement for laps.

Quick Service—Low Freight Rates

We are close neighbors, regardless of where you live. Our roofing factories are located in all sections of the country. Each factory is the shipping point for the territory nearest to it with lowest freight rates for roofing materials.

Below we list locations and shipping points of our largest roofing factories and warehouses. See how close we are to your home! You save on price of the good roofing, and you also save money on the short haul freight charges.

Shipped from CHICAGO, ILL., PHILADELPHIA, PA., KANSAS CITY, MO., ATLANTA, GA., YORK, PA., EASTERN NEW YORK, SOUTHERN ILLINOIS, SOUTHERN LOUISIANA or ST. PAUL, MINN.

More than one million homes are now covered with Sears, Roebuck and Co.'s Roofing

Best Posted Authorities Buy Fire-Chief Roofing

Reliable contractors and roofers as well as individual home owners tell us it is the best roofing they ever laid! Concerns of national reputation, whose experts know quality, purchased Fire-Chief Shingle Roll Roofing in large quantities. Selected from a list of over a hundred corporations, here are three of the many who have bought large quantities of roofing from us:

Standard Oil Company.....Roofing for nearly 300 roofs
Sun Oil Company.....Roofing for 40 roofs
Sun Ship Building Company.....Roofing for more than 200 roofs

Corporations specify it for their employes' homes. These include navigation companies, railroad companies and steel corporations. In fact, some of our most noted industrial concerns and contractors send us repeat orders for Fire-Chief Roofing.

HERE'S the REASON—

During the entire quarter century that we have manufactured and sold roofing, we have insisted on the highest quality. Our guaranteed roofing contains only the best of roofing felts—saturated with the highest grades of IMPORTED elastic asphalts and the choicest natural slate. That's the reason that posted buyers prefer Fire-Chief Roofing to any other asphalt roofing.

SAMPLES **We guarantee that you will be satisfied with our roofing, but if you prefer to see samples before sending us your order, ask for Free Roofing Samples 8573F.**

Oriental Slate Surfaced Roofing

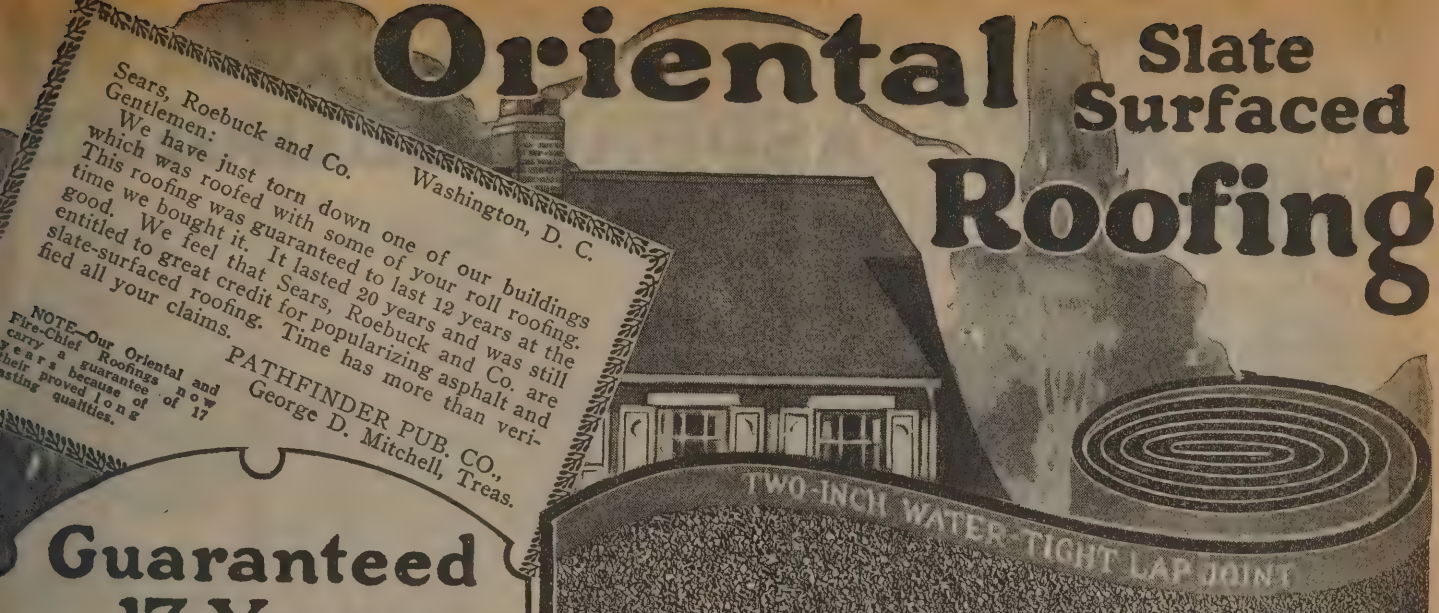
Sears, Roebuck and Co. Washington, D. C.

Gentlemen:

We have just torn down one of our buildings which was roofed with some of your roll roofing. This roofing was guaranteed to last 12 years at the time we bought it. It lasted 20 years and was still good. We feel that Sears, Roebuck and Co. are entitled to great credit for popularizing asphalt and slate-surfaced roofing. Time has more than verified all your claims.

PATHFINDER PUB. CO.,
George D. Mitchell, Treas.

NOTE—Our Oriental and Fire-Chief Roofings now carry a guarantee of 17 years because of their proved long lasting qualities.



Guaranteed 17 Years

Approved by the National Board of Fire Underwriters

Oriental Slate Surfaced Asphalt Roofing has a beautiful red or green color, guaranteed wear, and excellent value.

Thousands of customers in every state heartily recommend it for its wonderful wearing quality, fine appearance, and the saving made on the cost.

The outstanding features that make this roofing so satisfactory are: Fabricated of high quality waterproof and fire resisting materials, heavy **roofing felt, imported asphalt and genuine crushed,** natural color, green or red, slate. Either color is permanent. Never needs paint.

It is extra heavy and durable. Snowproof and sunproof. Rain only washes it clean. Good in every climate. Better than wood shingles. Can be laid over old shingles, saving the expense and dirt in tearing them off. Suitable for every kind of building.

Oriental Roofing protects your house from fire, whereas sparks from a chimney may destroy wood shingles.

Weight: Each roll weighs 90 pounds, contains 108 square feet and will cover 100 square feet, all in one piece.

CAUTION! Buy Only Roofing With 2-Inch Watertight Lap Joint. If slate or pebbles lie between the two layers of roofing, the joints will loosen up and leak.

Guaranteed Slate Surfaced ASPHALT SHINGLES

Hexo Shingles *Bundle,* $2.40

Strip Shingles *Bundle,* $2.60

APPROVED BY NATIONAL BOARD OF FIRE UNDERWRITERS

Oriental Hexo Asphalt Shingles

Surfaced With Genuine Red or Green Slate or Blended Colors, Hexagonal Design—Applied at Low Cost

GUARANTEED 17 YEARS

Oriental Hexo Shingles are the result of 25 years' manufacturing experience. They are made of materials known for long wearing qualities.

Like our Oriental Individual Shingles, Hexo Shingles are beautiful in color and design (as illustrated above), permanent and fire resisting. Home owners and contractors warmly praise them because their property takes on a higher valuation with these asphalt shingles on the roof. Strips, 11⅓ inches wide and 36 inches long.

Made of heavy roofing felt and imported asphalt. These are stiff shingles, so do not curl or warp. Defy all weather conditions, such as wind, rain, sleet, snow. You can roof or re-roof without removing the old shingles. **Approved by National Board of Fire Underwriters.** Each shingle pattern is 11 inches wide and 9⅓ inches high when laid.

Shipped from warehouses in YORK, PA., SOUTHERN ILLINOIS, NORTHERN ILLINOIS or WESTERN NEW YORK.

Oriental Asphalt Slate Surfaced Strip Shingles

4-In-1 Style—Easily Laid at Low Cost

GUARANTEED 17 YEARS

Oriental Asphalt Strip Shingles—the 4-In-1 pattern—look like individual shingles when laid on the roof. The quality of materials is worthy of comparison, and the high standard construction represents one-quarter century of roofing manufacture.

Our Strip Shingles are rigid, lasting, beautiful, fire resisting and economical. Will not warp, curl or blow in the wind. Climate will not affect them. Roof a new house or re-roof right over the old wood shingles without taking them off.

Made of heavy roofing felt, imported asphalt and crushed natural color slate. Houses roofed with Oriental Asphalt Strip Shingles look better than when roofed with wood shingles. Laid with less expense than wood shingles and last longer. **Approved by National Board of Fire Underwriters.** Strips, 10 in. wide.

Shipped from warehouses in CHICAGO, ILL., KANSAS CITY, MO., ATLANTA, GA., YORK, PA., EASTERN NEW YORK, SOUTHERN OHIO, SOUTHERN ILLINOIS, SOUTHERN LOUISIANA or ST. PAUL, MINN.

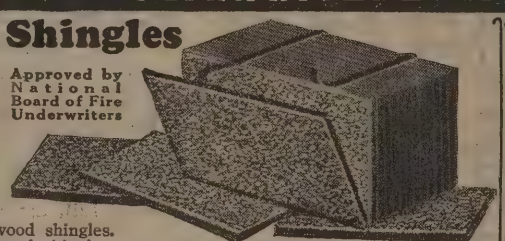
Oriental Asphalt Shingles

Individual Style—Highest Grade

GUARANTEED 17 YEARS



Approved by National Board of Fire Underwriters

The artistic and beautiful appearance of houses roofed with Oriental Slate Surfaced Shingles is increasing their value everywhere. The color never fades and needs no paint or stain. Practically fireproof. No culls to be thrown away—no loss of time in selecting the proper size as you do with wood shingles. They can be laid with less expense than wood shingles.

Made of the same high grade felt and asphalt as our Oriental Slate Surfaced Roofing, except that Oriental Shingles contain an especially treated, imported asphalt that stiffens the shingles so that they will lay perfectly flat. Can be laid over old shingles or on roof boards laid close together. Each shingle, 8x12¾ inches. One bundle will cover 25 square feet of roof surface when laid 4 inches to the weather.

Shipped from CHICAGO, ILL., PHILADELPHIA, PA., KANSAS CITY, MO., ATLANTA, GA., YORK, PA., EASTERN NEW YORK, WESTERN NEW YORK, EASTERN MASSACHUSETTS, SOUTHERN OHIO, SOUTHERN ILLINOIS, SOUTHERN LOUISIANA or ST. PAUL, MINN.

Why it's the Best Smooth Roofing

APPROVED BY NATIONAL BOARD OF FIRE UNDERWRITERS

Best-of-all Roofing
Just What the Name Implies!
For Smooth Surfaced Roofing

These Points of Quality Assure Topmost Value

Leading roofing experts say: "This is the best smooth finish roofing made." Its lasting qualities make Best-of-all the most economical roofing you can buy if you want a smooth finish roofing.

Best-of-all Roofing will outwear wood shingles, tin, tar or steel roofing.

Made in three weights. Each kind tested for thickness, weight, flexibility, strength and color.

Best-of-all Roofing is manufactured from the highest grade materials we can buy. Every roll is made according to our own tried and proved formula. The blending of the imported asphalt is controlled by our special process and by actual test has lasted longer than the years specified in our liberal guarantee. Only thick, heavy roofing felt, imported long fiber asphalt and other good quality materials are used. Best-of-all has more asphalt and felt than other types of prepared roofing. It is double coated with an imported elastic compound and surfaced with mica and has black smooth finish.

Will not melt or evaporate in warm weather. It is rainproof, sunproof and snowproof; also elastic, pliable and tough. Free from odor. Will not discolor rain water.

Each roll of Best-of-all Roofing contains 108 square feet and will cover 100 square feet.

SAMPLES We guarantee that you will be satisfied with our roofing, but if you prefer to see samples before sending us your order, ask for Free Roofing Samples 8573F.

Galvanized Nails Supplied With Best-of-all Roofing

These 1-inch galvanized nails never rust. We also furnish plenty of waterproof cement for laps.

For Prices of Best-of-all Roofing See Above

Composition Roofing, 98c per Roll

Made of roofing felt, saturated with domestic asphalt; has smooth finish on both sides. Satisfactory for temporary buildings, sheds, or where long wear or fine appearance is not necessary.

Furnished with cement and nails (not galvanized). Rolls contain 108 square feet.

It's Easy to Order From the World's Largest Store. See Page 795

Steel Roofing and Siding

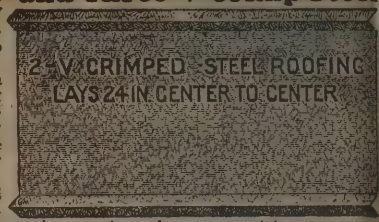
2½ and 1¼-Inch Corrugated Steel

2½-INCH AND 1¼-INCH CORRUGATED SHEETS are furnished in sheets which actually measure 26 inches wide. Both have a covering width of only 24 inches on account of the side lap. When ordering, allow from 4 to 6 inches for end laps, depending upon the pitch of roof. For siding, a 2-inch end lap is sufficient. When ordering allow for side laps to cover 100 square feet of surface; this does not include the end laps.

When Ordering Always Specify Length

We furnish two thicknesses, as follows: 28-gauge and 26 extra heavy gauge. EXTRA HEAVY is fully one-fifth heavier than 28-gauge. We recommend the 26-gauge as it costs but a trifle more and wears twice as long. We do not sell light or standard gauge steel roofing.

Two-V and Three-V Crimp Steel



Two-V and Three-V Crimp Steel Roofing have a covering width of 24 inches after lapping one crimp over the other.

Requires no soldering, folding or hammering of seams or joints; anyone who has ordinary mechanical ability can put it on.

Prices of 2½-Inch Corrugated Steel

48F3118—Egg and Dart Design Border. Width, 3 inches. Per 4-foot length..... 15c

Shipped from CENTRAL OHIO or NORTHERN KENTUCKY.

The two illustrations of metal ceilings shown are our two most popular designs. However, our Building Material, Millwork and Roofing Catalog shows other attractive designs. If you want more designs to select from write for our Building Material, Millwork and Roofing Catalog 543F. Sent postpaid on request.

No Soldering—The Joints Slip Together and Stay

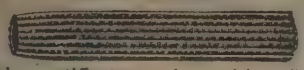
Galvanized Steel, Rust Resisting

WE FURNISH TWO THICKNESSES: Heavy (United States Standard 28-gauge) and extra heavy (United States Standard 26-gauge) which is 20 per cent thicker and heavier than the standard 28-gauge.

We recommend the extra heavy grade or 26-gauge in preference to the 28-gauge weight, as it costs but little more, costs no more to hang and gives at least double the wear. **All articles on this page are shipped from CHICAGO or PHILADELPHIA.**

OUR SLIP JOINT REQUIRES NO SOLDER. No experience necessary to put up our Slip Joint Eaves Troughs and Conductor Pipes.

Corrugated Conductor



Makes a stiff, strong pipe, and is easily put together. Furnished only in 10-foot lengths. They are made to fit the following eaves troughs:

Size of eaves troughs, inches	3½	4	5	5
Size of conductor, inches	2	2	3	4

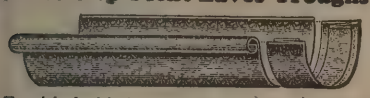
48F1278—Full Weight, U. S. Standard 28-Gauge.

Size, inches	2	3	4
Weight, per length, lbs	4½	6½	9
Per 10-foot length	43c	54c	68c

48F3303—Extra Heavy Weight, U. S. Standard 26-Gauge Galvanized Steel.

Size, inches	2	3	4
Weight, per length, lbs	6	7½	10
Per 10-foot length	53c	65c	85c

Patent Slip Joint Eaves Troughs



Furnished with the slip joint connection that will fit at either end of each piece no matter which way the water runs. No other about right hand or left hand eaves trough. Just order the number of pieces you need and put them on.

FULL WEIGHT, U. S. STANDARD 28-GAUGE GALVANIZED

48F1279

ORDER BY SIZE AND NUMBER.

Extra Heavy Gauge Eaves Trough Corners or Miters

Inside Corner Miter 48F3309

Outside Corner Miter 48F3310

Furnished only in extra heavy 26-gauge galvanized steel, because more strength is required at corners of eaves trough, where ice and snow are likely to collect. Therefore, we furnish only extra heavy 26-gauge corners to use with the 28 or 26-gauge eaves trough.

Complete with slip joint connections that fit at either end of the corner so that it can be connected with either right or left hand eaves trough. **Be sure to state whether you want outside or inside corners.**

48F3309—Inside Corner.

48F3310—Outside Corner.

Width across top or size, inches	3½	4	5	6
Weight, each, ounces	11	13	17	19
Each	25c	28c	30c	38c

Outlet

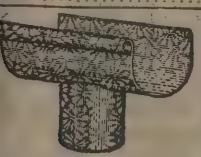

Illustration represents outlet in position, can be connected anywhere to suit down spout. No soldering needed.

Description

GLAZED WINDOWS AND SASH—Made of CLEAR SOFT WHITE PINE, seasoned and kiln dried, carefully machined and sandpapered. Glazed with good quality clear glass held in place with zinc diamond points and good putty.

WINDOW FRAMES—We use a very high grade of lumber in our frames. The workmanship is perfect. **Outside casings are 1⅛ inches thick, made of Select Cypress, a wood best suited to withstand the elements and which takes paint readily.** The pulley stiles, parting stops and blind stops are made of clear pine. Equipped with steel pulleys fastened into place. Frames are rabbeted or grooved and finished ready to nail together, without sawing. Stud opening should be 6 inches wider and 5 inches higher than opening size of window. Shipped knocked down (K.D.) in bundles.

Easy to Order Windows and Frames from the tables. The column of sizes under the heading of "Size of Glass" shows the size of glass in inches in each sash of the window, and all the prices on the same line in the other columns refer to windows or frames to fit this particular size. For example: Take a two-light window, glass size 24x28 inches; the size of the opening in the frame for this same window is 2 feet 4½ inches by 5 feet 2 inches. The price of a window glazed single strength is $2.01. Price of a pulley frame for this size window is $3.09. Weight of window is 22 pounds.

EXTRA SPECIAL

All items of Millwork including doors, windows, frames, moldings, porch work, storm windows, storm doors and etc. (pages 980, 981 and 982) are **shipped direct to you from our own factory in OHIO.** If you live west of the Mississippi River you will only be charged the freight from ST. LOUIS, MO., or CLINTON, IOWA, whichever is nearer to your station.

Doors, Molding and Porch Materials

Highest Quality Only

We carry in stock 150 kinds and sizes of exterior doors and over 140 kinds and sizes of inside nel doors, all of which are illustrated and described in our Building Material and Millwork talog, 543F (illustrated on page 980). We show on this page such articles as doors, moldings, mes, porch material, etc., that are in the greatest demand. Make your selection from these ges, as every article represents our very best values in Building Material and Millwork.

Extra Special!

All items of Millwork including doors, windows, frames, moldings, porch work, storm windows, rm doors, etc. (pages 980, 981 and 982) are **shipped direct to you from our own factory in OHIO.** If you live west of the Mississippi River, you will only be charged the freight from ST. LOUIS, MO., or CLINTON, IOWA, whichever is nearer to your station.

Best Values and Service

All our millwork is shipped bright and clean, and, as a rule, of better quality than can be purchased locally.

If you intend to build on a larger scale, and require a vast assortment of designs to select from, write for our special Building Material and Millwork Catalog 543F (illustrated and described on page 980). If time does not permit your waiting for the catalog, make your selection from these pages.

Door and Window Trim

IN SETS READY TO NAIL IN PLACE

These door and window sets are made in Clear Yellow Pine and Clear Oak. All parts of each trim set are carefully sandpapered and carefully wrapped, one set in a carton, free from dirt and ready to nail into place. All moldings are cut to exact size. The head trim, consisting of three moldings nailed together, for over doors and windows, has a cap with molded edge and returned at the ends. All moldings in these sets are of full standard size; cap molding, 1½x2 inches; head casing, ¾x4⅝ inches; fillet, ⅛x1 inch; side casing, ¾x4⅛ inches; window stool, 1⅛x3¾ inches; window apron, ¾x3½ inches; base blocks, 4½x10x1⅛ inches.

TO ORDER, give size of the door or window you want to trim, and mention the width first.

PRICE OF TRIM FOR DOORS

Price quoted covers any size door up to 3 feet wide by 7 feet high. Outside doors require one side of trim and inside doors two sides. Weight, 25 pounds.

Made of clear soft pine in a most substantial manner. High grade window glass is carefully secured with good putty and points; furnished "in the white." Not varnished or painted.

Size of our sash is sufficient to allow for trimming. In some cases a little trimming would avoid the necessity of ordering special sizes. In ordering give number in catalog of the storm sash wanted and the exact size of opening and we will send you sash which may be trimmed to fit.

EXTRA SPECIAL! All items of Millwork including doors, windows, frames, moldings, porch work, storm windows, storm doors, etc., (pages 980, 981 and 982) are **shipped from our own factory in Ohio.** If you live west of the Mississippi River, you will only be charged the freight from ST. LOUIS, MO., or CLINTON, IOWA, whichever is nearer to your station.

Four-Light Storm Sash

1⅛ inches thick. Carried in stock in sizes shown below. Prices do not include ventilators. Ventilators, 15c each, extra.

For Check Rail Windows, See Page 980

$30.00 Radiant Gas Heater for $17.50

Think of It! Costs Only 1 Cent per Hour With Natural Gas and Less Than 2 Cents per Hour With Artificial Gas

The best **Radiant gas heater** on the market! The price is fully one-third less than charged by service companies or gas appliance stores. BEST in every way because a minute after lighting the Radiant gas heater damp and chilly atmosphere quickly disappears. Cheerfulness and real home comfort are yours. This heater eliminates the use of furnace or boiler for two months in the year. You save coal, time and money. Burns natural or artificial gas. Perfectly odorless. No dust, dirt or ashes.

THE RADIANT GAS HEATER produces an intense, incandescent heat due to the scientific use of specially treated clay mantles, which consume **all of the gas,** and instantly radiate heat out into the room in an unusually large volume.

30-DAY TRIAL OFFER. Being the best Radiant heater on the market, at the lowest price, we can safely make this liberal offer. Send us your order, paying us our very low catalog price—try it for 30 days—if it falls below your best expectations in any respect, send it back to us, at our expense, and we will promptly refund your money, together with all freight or express charges you paid.

A Full Selection of Gas Heaters Is Shown on page 937.

Specifications

Heater is 22 inches wide, 22 inches high and 7 inches dee over all. Has 3-inch stovepipe connection. **Equipped wit heavy clay firebrick back wall.**

Furnished with a valve connection underneath. Has 1 individual tubes, 7½ inches high. Tubes are pure whit clay mantles that set over burners. When lighted, the tube produce a warm, red glow. Nickel plated reflector at bas of tubes throws this deep red glow about the room. Guaran teed to burn without back flashing and the white clay tube will not discolor with use.

Furnished with drilled burner for natural gas or machine burner with special valve for artificial gas. Burns on lo pressure gas.

You Can Heat a Room 14x15 Feet.

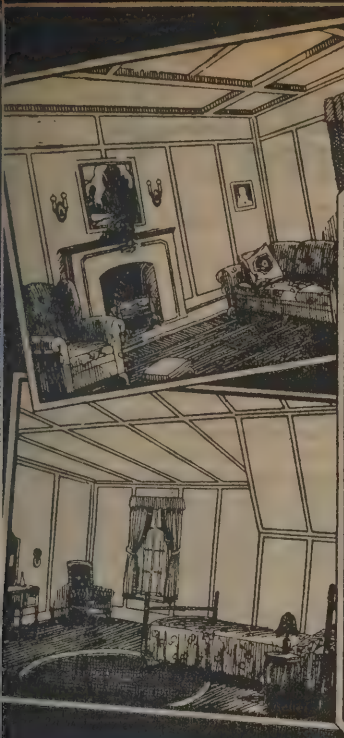
BEAUTIFUL ANTIQUE FINISH WITH BRIGHT BRASS ILLUMINATED EFFECTS.

$30.00 Is the Usual Retail Price in Large Cities. Our Extra Special Value

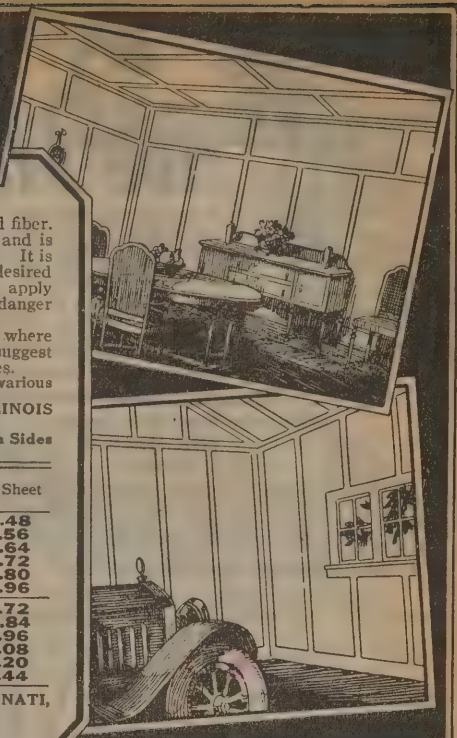
22F6798 — Radiant Gas Heater with burner for Artificial Gas. **$17.50**

22F6799 — Radiant Ga Heater, with burner for Natural Gas. **$17.60**

Shipping weight, 70 pounds. **Shipped from our CHI CAGO store or from factory in OHIO.**



Low Prices on Wall Board



WOOD FIBER WALL BOARD, as its name implies, is made of wood fiber. This material under another name sells at a much higher price, and is in great demand for new buildings and the remodeling of old ones. It is clean, dry, sanitary and durable. Can be painted or tinted any color desired and is especially treated for waterproof quality. Any handy person can apply it with satisfactory results. Can be sawed and solidly nailed without danger of splitting. Rooms are ready for occupancy as soon as applied.

Suitable for schools, lodge halls, office buildings, garages and stores where quick work, decorative possibilities, and warmth are desired. We suggest using the wood panel strips over the joints. Standard size, 5/16x1¾ inches.

Wall board comes in sheets 32 or 48 inches wide, 1/4 inch thick, and in various lengths from 6 to 12 feet. Carefully bundled for shipment.

Shipped from factory in WESTERN NEW YORK or SOUTHERN ILLINOIS only. When ordering be sure to give size of sheets wanted.

48F3196—Plain Light Cream Finish. Both Sides Alike

Building Papers and Felts

Blue Plaster Cardboard

LESS than one-half of a cent a square foot for our Fulton Brand Blue Plaster Cardboard. Largely used in camps, cottages, etc., as a low priced material for ceiling and above wainscoting.

Also, can be used in many types of buildings where a low cost interior finish is desired. One of its many uses is for lining garages. It keeps out wind and cold. When used for garages, nail Blue Plaster Cardboard between the studding.

Fulton Brand Blue Plaster Cardboard is a heavy paper about the thickness of an ordinary blotter but with smooth surface, made only in A grade from carefully selected stock and makes a sheet which is strong and durable. It comes in a pleasing shade of blue. Easily put on with ordinary large headed tacks or 6-ounce billposters' tacks. For sheathing purposes it would be hard to obtain a warmer, stronger or tougher material than our Fulton Brand Blue Plaster Cardboard at such a low price.

Rolls are 36 inches wide. It can be included with your order for wall paper or other merchandise.

Shipped from CHICAGO or PHILADELPHIA store.

Catalog No.	No. of Square Feet, per Roll	Weight, per Roll, Pounds	Per Roll
48F3012	250	30	**$0.90**
48F3013	500	60	**1.80**

Tarred Felt

TARRED Felt is one of the best kinds of building paper for lining floors and for use between sheathing and siding. Can be used under stucco and brick veneers. It is also used for gravel roofs. **Made of carefully selected felt, thoroughly saturated with redistilled American coal tar.**

48F3050—TARRED FELT. We recommend this for all first class jobs, because it is the thickest. Used extensively for roofing sheds and temporary buildings. It makes an excellent insulating felt and should be used under all floors where a good job is wanted.

48F3054—TARRED FELT, medium thickness. This thickness of tarred felt is also used for gravel roofing where several layers are specified. It is a lighter weight (not so thick), and where a medium grade of work is required, 48F3054 Tarred Felt will be found very satisfactory.

48F3055—TARRED FELT. This thickness of felt is made with the same care as the two heavier grades, but is thinner.

Shipped from CHICAGO or PHILADELPHIA store.

Catalog No.	No. of Square Feet, per Roll	Weight, per Roll, Pounds	Per Roll
48F3050	250	60	**$2.00**
48F3054	400	60	
48F3055	500	60	

Red Rosin Paper

RED Rosin Sized Building Paper should be used under siding and between floors of all residences. It makes the dwelling warmer, drier and more healthful. The valuation of any property is increased when it is insulated to make it warm in winter and cooler in summer.

The cost is so small when compared to the gain that it is now used more than ever.

It is rosin sized. We sell two different weights of this paper. We recommend our **Leader Brand,** weighing 40 pounds per roll, as it is thick, tough, durable and of sufficient weight to give the most satisfaction.

Our Competition Brand is a fair grade, light in weight and runs 20 pounds to the roll.

However, no matter which brand you choose, you can rest assured of obtaining a splendid value for the money.

All rolls contain 500 square feet.

Shipped from our CHICAGO or PHILADELPHIA store.

Catalog No.	Brand	Width, Inches	Weight, Pounds	Per Roll
48F3000	Leader	36	40	**$1.08**
48F3007	Competition	36	20	**.54**

Deadening Felt

HOMAN BRAND Deadening Felt is used to deaden the sound between floors and in walls. Especially suited for bungalows, two-story houses and apartments. Again, it serves as a layer under floor linoleums, oilcloths or rugs. Its many uses are being recognized everywhere. Formerly only the more expensive buildings were equipped with it. Now it is unusual when deadening felt is not used.

Our low prices for such quality of deadening felt is all the more reason for its usefulness for building purposes or as a layer underneath floor coverings.

It is made of a good grade of felt, soft and pliable, and will add much to the warmth and value of your building.

Homan Brand Deadening Felt comes in two weights. You may choose either weight and be sure of satisfaction, but we recommend the heavier felt, 48F3006. It makes the floors more sound proof and warmer.

Homan Brand Deadening Felt should be under every floor.

All rolls contain about 450 square feet.

Shipped from our CHICAGO or PHILADELPHIA store.

Catalog No.	Weight, per Square Yard	Width, Inches	Approximate Weight, Lbs.	Per Roll
48F3004	1 pound	36	50	**$2.35**
48F3006	1½ pounds	36	75	**3.60**

LUMBER

LATH AND SHINGLES AT WHOLESALE PRICES

We Make FREE Estimates

Here are the items of lumber generally required. For complete assortment, write for Lumber Price List 8851F, OR SEND LIST OF MATERIAL YOU REQUIRE AND WE WILL GIVE YOU A TOTAL PRICE DELIVERED AT YOUR STATION, ALL FREIGHT CHARGES PREPAID.

Immediate shipment of lumber shown on this page will be made from our modern, 40-acre lumber plant in southern Illinois. The quality of our lumber, grade for grade, is exceptionally fine. It is stored in clean, dry warehouses after being dressed. The assortments carried have been carefully selected to give best service and value. Remember we guarantee absolute satisfaction!

We specialize in yellow pine and cypress. Yellow pine, the best authorities agree, including U. S. Government experts, is stronger than soft woods, such as spruce, tamarack, Norway pine and similar structural woods. Cypress is one of the best woods known for outside of buildings, because of its wonderful weather and time resisting qualities. Note the fine selection of yellow pine and cypress on this page.

All of our lumber is finished to standard sizes.

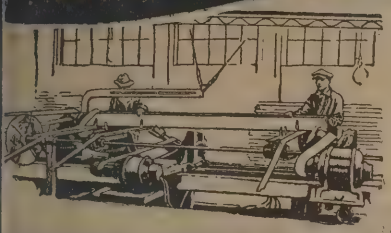
Save $100 to $500 on Your Barn



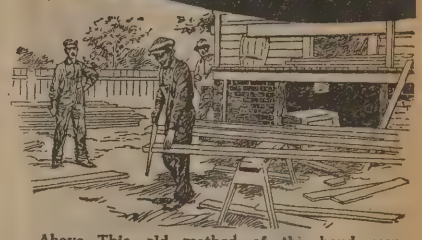
Above—One of a battery of ready cutting machines that reduce carpenter labor 40 per cent.

"Honor Bilt" Already Cut Farm Buildings

are another important and successful link to the chain of steady development on the American farm.

Just as the sickle has been replaced successively by the cradle, the self rake and the binder, so the old time wasteful not ready cut system of construction is being replaced by our modern, economical and successful "Honor Bilt" Already Cut buildings.

Sears-Roebuck "Honor Bilt" Barns have been built everywhere. Our customers have profited greatly because—



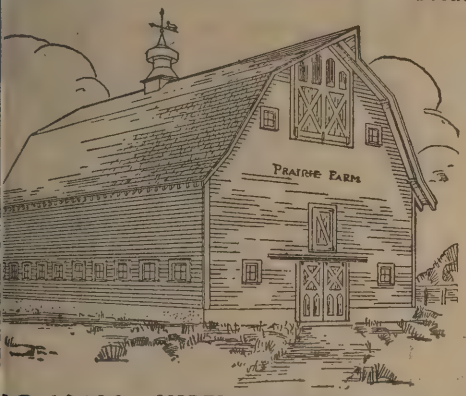
Above—This old method of the hand saw results in waste and needless expense.

5 Topmost Points of Saving

1. **Wholesale Prices—direct from our large mill to you.**
2. **Guaranteed material, the best for the purpose.**
3. **Guaranteed quantities. No extras to buy.**
4. **All framing cut to fit, ready to nail in place; all doors are factory built.**
5. **Accurate, scientific plans, designed by experienced architects. Our plans and instructions are easy to follow.**

"Honor Bilt" construction is strong, sound, permanent and economical. Stands every test of time and service. Satisfies! Praiseworthy letters from customers and sworn testimony prove these facts. Our guarantee is your protection.

Our lumber is all bright and new—fine dry yellow pine, the strongest and best lumber for framing purposes. Cypress, "The Wood Eternal," is furnished for siding and outside finishing lumber on our better barns. Barns covered with cypress have been known to last over 200 years.



$817.00 MODERN GENERAL BARN "HONOR BILT" Size, 28x40 Feet

$796.00 "PIONEER" BARN "HONOR BILT" Size, 30x36 Feet

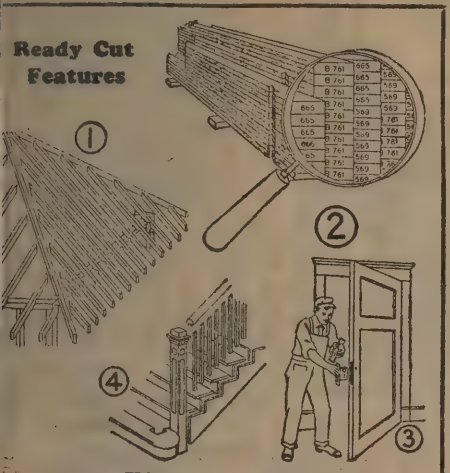
The Better Grade of Houses

BUILD YOUR HOME READY-CUT!

"HONOR BILT" means a more Substantial Home—a Warm and Comfortable Home—perior Home for you—and at a big saving in money and time!

They are permanent, high grade homes. "HONOR BILT" Homes are furnished already and fitted. They have double floors, double walls and 2x4-inch studding. Outside door ings are CLEAR CYPRESS, 1⅛ inches thick. Every detail is a quality product.



Save Time and Money

-Note the notches and miters. No use for a saw here.
-Pieces numbered to correspond with plans.
-Doors mortised for locks.
-Every piece cut to fit. A most difficult job made easy.

Sold on Easy Payments

If you own a good, well located building lot and have some cash, we will consider shipping you an "HONOR BILT" Modern Home, including the Heating, Plumbing and Lighting Fixtures; arrange Easy Monthly Payment Terms, and (in some instances) advance part of the cash for labor and such materials as we do not furnish—brick, cement, etc. The monthly payments shown do not include interest.

Prices for "HONOR BILT" Modern Homes shown on these pages include the following items:

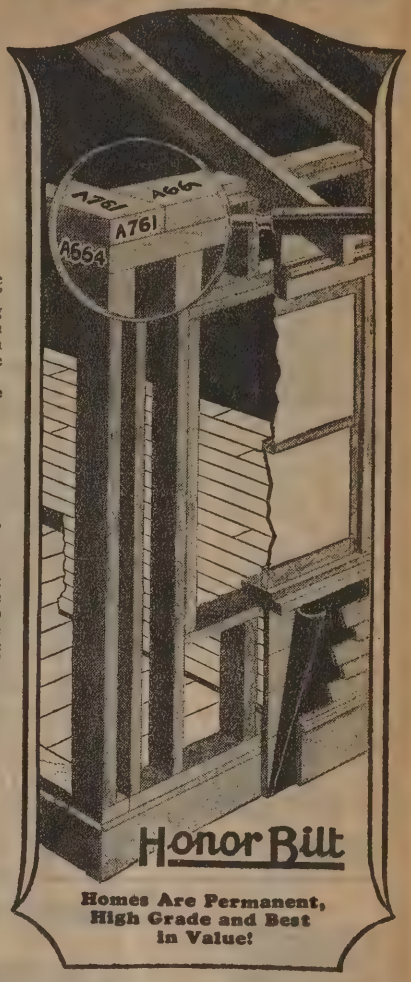
Lumber	Molding	Nails
Lath	Flooring	Eaves Trough
Millwork, such as:	Medicine Case	Down Spout
	Porch Material	Paint and Varnish
Doors	Building Paper	
Windows	Hardware	

Shingles or Roofing as specified.

We guarantee enough material to finish the house complete, except cement, brick and plaster.

Save From $500.00 to $2,000.00

You need our Book on "HONOR BILT" Modern Homes. It will save you $500.00 to $2,000.00, depending upon the size house you build. It illustrates 100 designs of homes for city, suburb and farm, including the very newest in bungalows. Each home is priced, completely illustrated and described. Floor plans are shown for every design. Just a few of the "Honor Bilt" Modern Homes are shown here.



Homes Are Permanent, High Grade and Best in Value!

The illustration above shows how well an "HONOR BILT" Ready-Cut Home is constructed. Note the double plates over windows with the double studding at the sides. Three studs at the corners give additional strength. Double floors and walls with heavy building paper between, insures against drafty rooms. The skyscraper idea gives you a better home for less money.

Compare this heavy construction when you compare prices.

Proofs of Satisfied Customers

We have thousands of letters from customers who have not only saved from $500.00 to $2,000.00, but who happily tell us that ours is the best homes in their city.

Concrete Mixer and Block Machine

$26.80

Save Money by Doing Your Own Concrete Work

Concrete will not rust or rot. It needs no paint to preserve it or keep it looking good. Neither fire or storm destroys it. When you build with concrete you build to stay. It practically eliminates repairs, replacement and upkeep expenses. You can build with concrete many of the needed improvements about your farm for less money than in any other way.

The Triumph Concrete Mixer

Especially built for farm needs. Every farmer should have one of these mixers. The Triumph Mixer is an ideal mixer for the countless small jobs that can be easily done during spare hours.

Here are some of the uses it can be put to: Building—

Concrete Foundations
Concrete Floors
Concrete Feed and Water Troughs
Concrete Sidewalks
Concrete Culverts
Concrete Fence Posts
Concrete Roadways
Concrete Fruit and Vegetable Cellars
Concrete Porches
Concrete Porch Steps, etc.

This Triumph Concrete Mixer will pay for itself on any one job. It thoroughly MIXES CONCRETE, MORTAR OR PLASTER—wet or dry. A GOOD FEED MIXER.

SPECIFICATIONS

Design—Tilting drum permits loading on one side and discharging on the other.

Material—Made of the best grade of gray iron castings, heavy sheet steel and heavy angle plates well braced.

Capacity—1½ to 2 cubic feet per batch (a wheelbarrow load).

Power—Equipped with 16-inch pulley, 3-inch face; can be operated with 1 horse-power engine; also handle furnished for hand power.

Frame—Made of 1½x1½-inch steel angle.

General Dimensions—Length, 3 feet; width, 2 feet 10 inches; height, 4 feet 6 inches; shoveling height, 35 inches.

Drum—Heavy 16-gauge sheet steel, with cast iron bottom, 22 inches deep, 18 inches in diameter at top, 23 inches in diameter at bottom, inside measurements.

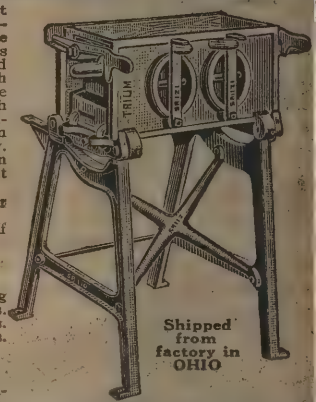
63F5998—Triumph Concrete Mixer on Stand. Shipping weight, 250 lbs..**$26.80**
Shipped from factory in OHIO.

Triumph Block Machine

$28.90

A good block making outfit at a moderate price for anyone wishing to make concrete blocks for his own use. Makes blocks face down, using a wood pallet. Makes 8x8x16-inch blocks with rock face and double air space. Flask is locked with simple latches attached to endgate. Two men can make from 100 to 125 blocks per day. Mounted on substantial iron stand as shown. Each outfit contains:

One Rock Face Plate for whole blocks.
One Rock Face Plate for half and quarter blocks.
Two Rock Endgates.
Two Core Endgates.
Two Dividing Plates.
One Gable Block Dividing Plate for making gable blocks.
Two Joist Block Attachments.
Plugs for making solid blocks.
One Striker.
One Double End Tamper.
One Sample Wood Pallet.
Additional parts and attachments can be furnished extra.



Shipped from factory in OHIO

63F5709—Triumph Block Machine for 8x8x16-in. blocks, on iron stand, as illustrated. Shpg.wt.,165 lbs.**$28.90**

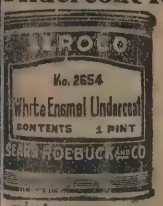
For Our Complete Line, Write for Your Copy of Our Concrete Machinery Catalog 532F

If the concrete machine or mixer illustrated and priced here do not suit your requirements, then send for our Catalog of Concrete Machinery 532F. It shows a large variety of molds for concrete products, including block machines, urn, chimney column, pier, baluster, brick and silo molds, automatic block tampers, pallets, sill and cap machines, and 5 and 10-foot concrete mixers.

It is yours for the asking; sent postpaid.

Bright — Clean Beautiful ENAMELS

Undercoat for Snowhite Enamel . . 1 Gallon, $2.38



A good white enameling job depends upon the quality of the ground color. Beware of a poor undercoat; it cannot produce a perfect job no matter how fine the enamel. Our Undercoat is especially prepared for enameling and is guaranteed to give excellent results when used with Snowhite or other enamels. Dries quickly, produces a perfect surface and saves the cost of an extra coat of enamel. Spreading capacity, about 250 square feet, two coats per gallon. Apply with a good brush, such as 30F3044, listed on page 1006.

30F2654

(Shipping weight, 2¼ pounds.)

-quart can.....**64c**
(Shipping weight, 6 pounds.)

½-gallon can.....**$1.25**
(Shipping weight, 10 pounds.)

1-gallon can.....**$2.38**
(Shipping weight, 19 pounds.)

Decorative Enamel . . . . . 1 Pint, 42c

High grade enamel put up in convenient, small size cans. There are many odd pieces of furniture in your home that will be brighter touched up with Decorative Enamel. You can add color to shelves and woodwork. Breakfast sets may be made from odd furniture, mismatched pieces made to harmonize. Its covering qualities are unusual. One ½-pint can is sufficient to cover an ordinary iron bed. Apply with a good brush, such as our 30F3044, on page 1006, and be sure of a good job. **Be sure to mention color wanted when ordering.**

30F2135—Light Gray.
30F2139—Dark Green.

Bathtub Enamel . . . . . 1 Pint, 48c

Liquid Porcelain

Make your bathtub sanitary and attractive with our Waterproof Bathtub Enamel or Liquid Porcelain. It will resist very hot water and retain its wearing qualities. When applied to a sheet metal tub over White Enamel Undercoat 30F2654, it gives a beautiful, porcelain like appearance. Also recommended for kitchen sinks and drain boards. Apply with a good brush, such as 30F3044, shown on page 1006.

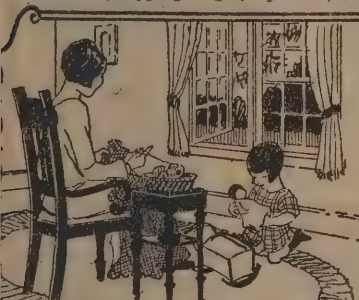
Household Radiator Enamel . . . . 1 Pint, 52c

Radiators can be made to harmonize with your interior color scheme if ou keep them painted. Here are three colors that have proved popular nong home owners of the country. This high gloss finish will not rub off, peel off or ister. Apply with a 2 or 2½-inch varnish brush.

30F2124—Ivory. **30F2125**—Buff. **30F2126**—Pearl Gray.

-pint can (Shipping weight, 2¼ pounds).....**52c**
-quart can (Shipping weight, 6 pounds).....**95c**



Gloss Enamel

One of the most beautiful high gloss finishes ever offered. Nine lovely colors are made for sun parlors, porches, bathrooms or kitchens. Second in value to only our Snowhite Enamel. It is fine for the ordinary enameling job, but where a perfect finish is desired we recommend our Snowhite Enamel, listed above at right. No other enamel offered elsewhere at these prices can be compared with this. It has made thousands of friends for The World's Largest Store. One gallon of Seroco Gloss Enamel will cover about 200 square feet, two coats. Apply with a good brush, such as our 30F3044, shown on page 1006. **Be sure to state color wanted.**

For Color Samples see Page 996.

Shpg. wt., 10 lbs.

1-gallon can.....**$2.47**
Shpg. wt., 19 lbs.

Snowhite ENAMEL

In a few hours you can give a room a beautiful porcelain like finish, you can add cheer and light, you can make it easier to clean and better and fresher to live in.

We make Snowhite Enamel in our own big modern factory and we sell direct to you. The profit ordinarily paid dealers and middlemen is eliminated and you save the difference. Comparison will prove that nowhere else can you obtain an enamel of equal quality at so low a price.

It is recommended for all places where cleanliness and beauty are essential—homes, bakeries, restaurants, hospitals, creameries and hotels. When enameling over other than white surfaces, first, apply two or three coats of White Undercoat, such as our 30F2654, at left above, and then one, or at the most, two coats of enamel. One gallon of Snowhite Enamel will cover approximately 200 square feet, two coats. Apply with a good brush, such as our 30F3033, shown on page 1006.

30F2165—Snowhite.

1-quart can...**$1.12**
(Shipping weight, 6 lbs.)

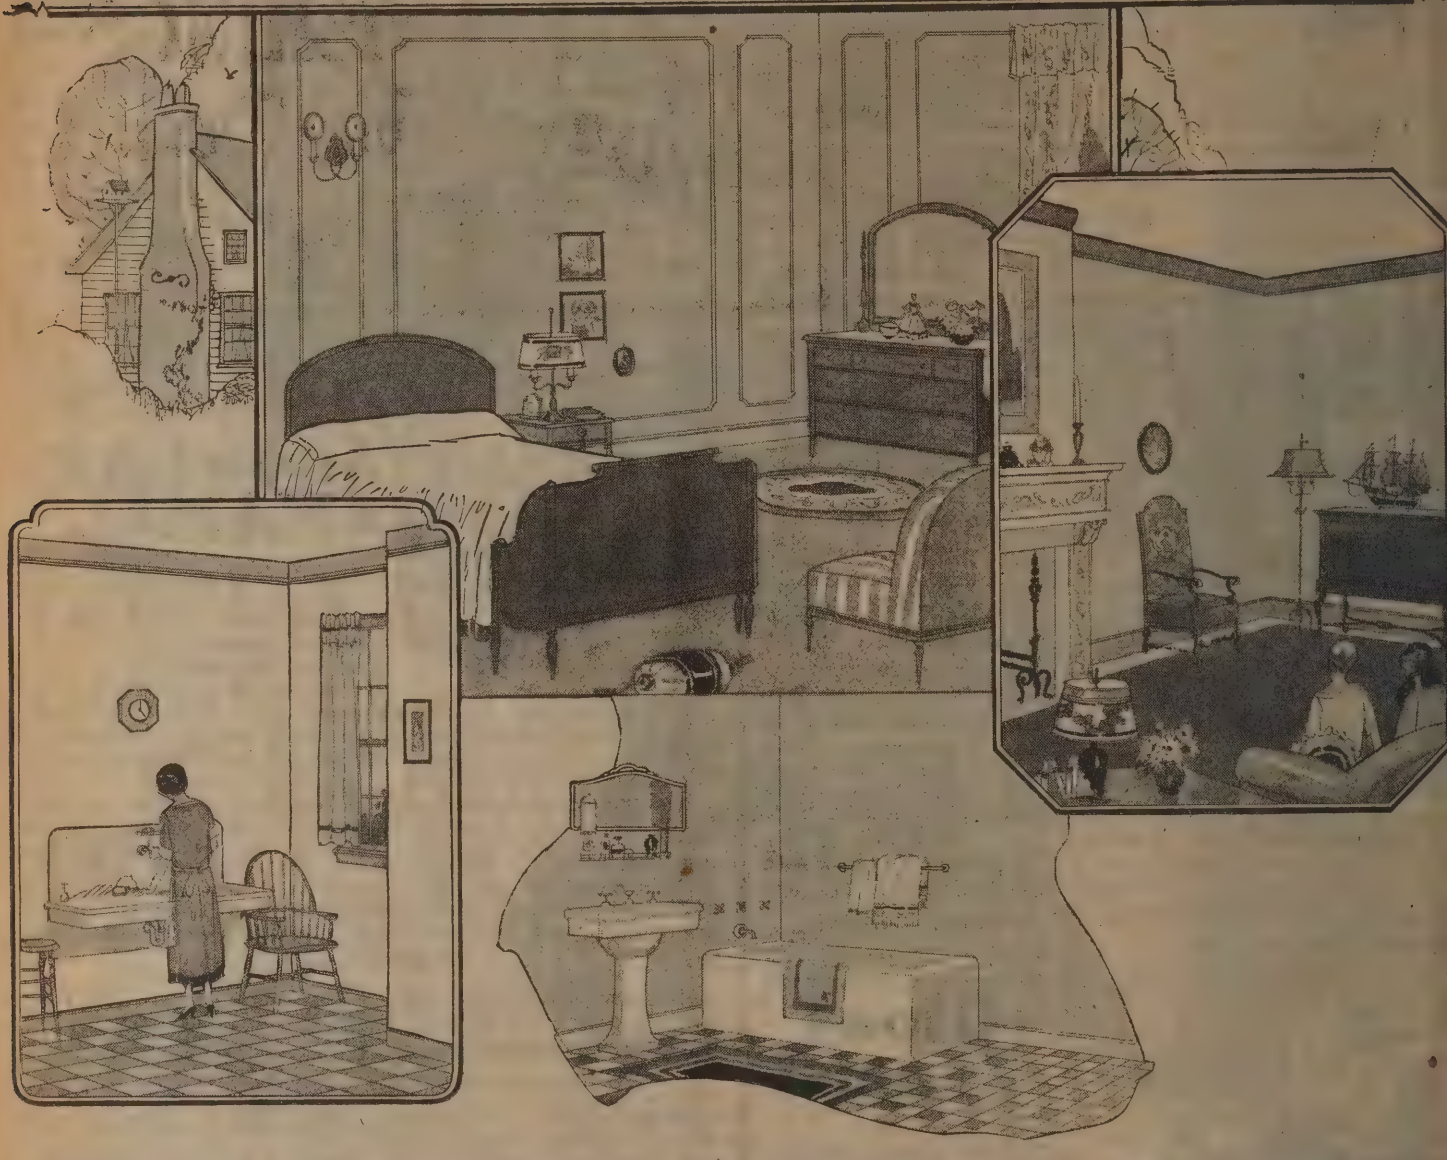
SEROTONE

"A SATIN FINISH PAINT"



IF YOU could look into the homes of dozens of women whose taste everyone respects, you would find strikingly beautiful rooms done in the new interior finish—*Serotone*. A year has passed since we introduced *Serotone*. In that year the capacity of our factory has been taxed to meet the increasing demand. *Serotone* has won instant favor. Wherever people speak of painting walls, and they are painting a great deal today, *Serotone* is recommended.

This new finish has the refinement of the finest bond paper, no high gloss and no flatness, but a smooth glow of color that makes it ideal for walls. Because it is washable and because it comes in a wide range of tints, *Serotone* is practical for every room in the home. From kitchen to living room, we guarantee you more beautiful walls and easier cleaning days than you ever imagined possible.

$2.55 A GALLON

SEE the soft, beautiful colors of *Serotone* on Page 996. One gallon will cover about 200 square feet of wall with two coats. No undercoat is necessary on painted walls. An extra coat may be needed where a light tone is applied over a darker one. On unpainted walls it is necessary to use Seroco Undercoat Size 30F2734, on page 1000, with the first coat.

30F2040—Ivory.	**30F2046**—Sepia Brown.

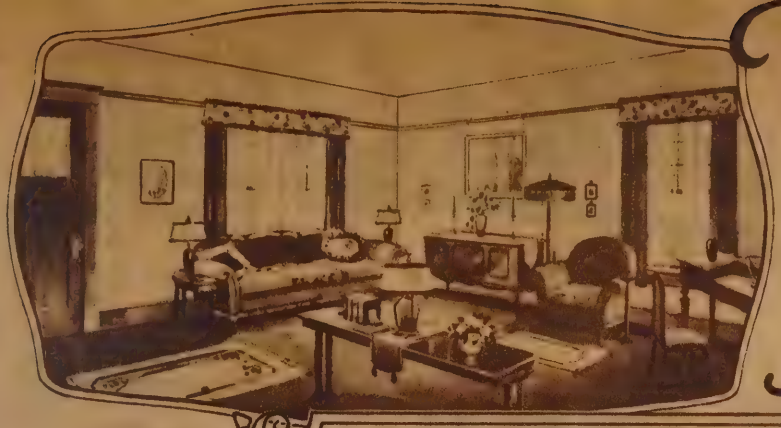
THE PERFECT INTERIOR PAINT



How to Choose COLORS and FURNISHINGS for Your Home

A NEW AND EASY WAY TO HAVE

Tasteful and Beautiful Home Surroundings

Hazel H·Adler
Celebrated Interior Decorator and Color Authority

EVERYONE desires the home to possess real beauty so that the atmosphere will reflect culture and good taste.

Now our customers can be sure of an artistically arranged and decorated home. We have published a thorough manual on the art of interior decorating and are offering these 28 pages of valuable suggestions for just what this book costs us. This practical book, "How to Choose Colors and Furnishings for Your Home," was prepared especially for our customers by Hazel H. Adler, America's foremost interior decorator and an international color authority. This book, of a convenient size, contains many elaborate color charts, color schemes, plans, diagrams and decorating suggestions. It covers every phase of the art of interior decorating with ideas so practical that you can emphasize and create beauty both inside and outside your home with very little effort. It explains in a clear, interesting manner how to—

Plan color schemes; paint or paper walls; decide on floor coverings; select furniture.

Choose and make curtains and draperies and add those little touches which give charm and distinction to a home.

Provide a proper color scheme for every room in your home. Suggestions for this purpose are beautifully illustrated in full color.

And a patented Interior Decoration Color Harmony Chart assures you of a wide selection of varied and interesting color combinations.

Include this book in your next order. Be sure to order it under the following catalog number:

No Dealer Costs — We Make Master Art Wall Papers From the Paper Pulp to the Finished Roll

Seven Reasons Why We Save You Money

1 2 3 4 5

We Make Master Art Wall Papers in our own big modern mill. The best modern equipment and the most skilled labor blend and mix the delicate colors.

We Sell It Direct to You with only one profit added. Eliminate retailer costs, salesman costs and overhead. Buy direct from the manufacturer.

Master Art Papers Are Easy to Hang, because they are **Ready Trimmed.** We own and control this feature. Anyone can decorate easily and quickly this new way.

Each One Is Grounded, a process which makes Master Art Papers easily cleaned and less likely to fade. This process is wall paper insurance.

A Wide Selection of Patterns is contained in our Big New 1927 Book—dozens of beautiful papers any salesman would be proud to show. Mail the card above today.

ALL THE COLORS IN THE RAINBOW

Seroco House Paint

at the Low Price of $2.30 a GALLON in 5-Gallon Pails

Every Gallon of this Famous Paint backed by the Strongest Paint Guarantee in the World—An absolute protection to you. See Page 998

"Save the surface and you save all"—Paint & Varnish

Fresh, smooth flowing paint direct from our big factory to you. Every gallon guaranteed to give you the service you have a right to expect from a high grade paint. Buy direct from the maker—eliminate middlemen. **Save from one-fourth to one-half** compared to usual retail prices on every gallon of Seroco Paint purchased from us.

Every element in Seroco Paint has been given exhaustive laboratory tests to prove the high standard of quality we demand **Only the best lead, zinc and linseed oil go into it.** We know you will be satisfied with Seroco Paint, and we **must** satisfy you. If, at any time after applying Seroco Paint according to our directions, you feel that it has not been entirely satisfactory, we will furnish new paint free of charge and pay you the cost of putting it on your building. This is plainly written in our guarantee on page 998, and backed up by a firm whose name for years has stood for honesty and square dealing. No other dealer or manufacturer gives this iron clad guarantee.

Choose your color from the opposite page. A house is always a house, but a painted house is a home—worth more in money and worth much more in pride. Paint is protection. Wood decays, and weather creeps in to shorten its life when it isn't kept painted. You know the value of paint. We know **you can't buy a paint equal to Seroco House Paint any place at these prices.** Paint this fall and protect your house for the winter.

Seroco Barn Paint

$1.39 A GALLON In 5-Gallon Pails

Your barn protects your crops and live stock from rain and sun. But your barn needs protection, too. It shouldn't go year after year without attention. Wood rots when the surface is neglected. Paint your barns and outbuildings this fall with Seroco Barn Paint, covered and protected by the same strong guarantee as Seroco House Paint. This guarantee is shown on page 998. Further description and prices of our Barn Paint are shown on the same page.

The opposite page gives you as accurate an idea as ink can give of the colors of Seroco Barn Paint.

Seroco Shingle Stain

The three beautiful colors on the opposite page are the only ones in which a Creosote Shingle Stain can be successfully made. Beautify your house and weather proof it with this fine stain. It's easy to do it yourself, and you save money. Imagine the roof of your home brightened, fresh and new, with one of these colorful shades. On page 999 you will find prices and description of Seroco Shingle Stain.

You Will Need Some Linseed Oil

On painted surfaces in fairly good condition apply two coats of Seroco Ready Mixed House Paint with the first coat thinned with ½ pint of turpentine to each gallon of paint. **On surfaces that have never been painted and on old porous surfaces badly in need of paint, three coats should be applied, the first coat thinned in proportion of about 2 quarts of pure raw linseed oil to each gallon of Ready Mixed Paint.** On new surfaces of pitchy lumber that have never been painted, you will need about one quart of **turpentine** and one quart of **linseed oil** per gallon for the first coat.

Seroco Substitute for Turpentine

Paint Thinner

An economical thinner to be used in place of turpentine in paints on old surfaces and for cleaning brushes. Guaranteed satisfactory. Write for prices on Pure Turpentine.

You Save Real Money Here

SEROCO Gloss Enamel

Paint up your bathroom, your kitchen and bedrooms with this fine enamel. It is easier to wash than ordinary kinds because it has a high gloss. We offer seven cool, clean, beautiful colors; five of them can be seen on the opposite page. Because we make Seroco Gloss Enamel you save retailers' profits. Shop around if you will; compare prices. We know that no store can duplicate this price in a fine, smooth, shelllike Grade A finish. Turn to page 989 for full prices and description.

$1.28 a ½-Gallon Can

PORCH and INTERIOR Floor Paint

A fine hard finish. It stays bright on floors for a long time. Because it is made in our own factory we know the large amount of tough, hard drying varnish that has gone into it to give it durability. Try it on your floors, outside on the porch or inside in the hall and on the stairs, you will find it a fine paint that you can put on easily and forget. Look at this price! Then compare this quality with any other on the market and be convinced that you can save more money at Sears. See page 1003 for full prices and description.

Only $2.08 a Gallon for Interior Paint

SEROTONE

You and thousands like you have been looking for an interior paint that was neither dull nor high gloss. Here it is, in a paint more popular than we ever imagined a paint could be. Serotone is used by more discriminating housewives than any other interior finish. It is as washable as it is beautiful, and it fits wonderfully well into any decorating scheme. On the opposite page is shown the great variety of shades in which it comes. Serotone is good for any room in the house. It spreads easily and dries quickly. An amateur can do a job a professional would be proud of. Try the season's newest paint. See page 990 for prices and more adequate description.

Only 40c a Quart

Save the Middlemen's Profits

Flat Finish Paint

A beautiful, dull finish that you can wash with soap and water. That makes it ideal for winter days when the furnace is in use. If you have small children you will appreciate this paint. Flat Finish has all the lasting qualities of ordinary paint plus the soft, velvety effect of kalsomine. For full description and prices see page 1000. See colors on the page opposite.

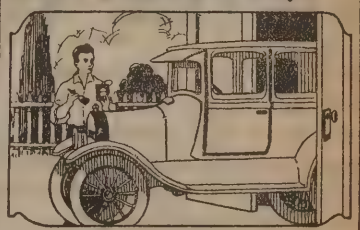
Kalsomine

For as little as 35 cents and a few hours' time you can finish your room in any of the delicate tints shown on the opposite page. Complete directions for applying are on each package. A sponge and water will remove old kalsomine, together with all dust and dirt. Isn't it worth this small amount to cover your rooms with such a fine covering? See page 1001 for additional description and prices.

CHINESE GLOSS LACQUER

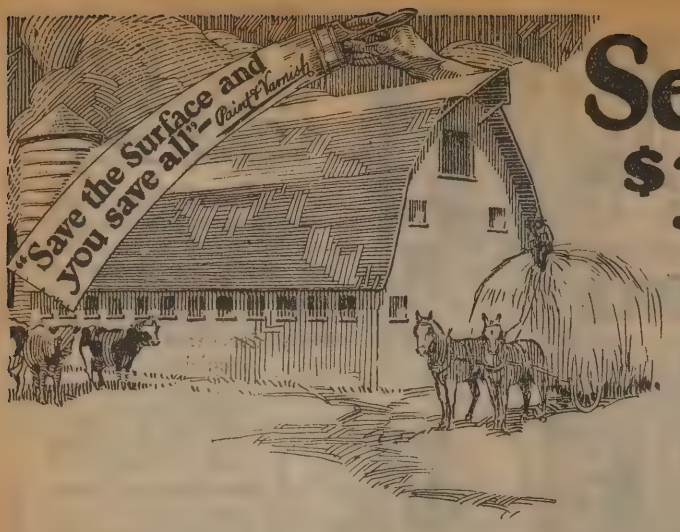
A colored varnish that is being extensively used this season in adding life to odd pieces of furniture about the house. It makes beautiful breakfast sets from any mismatched furniture you may have. It is used in harmonizing pieces. You can give a walnut table, oak cabinet and cherry writing desk the same finish as your mahogany chairs. There is no home that cannot be made brighter and more attractive by the use of Chinese Gloss Lacquer. It is applied easily and quickly. Any housewife may use it with ease and achieve beautiful results. It is one of the most popular varnishes we make. We know that Chinese Gloss Lacquer will do more for you in brightening your home than you can imagine. On page 1004 are prices and full description.

Auto Enamel



Bring your car right up to 1927 style with a coat or two of these new, popular colors. They're all the go; practically every auto factory is using these shades on its new cars. It's no job at all for any man to repaint his car with Seroco Auto Enamel and make it look just like a new job right off the floor of a salesroom. Seroco Auto Enamel is easy to apply, it is a durable lasting finish and its coloring is permanent. We are offering this Auto Enamel only after exhaustive tests in our big paint factory have proved that it is one of the best finishes for the purpose that can be made. And look at the price! We make this enamel in our own big factory, under our own supervision. That makes it possible for us to guarantee you a saving. We have made a good auto paint, and we're offering it at a very low price. Turn to page 1005 for complete description and prices.

$1.42 Will Refinish a Ford Car



Seroco Barn Paint
$1.39 Per Gallon

YOU don't need to be told the advantages of good paint and frequent painting, of the years it adds to the life of wood and the satisfaction you get from well kept farm buildings. You want a paint that will cover well, spread easily and smoothly, one you can put on and forget.

Seroco Barn Paint will save you dollars on every painting job. We believe it is the best Barn Paint sold. Seroco is scientifically tested for covering capacity and quality. Our Pebble Mill Process, used only in preparing the finer grades of House Paint and, to our knowledge, *used in the preparation of no other Barn Paint*, gives Seroco smoothness. This process grinds each particle of oxide with the oil and assures an absolute uniformity of color.

Quality considered, Seroco Barn Paint is the best buy on the market. Look at these prices. State color.

The Strongest Paint Guarantee in the World

Any store can guarantee you paint. Perhaps they could offer you a similar guarantee. But, whether they could make good their promise is another matter. A guarantee is as good, and no better, than the reputation of the house that gives it to you.

For more than 25 years Sears, Roebuck and Co. have been the World's Largest Paint Store. We sold over a million gallons of paint in 1925. Day by day we prove our supremacy in the field by the number of re-orders we receive. Hundreds of our customers have bought from us for ten and fifteen years. That, after all, is the real test of paint, just as the gigantic resources of the great store behind the paint really guarantee, that the promise given will be fulfilled.

This guarantee is back of every gallon of Seroco House and Barn Paint. Back of every gallon too, is the hand and seal of The World's Largest Store.

We Guarantee

To furnish new paint free of charge, ship it to you at our expense and PAY FOR PUTTING IT ON YOUR BUILDING, if Seroco Paint does not give you the service you have a right to expect when carefully applied according to our directions—two coats to painted surfaces in fairly good condition, three coats to new surfaces and old painted and unpainted surfaces in bad condition—with raw linseed oil and turpentine added as per instructions on the containers, depending on the condition of the surface.

If after applying a portion of any Seroco Paint you are not satisfied in every way, you may send back the remainder, and we will return the price you paid for the entire quantity, including all shipping charges.

We guarantee Seroco Paint to represent good honest value; that it will make a nice appearing job; will fully protect the surface on which it is applied; is easy to apply and will give you the service you have a right to expect of any paint, regardless of price.

The Guarantee Back of Every Gallon

Stop Roof Leaks! Protect Your Home!

Seroco Shingle Stain . . . . . 1 Gallon, 85c

Weatherproof your roofs, shingled walls and buildings made with rough siding. But do more than that—beautify them, too. Seroco Shingle Stain preserves and beautifies. A high percentage of Creosote Oil gives this stain high quality and the utmost in protective features. One gallon will cover approximately 80 square feet of shingles, two coats, or about 125 to 150 square feet on fir siding and similar soft woods, two coats. When dipped, 2½ to 3 gallons will cover approximately 1,000 of the 4x16-inch shingles two-thirds of their length. Apply two coats to obtain an extra good color. Directions for measuring your roof are given on page 995.

NOTE—Only the Bungalow Brown can be used on hardwood. For Color Samples see page 1008.

Liquid Coal Tar . . . . . 1 Gallon, 55c

Any surfaces that are liable to rust, like those of water tanks, fence posts and metals, coated this Liquid Coal Tar. It is extensively used by roofers for recoating gravel roofs and composition roofing and they buy it here because they can save money. This coal tar may be applied cold, but is used to better advantage, when heated to a boiling temperature; also makes a good pruning paint and tree wound dressing.

Rufix Black Maroon

Sold Under Our Own Trade Mark, Registered in the U. S. Patent Office

Our Best Roof Paint

For the man who wants to keep his roof in good condition, we suggest our high grade Rufix. A coat of this paint **now** will assure roof protection for years to come and give you an attractive roof, in keeping with the rest of the house. Rufix is a combination of weather resisting gums and oils which form a thick, elastic, weather-proof coating. We unhesitatingly guarantee it to give the service you have a right to expect from the highest grade roof paint on the market and, if for any reason it fails to come up to this standard, we will furnish you new roof paint free of charge. Do not let our reasonable price confuse Rufix with cheap coal tar products. Rufix is made entirely of high grade products which will not soften even during very hot weather.

Rufix is easy to apply and you can readily do the work yourself. It is slightly thicker than ordinary paint and will give best results when applied with a roof brush (see our roof brush above at right). One gallon will cover approximately 250 square feet, one coat, on smooth surfaces.

Roof Cement

Asbestos Fiber Liquid Cement

Contains no Coal Tar

35¢ PER GAL. IN 50 GAL. BARRELS

Made of genuine Long Fiber Asbestos and Gilsonite Asphaltum. It will not run or sag in warm weather, nor crack in winter. It makes no difference whether your roofs are flat or steep, or whether they are composition, felt, paper, gravel, shingle or metal. Our Asbestos Fiber Liquid Cement will penetrate and cover every crack, crevice, joint, nail hole or rust spot. It will stop the repair bills and give you a reliable, lifelong, satisfactory new roof surface. It comes in a thick liquid form ready to spread over your old roof. No experience is required, and it can be spread with the simplest of tools. We recommend our brush, 30F3170, listed below.

This cement is also an excellent damp proofing for exterior foundations and underground tanks of wood or steel. One gallon will cover approximately 65 square feet.

(While the red cement is made on a different formula because of its color, it will render the same excellent service.)

	30F3479 Black	30F3480 Red	Shpg. Wt.

★ Shipped from factory in CHICAGO, ILL., NEW JERSEY, CLEVELAND, OHIO, or KANSAS CITY, MO.

Asbestos Fiber Plastic Cement—5 Lbs. for 44c

This cement is prepared especially for patching holes, gaps, chimney flashings, breaks around skylights or gutters. It should be applied from one-eighth to one-fourth inch thick, depending on the size or nature of the damages to be repaired. It is smooth and as easy to put on as putty and, if desired, makes an excellent covering for an entire roof. Ten pounds will cover about 25 square feet on a smooth surface.

Long Life Creosote Wood Preserver — 1 Gallon, 77c

Made of pure creosote oil, **recommended by the United States Government** as having the greatest possible preservative value for prolonging the life of ordinary fence posts, sills, joists, etc., and for treating all soft woods. It is also recommended for shingled roofs as a stain and preserver. Do not be deceived by claims made for other oils or creosote oil at lower prices. By adulteration with inferior oils the price can be lowered. One gallon will cover about 80 square feet two coats, or treat about 20 ordinary posts to the height of 2½ feet.

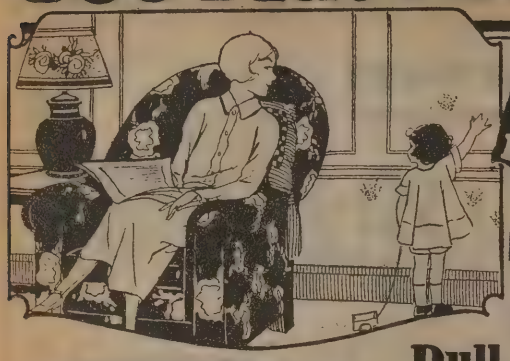
Use Flat Finish Paint-It's Washable



Only $2.00 Per Gal.

Produces That Popular, Dull, Velvety Finish

No other paint gives quite the effect of Flat Finish. It has a beautiful dull glow that forms a charming background for all furnishings in the room. It is doubly appreciated in the homes where there are children, for it is washable. The children can romp and play all day, leave little finger prints, and all spots can be quickly washed from its surface with soap and water without doing the finish any harm or injury.

Flat Finish has all the enduring qualities of ordinary paint, except that it has no gloss, a feature that makes it popular with those who do not like a gloss finish on their walls. It is made in our own big paint factory in eleven beautiful shades. These will combine beautifully for any room in the home. Stencils used on Flat Finish make a charming and artistic combination. See them on the opposite page.

Flat Finish Paint is easy to apply, as there is no danger of its running or lapping and the inexperienced painter can secure results that compare with those of a professional. When painting large surfaces, use a 3½ or 4-inch paint brush to obtain the best results. May also be used as an undercoat for enamel. One gallon will cover about 200 square feet, two coats.

On unpainted walls it will be necessary to use our Undercoat Size 30F2734, below, with first coat.

Remember!

1—Seroco Flat Finish Paint is made in our own factory and sold direct to you with only one profit added.
2—It is systematically tested for finish, color and durability.
3—It's washable!

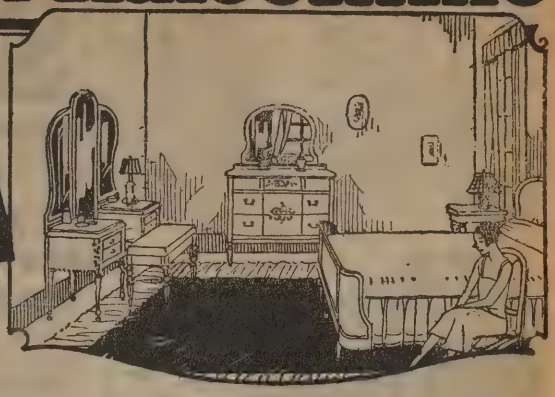
Low Cost—Beauty

4 lb. Package 35¢

Enough for a Room



Gone are the days of dark and dreary wall coverings. Now, at an unbelievably low cost, you can have bright, cheerful rooms every season. You can simply and easily do the work yourself. Complete directions are on each package. You will be surprised, once you get into it, how much pleasure there is in doing the job, doing it well and knowing you are saving money.

Thought of from a sanitary angle, Kalsomine should be used in every home—especially in the home where there are children. Old Kalsomine, dirt and soil may be removed with a sponge and water. A new coat may then be applied to the clean walls, making a perfect job of redecorating—and at such a small cost!

Velvet Kalsomine may be used over paper or wood. One package will decorate the walls of an average room, 10x12 feet, for only 35 cents. Beautiful border effects may be produced with our stencils below.

For Beautiful ~ Sears Varnish

Extra Durable Floor Varnish

OUR BEST GRADE

$2.60 per Gal. in 5 Gal. Cans

Dull floors make unattractive rooms; bright mirror-like floors add a new charm to everything in the home. This high grade floor varnish is made for hard wear. It will keep floors unmarred and beautiful for years. We know it will live up to our standard because it has proved itself in tests made in our laboratory. These qualities make it equal to any varnish now being sold on the market:

It dries quickly, so that the floor can be used again within a reasonable time.

It has a tough, durable film that will withstand hard usage.

It will not turn white when water is spilled on it.

It has a high luster that is easily kept bright.

The film does not become brittle so as to show scratches, but remains strong and elastic.

Extra Durable Floor Varnish is easy to put on. Simply clean the floors and apply. One gallon covers about 600 square feet on oak and 400 square feet on soft pine, one coat. For colored floor varnish, see Chinese Gloss Lacquer, page 1004. The brush you should use with this varnish is included in our complete listing on page 1006. See shipping weights at the upper right.

55c	90c	$1.65	$2.78	$2.60

Extra Fine Furniture Varnish . . . . ½ Gal., $1.20

For all around use on furniture, we know of no better varnish than this. It forms a tough, hard finish that may be rubbed or polished. It dries with a high gloss. There are pieces of furniture in every home that can be made attractive at low cost with this varnish. It will make them less liable to marring and save the wood. About one pint is enough to refinish a dining table. Figure all other furniture in proportion. We recommend Brush 30F3038 for use with this varnish. It is listed on page 1006.

Special Rubbed Finish Varnish . . . ½ Gal., $1.38

For Furniture and Woodwork

We have eliminated the necessity of rubbing in manufacturing this varnish. Still you may obtain the extremely popular dull rubbed finish you have always admired. There is no labor or "elbow grease" to this process varnish. Paint it on, one coat over old shellacked or varnished surfaces, or two coats over new wood. The finish is the same as that obtained in the old way by rubbing. One gallon will cover about 500 square feet, one coat.

Linoleum and Floor Oilcloth Varnis

Keeps the Linoleum Looking New

Here's a very pale varnish that dries hard, but remains elastic linoleum or oilcloth itself. It will not crack or check. By Seroco Linoleum Varnish on linoleum or oilcloth it will retain al original brightness and luster even under the severe wear it rec at doorways and in halls, thus making the life of linoleum longer. Hot or cold water does not affect it. One coat is suffic applied in the evening, it will be dry in the morning. About 1 quart is needed to cover a space of 12x15 feet. Do not apply this finish on inlaid linoleum, use only on felt base and printed linoleum.

30F2642

1 pint	45
1 quart	7

Quick Refinishing Varnish. . . . . 1 Pint, 42

Has the tremendous advantage of drying quickly and leaving a high gloss surface. Ideal for use on old, scratched and marred furniture, woodwork and floors. Restaurant and hotel owners find it invaluable, as it does not interfere with business. You can paint one night and have it dry in the morning. Give it just a few hours. Apply with a good varnish brush. See page 1006.

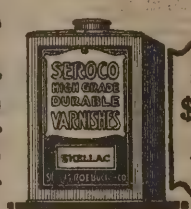
PURE SHELLAC

FIRST QUALITY — **HIGH GRADE**

(Orange or Clear)



Clear Shellac $1.48 A Half Gal.

Clear Shellac is used wherever it is desirable to preserve the natural color of the wood. Orange Shellac gives wood a light oak color. Both are standard, high grade, light bodied liquid shellacs. This shellac is of the right consistency to be used as a first coat on furniture and woodwork and will dry in a short time; about two hours or less. Orange shellac is light bodied, cut in the proportion of 3 pounds of gum to the gallon. It is not advisable to use shellac itself as a first coat on floors. A much better result will be obtained if the varnish is thinned with 10 per cent turpentine and used as a first coat. It will wear on floors far better than shellac. One gallon of shellac will cover about 600 square feet with one coat. It is recommended only for woodwork and furniture.

30F2656—Clear Shellac.

This Fine Quality Paint Will Withstand the Hardest Kind of Wear and Weather

Put this Grade A Porch Floor Paint on and forget it. It will stand up under wear longer than you ever imagined a paint could do on a surface that receives as much constant wear as a floor. Laboratory tests have proved it to be equal to the finest covering for porches. It has stood the test. We offer it to you at these low prices. Do not use house paint of any kind on porch floors because it has not the toughness to withstand wear. Seroco Porch Floor Paint will repay you in the long run. It has the same covering capacity as our Interior Floor Paint, shown above at right. Put it on with a good 3½ or 4-inch paint brush. See page 1006 for our complete listing of brushes. Made in five colors which match the colors of the same name in our Interior Floor Paint. Furnished only in the following colors:

30F600—Gray. **30F620**—Drab.
30F610—Lead Color. **30F630** Light Brown.
30F640—Moss Green.

Seroco Interior Floor Paint

"Made for Wear"

For Bedrooms, Kitchens, Halls, Playrooms and Stairs

Seroco Interior Floor Paint leads all competition where real service is expected. No other floor paint will stand the wear that Seroco does. This paint has been through one test after another until we are convinced today that there was never such a good interior floor paint sold at such a low price.

Realizing the severe wear that any floor receives, we have put into our floor paint a large percentage of tough, hard drying varnish. This makes it superior for many places where the ordinary paint would wear away. This paint is popular for its quick drying qualities. Put on a coat at night, a second coat the next morning and walk upon it at night. Weather conditions may alter this but in most cases such a schedule might be followed.

A bright, beautiful finish that will do credit to your home and to your floors—that is Seroco Interior Floor Paint. Three coats are necessary on new or old floors not previously painted. One gallon will cover about 300 to 350 square feet, two coats, and about 200 to 250 square feet, three coats. Apply with a good 3½ or 4-inch flat finish brush. (See page 1006.)

Only $2.08 per Gal.

30F500—Buff. **30F550**—Maroon.
30F510—Yellow. **30F555**—Light Brown.
30F530—Drab. **30F570**—Gray.

Seroco Floor Oil . . . . . 1-Gallon Can, $1.25

A specially compounded oil consisting of pure linseed oil, substitute turpentine and dryer. For kitchen floors especially; also suitable for schools, stores, halls, etc. A very small quantity applied with a cloth will bring out a rich color. Floors oiled with Seroco Floor Oil are easily cleaned by simply washing them with soap and water. Not to be applied over paint or varnish. One gallon will cover approximately 600 square feet, one coat.

Furni-Flor Mop Oil . . 1 Quart, 23c

The Universal Mop Oil. For Renewing Dustless Mops and Dust Cloths

A superior mop oil for preparing or renewing dustless mops and cloths. Cleans as well as polishes. An oil mop needs frequent renewing. After a time the oil is all used up and the mop thereby loses much of its cleansing and polishing properties. You can make them just like new again with Furni-Flor Mop Oil. Furni-Flor cleans and polishes all varnished, waxed and painted woodwork, furniture and floors.

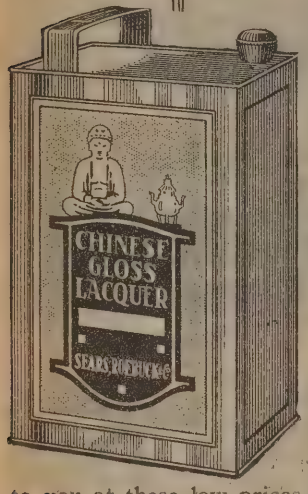
Color Harmony With Chinese Gloss Lacque

Makes Mismatched Furniture Harmonize

Changes Furniture, Woodwork to Any Color Desired

Only $2.25 per Gal.



This high grade lacquer will do wonders in making your home bright and attractive. On page 996 are the beautiful colors in which Chinese Gloss Lacquer comes. And it is as easy to put on as it is good to look at. Now you can change all your furniture to any shade you desire—do the job yourself and be sure of a harmonious room. Thousands of housewives are using this new colored varnish and are telling their neighbors of the beautiful effects it gives. Every home has mismatched furniture that could be harmonized by the use of Chinese Gloss Lacquer. **We make this fine varnish,** that is why it is sold to you at these low prices. You will find, if you shop, that no dealer can compete with these figures. We eliminate salesmen, retailers and commission men; the dealer finds them a necessary expense. Chinese Gloss Lacquer is put up in convenient cans and comes ready to use. If you wish a light color over a dark, order a can of our Special Undercoat 30F2697, listed below. One gallon of lacquer will cover about 600 square feet, one coat. Apply with Brush 30F3038, page 1006.

Undercoat for Chinese Gloss Lacquer 1 Qt., 60c

An opaque yellow paint used as a first coat for Chinese Gloss Lacquer and for graining colors. It completely covers up the original finish and forms a foundation for new finishes. If you wish to change the color of your furniture, floor or woodwork from a dark to a lighter shade, apply a coat of this Undercoat or Ground Color and, when dry, apply the desired shade of Chinese Gloss Lacquer. One gallon will cover approximately 600 square feet, one coat.

Seroco Dye Stains . . . . . 1 Quart, 45c

Penetrating wood stains, for new work only. Impart a rich, natural color to the wood. For use on woodwork, floors or furniture. These stains produce a soft, velvety effect, and by applying a coat of white or orange shellac and then a coat of varnish or wax a beautiful finish may be obtained. Must not be applied to painted, varnished or enameled surfaces. It is only for use on new wood that has not had any other finish applied. When used on hard open grained wood it should be applied over Seroco Paste Wood Filler on page 1006. Apply with a varnish brush. One gallon will cover approximately 400 square feet, one coat.

30F2643—Light Golden Oak.
30F2647—Med. Golden Oak.
30F2645—Dark Golden Oak.

Transparent Damar Varnish . . 1 Quart, 92c

One of our highest grade varnishes. The Batavia gum that goes into it is imported and chosen with extreme care by our expert buyers. It is guaranteed pure and contains none the adulterations frequently used in varnishes of this kind. Transparent Damar Varnish is **ideal for use on any interior enameled surfaces,** white or ivory. It won't discolor. Many use it on varnished tile, wall paper or delicately tinted painted walls. It is of good body and dries well. One gallon will cover about 500 square feet, one coat. See page 1002 for shipping weights.

Sero-Var

The Universal Varnis

Sero-Var Is Our Own Trade Mark, Registered In U. S. Pat. Off.

Guaranteed to be the equal of any of the nationally advertised "——spar" varnishes usually retailing for $5.00 to $7.00 per gallon.

Made In Our Own Factory

$2.65 per Gal.

Low in Price
High Quality

You can't go wrong with Sero-Var. Wherever it is used it will prove itself equal to any of the nationally advertised varnishes. Anything they will do—withstand hot water, remain blister free or retain a high luster—Sero-Var will do! And **look at these prices.** We manufacture Sero-Var and sell **it direct to you.** We eliminate salesman, retailer and overhead. You keep that money in your pocket. Sero-Var is easy to apply. Because it is guaranteed not to be affected by hot or cold water and not to turn white, Sero-Var is ideal for porches, window sashes, boats and all outside uses. Sero-Var will give your old furniture a beautiful, glossy finish, such as is found only on new goods. It is ideal for dining room, kitchen or nursery furniture. When used on linoleum it will preserve the colors and form a protective film which gives the linoleum the appearance of still being new long after it has been put on the floor. For floors it is excelled only by our Extra Durable Floor Varnish, shown on page 1002, which we strongly urge be used for that purpose. This is clear, transparent varnish that will not change the color of the wood over which it is applied. One gallon will cover about 500 square feet, one coat.

Lamp and Fender Lacquer . . . . . 1 Pint, 50c

Fenders should be retouched every so often. They receive hard usage on every car and should receive attention. You will be surprised to see how much a simple refinishing of fenders and lamps will add to the appearance of your car. Only one coat of this lacquer is necessary to give a high grade, durable, weather resisting finish to these parts.

Engine and Radiator Enamel . . . 1 Pint, 52c

(Resists Heat)

Paint your engine and radiator. The motorist who doesn't may expect rust. This fine enamel resists heat and keeps radiators clean. It will not blister, peel or rub off, and its glossy surface gives no chance for grease or dirt to accumulate. Put it on at these low prices. A few cents now will save you dollars later on. Apply with a varnish brush, such as our No. 30F3031, page 1006.

30F3416—Black.

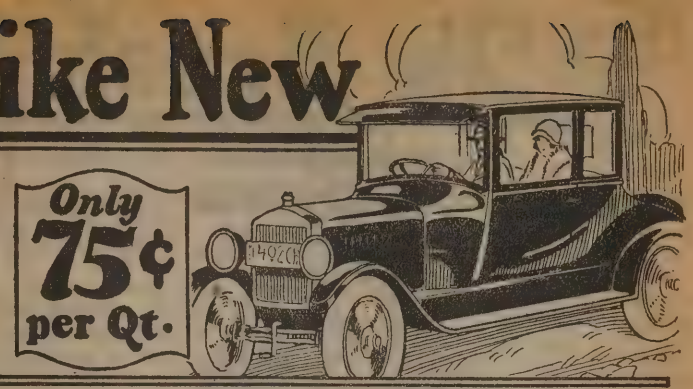
2 Varnish Brushes, 2 inches wide.

30F1699—Complete outfit.....(Shipping wt., 15 lbs.)..... **$2.90**



AUTOMOBILE ENAMEL

Ever feel like you really ought to slide up the back way and keep off the main streets of town with the old car? Still you don't want to give up a good friend that has many a mile in her yet and you also hate to put up $75.00 to $150.00 for a new paint job. Cheer up! Here's an easy way out that isn't going to cost you over $3.00 or $4.00. Surely you're willing to invest that much. Especially when you realize you can really get a first class bang up job that even the wife won't criticize.

We studied this proposition of painting automobiles over pretty carefully before we put out an auto finish over our name. We knew that the average fellow wasn't a skilled painter. So we made a paint that was easy to put on, that flows freely and spreads evenly. Most anybody that's old enough to swing a paint brush can apply Seroco Auto Enamel. Then we waited to be sure that this paint would **stay** on. There are no pores in metal, the paint hasn't anything but the hard surface of the steel to hold on to. That means a special product that won't chip off, peel or crack. Seroco Auto Enamel dries with a smooth, mirror-like finish which has a beautiful gloss. The colors are pure, non-fading. No other finish need be applied over Seroco Auto Enamel. It stands up all by itself, we know, because we make it in our own factory—we make it in the right way, of the right materials. That's why we're perfectly willing to back it with our guarantee. You'll find Seroco Auto Enamel to be just as good or better than those which sell for over twice what we ask.

About three quarts should be enough to refinish the body and gear of a touring car, two coats. If the old finish still has a gloss, it should be removed by the use of either steel wool or sandpaper. Complete directions how to apply furnished with each can. Use good varnish brushes, as our 30F3038 or 30F3033 on page 1006.

For color samples see page 996.

Wagon Paint . . . . . 1 Gallon, $2.50

For Wagons, Farm Implements and Milk Cans

This high grade paint will protect your wagon and farm implements and prevent them from being destroyed by rust. At a small cost the use of this paint will save you many dollars in repairs.

In many cases one gallon is sufficient to refinish every implement on the farm. It is also highly recommended for use on milk cans to prevent rust and at the same time serves as a means of identification.

Auto Top Dressing . 1 Quart, 78c

Our best quality dressing for refinishing and waterproofing leather and imitation leather automobile tops. It dries over night with an excellent finish and positively will not crack or peel. One quart will cover the top of a touring car, two coats. Apply with a 2 or 2½-inch varnish brush, such as our 30F3031, page 1006.

30F3428—Gloss Jet Black.

1-pint can. Shipping weight, 2 lbs.... **42c**

1-quart can. Shipping wt., 3 pounds..... **78c**

Quick Drying Auto Seat Dressing

High grade dressing for refinishing leather or imitation leather automobile seats. Dries thoroughly in one hour, and will not soil the most delicate fabric after it has dried. To insure best results, have leather surface perfectly clean and dry, and apply in a warm, dry temperature. It will not peel off, and dust will not stick to the surface after it has been treated with this preparation. Apply with a varnish brush.

30F3423—Gloss Jet Black.

1-pint can. Shipping weight, 2 pounds..... **50c**

Aut-O-Sek for Waterproofing Auto Tops

We guarantee it to waterproof old or new mohair, pantasote or canvas auto tops. It is permanent, won't check nor peel. Applied with a sponge, rag or brush. Folding, bending or creasing the top does not break the fabric or cause leaking. Dries quickly in 12 to 24 hours and is not a varnish "top dressing." Black AUT-O-SEK gives a rich, black luster and not a shiny finish. Khaki color renews a faded khaki top.

30F3425—Black.
30F3426—Khaki.

30F2936—Large hook, curve 5 inches in diameter. Shipping weight, 4 pounds..... **55**

30F2937—Small hook, curve 4 inches in diam Shipping weight, 2¾ pounds..... **3**

How to Measure Your Building for Painting

Measure the length, width and height of the building. Add together the total length in feet of the two sides and two ends of the building. Multiply this by the height of the building at the eaves with two feet added for cornice. This gives you number of square feet of surface to be painted.

For example, suppose your building measures 26 feet wide, 33 feet long and 22 feet high, you would figure it as shown below.

Front	26 feet
One side	33 feet
Rear	26 feet
Other side	33 feet
Total	118 feet
Multiply this by height, plus two feet for cornice	24 feet
Total	2,832 sq. ft.

The Covering Capacity of Paint

No. 1—For poor surfaces where no paint has been applied for 12 to 18 years, and the wood is bare and porous, for three coats divide the number of square feet by 100. Three coats are necessary for a surface of this kind. If only two coats are applied, chalking and spotting are sure to follow.

No. 2—For fair surfaces where paint film is worn thin and chalking rapidly. For two coats divide the number of square feet by 180, for three coats divide by 125.

No. 3—For new wood three coats are always necessary. Divide the number of square feet by 165.

No. 4—For good surfaces where paint film is unbroken and is chalking only slightly. For two coats divide the number of square feet by 250, for one coat divide by 500.

In figuring the amount of trimming required the rule of 1 gallon trimming to 5 gallons of body is usually followed.

Remember This:

The square feet of covering capacity of any paint is dependent upon the kind of surface over which it is applied. This varies widely. A badly weathered and very porous surface will require twice as much paint as another surface which is in good condition. So in judging your surface we give you the table above to guide you in estimating the number of gallons you will need.

There are 231 cubic inches in every full gallon of paint, regardless of the brand. Do not be deceived by varying claims made for the spreading capacities of various paints, for common sense will tell you that the larger the surface over which you spread a gallon of paint the thinner the film will be, and the thinner the film the more easily will it be destroyed by the weather. Seroco Paint will go just as far as any other paint with the right thickness of film. We give you the covering capacities which will insure you a paint film with maximum protection and endurance.

Barn Painting

If you have taken the height of your barn to the eaves and it has a high gable, you will have to allow paint for this space. Multiply width of barn by the height of the gable above the corner post. Divide the number of square feet by the covering capacity, and this gives you the amount of paint needed for both gables. The amount of trimming required for a barn is about 1 gallon of trimming to 10 gallons of body.

In figuring roof paint or stain, multiply the length of the house by the width, then add one-third that amount and the total will be approximate area of roof. Now divide by covering capacity per gallon of paint or stain you wish to use.

Supplies Every Painter Needs

Colors in Oil

Used by the painter for coloring or tinting when mixing his own nt. Ground in pure linseed oil, strong and permanent, some the harder pigments being ground several times. The result is at the tinting power is greatly increased. Put up in 1-pound ns. Shipping weight, 1 pound 3 ounces.

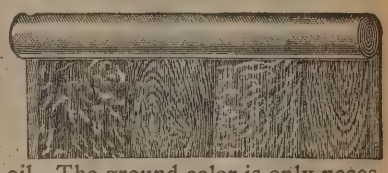
Transfer Graining Paper

$1.47 A ROLL

Gives Better Results Than Is Possible to Obtain by Hand or With Tools



The directions are so simple that the most inexperienced can do perfect graining and equal the handwork of a professional grainer in one-tenth the time required with tools or by hand. No graining colors to bother with. All that you require are the ground color, glue size and your finishing varnish and, if necessary, a small quantity of boiled linseed oil. The ground color is only necessary when it is desired to grain over painted or grained surfaces or very knotty wood. Ground Color 30F2697, listed below, and Finishing Varnish 30F2718 on page 1004.

Each roll contains 17⅓ yards and is sufficient to grain the doors and casings of a six-room house, as several impressions may be taken from one strip. Can be used satisfactorily for graining old floors. Directions with each roll. Furnished in light, medium and dark oak. State color wanted.

Undercoat or Ground Color

An opaque yellow paint used as a first coat for graining colors. It completely covers up the original finish and forms a foundation for later finishes. If you wish to change the color of your floor or woodwork from a dark to a lighter shade, apply a coat of this Undercoat or Ground Color, and, when dry, apply the desired shade of graining color. One quart will cover about 150 square feet, one coat.

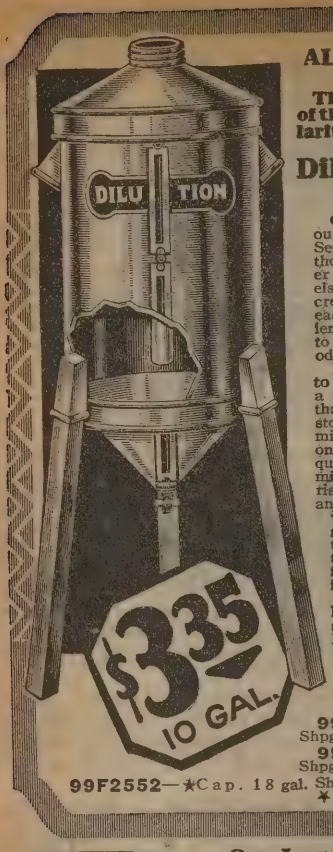
Cut Dairy Supply Cost



ALWAYS MORE CREAM!

That's the real secret of the continued popularity and success of our

Dilution Cream Separator

Of course, the prices on our famous Dilution Cream Separators are lower than those on similar but cheaper quality separators sold elsewhere. You get more cream more quickly, more easily and more conveniently than when you resort to the old skimming methods.

Does the work in three to four hours, and gives a sweet diluted milk that is much better for stock feeding than sour milk. Your work consists only of adding an equal quantity of water to the milk. Cream separates and rises to top as the water and milk mix. You can watch separation through glass gauges in side of tank. Milk is drawn off through deep cone bottom faucets without disturbing cream.

Made of excellent grade heavy tin, soldered and seamed throughout. Beautifully enameled outside. Hardwood legs. Prices include tank, tin tubes, strainer faucet and legs.

New Jersey Pattern R. R. Milk Cans — $4.55 8-Gal.

Save $1.00 to $2.00 Over Usual Retail Prices According to Size

Great savings in this wonderfully well made heavy milk can of steel plate. Seamed, riveted and heavily tinned with solder floated into the seams. Is absolutely sanitary and easy to clean, as there are no crevices in which the germs and dirt can collect. Body and bottom are rolled together to form durable, rigid joints. Breast and bottom are full rounded with lock joint, making them especially rigid. Smooth inside finish. Built for hard usage.

Aluminum Ware Tested, Approved

S.R. & Co. Best Made Pure Aluminum

The Ideal Kitchen Ware for Every Home

All "Best Made" Aluminum utensils are stamped with our Best Made Brand, are highly polished outside and many pieces have "Sunray" or satin finish inside.

Every woman admires the smooth shining surface of high grade aluminum ware. To meet the demand for kitchen utensils of unsurpassed quality and moderate price, we have selected this extensive assortment in "Best Made" Solid Aluminum Ware.

Durable and Sanitary

Each piece is constructed from a single sheet of pure aluminum of correct weight and thickness to insure the longest service. Entirely free from seams and sharp corners, there are no places for dirt and grease to lodge. It is leakproof and the rounded corners make it easy to clean. With just a little care you can maintain its beautiful spick and span appearance indefinitely.

THE CELEBRATED KOOK-KWICK STEAM PRESSURE COOKER

Our Prices Save You From $7.00 to $12.00!

According to Size

Cans Fruits, Vegetables and Meats by the Popular Cold Pack Method in One-Third the Usual Time

Save on Your Fuel Bill

As you can cook the entire meal on one simmering burner in half the time required the old way on three or four burners.

Save the Usual Loss

Due to shrinkage and evaporation where meats and vegetables are cooked in open vessels. THIS COOKER can be used every day in the year. Ideal for cooking a real genuine home meal, as the "Kook-Kwick" retains all of the natural fruit and meat flavors.

For Canning Fruits and Vegetables

You do away with hard, laborious tasks so much dreaded at canning time and obtain the most pleasing results, such as can only be secured by the "Kook-Kwick" Steam Pressure Method.

Have Fresh Meat the Year Round

For canning meats the cooker is unsurpassed. Follow the very simple directions we furnish and you will always have a good supply of home prepared, steam cooked, fresh meat on your shelves ready to serve at any moment. Made of heavy, polished cast aluminum.

Easy to Operate

Simply place about a pint of water in bottom of cooker, put in articles to be cooked, fasten cover, place on fire and let the steam pressure do the rest.

Price includes full equipment as illustrated.

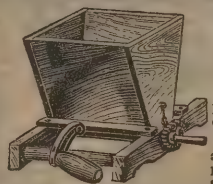
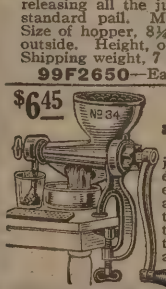
Grape Crusher — $3.45



For Making Grape Juice

The best and most palatable grape juice is made from the whole fruit, skin, pulp, seeds and everything. This Grape Crusher is designed for just that purpose. Its two close fitting corrugated hardwood rolls crush the whole fruit, releasing all the juice. Sets on any standard pail. Made of hardwood. Size of hopper, 8½x9x7 inches deep, outside. Height, over all, 8½ inches. Shipping weight, 7 pounds.
99F2650—Each **$3.45**

$6.45 — Enterprise Fruit Juice and Jelly Press



Good for making jellies, fruit butter, etc. The spiral core extracts the juice and, at the same time, discharges the pulp and seed through an opening at the end of the press. Fine mesh screen strains juice before it leaves the press. It is heavily tinned, rustproof and can be easily taken apart for cleaning. Has a long, easy turning crank. Clamps to the table. Hopper holds about 1 quart. Shpg. wt., 22 lbs.
99F2815 . . . . . **$6.45**

69c "Up to Date" Mincer

For Chopping or Mincing Fruits, Nuts, Vegetables, Onions, Etc.

Four-blade knife operates inside covered glass receptacle. A very desirable feature, especially in chopping onions. 4x4 in. high. Weight, 1¾ lbs.
9F2820 . . . . . **69c**

The 5-Year Guaranteed Kwick-Kleen Non-Electric Vacuum Sweeper

Whether you have an electric vacuum cleaner or not, the **"Kwick-Kleen"** Non-Electric Vacuum Sweeper is exactly what you need for quick, efficient, easy cleaning. A few minutes each day, and your carpets, rugs and floor coverings are always sparklingly fresh, beautifully and immaculately clean. Don't wear yourself out! Lighten your work with this wonderfully efficient non-electric sweeper.

$13.95

Usual Retail Price $30 to $35

The Lowest Price Ever Quoted on This Extra High Grade Sweeper

It Cleans as It Sweeps

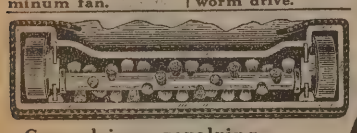
The **"Kwick-Kleen"** Non-Electric creates its own continuous suction as it glides over the floor coverings. The first push starts the ball bearing fan whirling at high speed and through the 12-inch nozzle the steady, powerful current of air draws the deeply imbedded dirt and grit into the spacious bag, while the gear driven, fast revolving bristle brush picks up the lint, threads and surface litter. The cleaning process is continuous; the light running fan keeps spinning as the machine is being drawn backward, while each forward push speeds it up still more.

The **"Kwick-Kleen"** is noiseless, wonderfully light and easy to handle. Not much heavier than the ordinary carpet sweeper. Owning a **"Kwick-Kleen"** means sure relief from cleaning drudgery. **Ball Bearings** make it the lightest running, easiest operating non-electric sold today, and the **"Kwick-Kleen"** does its work as thoroughly as any of the highest priced electric cleaners.

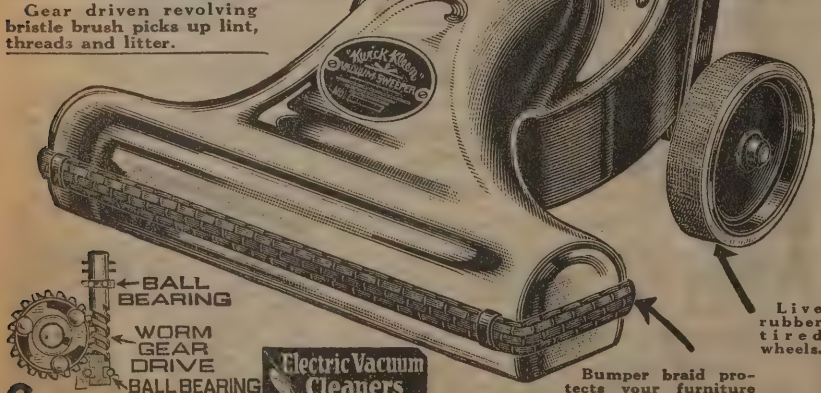
Two of these cleaners are in use in the White House at Washington, and, with thousands of others in the best homes throughout the country, are giving satisfactory service daily.

One piece 7-blade ball bearing aluminum fan.

Easy action tension spring clutch reduces wear on worm drive.



Gear driven revolving bristle brush picks up lint, threads and litter.



Live rubber tired wheels.

Bumper braid protects your furniture and baseboards.

The whole body of the machine is solid aluminum beautifully polished. The wheels are of steel and fitted with oversize, live, rubber tires. Pistol grip handle fits the palm of the hand comfortably, making it easy to guide the sweeper in any direction.

Built low, only 6 inches high, the **"Kwick-Kleen"** will readily sweep under your furniture, thereby relieving you of doing this with a broom as is the case with high frame type sweepers. Bumper braid around the 12-inch nozzle protects your furniture and baseboards.

5-YEAR GUARANTEE. No attention necessary. The gears are packed in grease, the gear case sealed and the mechanism guaranteed for 5 years against defects in material or workmanship (providing the seal is not broken). With ordinary care the **"Kwick-Kleen"** should give many years of perfect service, saving its small cost, $13.95, each year in the improved condition of your home. Actual weight, about 10 pounds. Shipping weight, 16 pounds.

Keeps Out the Deadly House Fly and Mosquito

14 Mesh to the Inch

"Protection" 14 Mesh Galvanized Wire Screen Cloth

We Recommend "Protection"

30-Inch **$4.20** 50-Ft. Roll

Our special rustproof "Protection" galvanized wire screen cloth is a beautiful, closely woven, 14 wires to the inch each way cloth, that affords ample protection against mosquitoes, gnats, flies and all other insects. Ordinary screen cloth has only 12 wires to the inch and does not exclude the smaller insects.

We consider "Protection" galvanized wire cloth exceptionally high in quality and will replace free of charge any that proves defective within 3 years from date of purchase, except when screen is used in sea coast communities where it is exposed to salt sea air. Storing your screens in a dry place during the winter months will increase their useful life by many years. Save one-third on "Protection" and get three times the quality of ordinary screen wire cloth.

16 Mesh "Golden Bronze" Wire Screen Cloth Costs No More to Apply

30-Inch **$10.75** 50-Ft. Roll

Woven from bronze wire (90 per cent pure copper, 10 per cent zinc alloy), 16 wires to the inch each way. "Golden Bronze" cloth is strong and durable, free from stretch and makes beautiful screens that give a lifetime of service and offer 100 per cent protection.

Adds Distinction to the Home.

"Save by Buying Wisely"

CAUTION—So-called 99 per cent pure copper wire screen cloth is not suitable for fly screens. It dents easily, stretches badly and becomes unsightly in a very short time. It is offered by some dealers and supply houses at prices slightly less than bronze cloth.

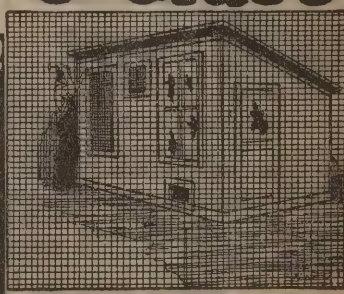
Cel-O-Glass

The Unbreakable Real Glass Substitute

$10.50

25-FT. ROLL 36-IN. WIDE



Cel-O-Glass is neither glass nor wire cloth, yet it combines the best qualities of each into a material that is unbreakable, flexible, light in weight, weather proof and durable. You get the best quality product at the lowest price at Sears.

Lets in Plenty of Light—Keeps Out the Cold

Cel-O-Glass lets through the ultra-violet rays of the sun which are so beneficial to plants, animals and people. (Glass keeps these rays out.)

Farmers and City Folks, Poultry Raisers, Flower Growers and Truck Gardeners, Contractors, etc., all find many uses for this wonderful material.

Cel-O-Glass Is Convenient — Practical — Economical

for garages, barns, cellar doors and windows, storm doors, sun and sleeping porches, children's play houses, poultry houses, hotbed sash, cold frames, factory and office partitions, windows and doors and a hundred and one other uses. **Caution—Cel-O-Glass is not a roofing and should not be used as such.** Genuine Cel-O-Glass sold only in 25-foot rolls, 36 inches wide.

99F4530—Shipping weight, 12 pounds. Per roll **$10.50**

All weights and measurements given on these pages are approximate and may vary a trifle

Fulton "BEST MADE" Mower

Ball Bearing
Self Sharpening

You save money when you get your Fulton "Best Made" Mower. Only in an extra high grade mower can such refinements as are incorporated in the Fulton "Best Made" be found. It usually retails from $4.00 to $6.00 more than we are asking for it.

Every Fulton is thoroughly tested before it leaves the factory. Not until it stands every rigid test put to it is the Fulton packed for shipment.

Special Fulton "Best Made" features as illustrated are: 5-blade, long bearing knife cylinder with automatic adjustment so that no attention on part of operator is necessary; crucible steel cutting knife is supported by a spring steel cross section and will stay in perfect alignment with cylinder, forming a wiping cut; drive pinions have extra long bearings; steel ball bearings are held in perfect alignment by patented retainer, insuring easy smooth running; pawls are of drop forged steel with lipped ends which form a perfect engagement with pinions and cylinder.

It is an easy to run, almost noiseless mower that cuts clean. One mowing is sufficient. Grass catcher may be attached to malleable roller brackets.

The finest materials are used in its construction. Framework is strong and rigid. It is finished in silver bronze, gold and blue trim with varnished hardwood handle and roller.

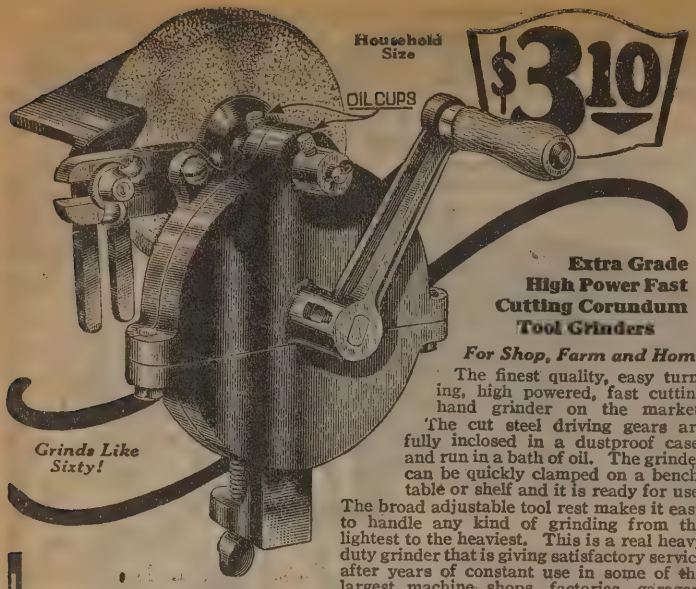
Keep Your Tools Sharp



Extra Grade High Power Fast Cutting Corundum Tool Grinders

For Shop, Farm and Home

The finest quality, easy turning, high powered, fast cutting hand grinder on the market. The cut steel driving gears are fully inclosed in a dustproof case, and run in a bath of oil. The grinder can be quickly clamped on a bench, table or shelf and it is ready for use. The broad adjustable tool rest makes it easy to handle any kind of grinding from the lightest to the heaviest. This is a real heavy duty grinder that is giving satisfactory service after years of constant use in some of the largest machine shops, factories, garages, lumber camps and ranches in the country. The grinding wheel is hard natural corundum and, with ordinary care, will give years of service.

99F5538—Shop and Farm size, 6x1¼-in. wheel. Shpg. wt., 23 lbs...**$5.60**

99F5537—Light shop size, 5x1-inch wheel. Shipping weight, 12 lbs..**$4.20**

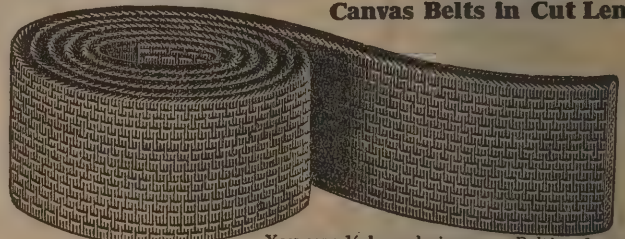
Extra Grade Red Stitched Canvas Belts in Cut Lengths



You save ⅓ by ordering your Belting from Sears.

1½-In. 8c per Ft.

For use out of doors and for damp or hot places. Not affected by temperature or atmospheric changes that would be ruinous to most belting. Made of tough, long fiber cotton duck, closely stitched, stretched and inspected. This heavy cotton duck is woven very hard and the rows of stitching are exceptionally close together. Thoroughly soaked in oil to keep it flexible and waterproof. Covered with a special waterproofing paint that gives it an excellent non-slipping surface. Always flexible in hot or cold weather. Not affected by steam, water or atmospheric conditions. **When ordering state length and width wanted.**

Ruby Brand Friction Surface Rubber Belt

48c Per Foot 4-In.

Red Friction Surfaced Belt. Recommended for Hard Duty on Difficult Drives, High Speed on Small Pulleys, etc.

Our Ruby Brand is a tried and tested efficiency brand rubber belting that has given 100 per cent satisfaction for the past ten years. This belt is considered by many transmission experts to be the best all around belt ever produced, not excepting leather belting. It is constructed of a tough and closely woven heavy cotton duck, with high grade rubber between the plies and a friction surface which takes hold of the pulley with a full contact from edge to edge. The friction compound is forced into the fabric under great pressure, the plies will not separate and all the undesirable stretch is taken out of the belt. Ruby Brand will give more service than any other belting. **State width.**

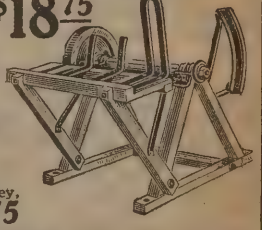
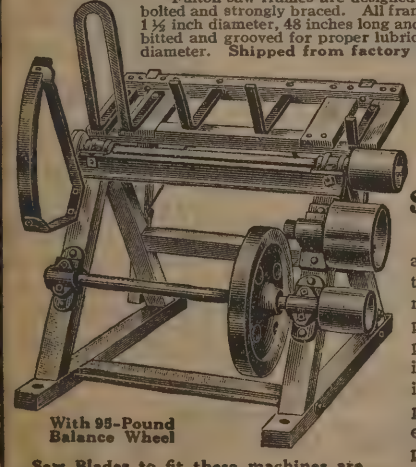
Look! Fulton Pole and Cordwood Saw Machines

AT SHARPLY REDUCED PRICES



$18.75

Fulton saw frames are designed to save labor and give long and faithful service. They are made of selected hardwood, mortised, bolted and strongly braced. All frames are heavily painted to protect them from the weather. Mandrels are made from cold rolled steel, 1 ½ inch diameter, 48 inches long and turned for saws with 1⅜-inch hole and fitted with 4½-inch arbor flanges. Bearings are well babbitted and grooved for proper lubrication. All machines are fitted with safety saw guards and will take saws from 20 to 30 inches in diameter. **Shipped from factory in NORTHERN ILLINOIS.**



With 95-Pound Balance Wheel

Saw Blades to fit these machines are listed above under numbers 99F5960 and 99F5957.

Built Especially for Long Poles and Heavy Cordwood

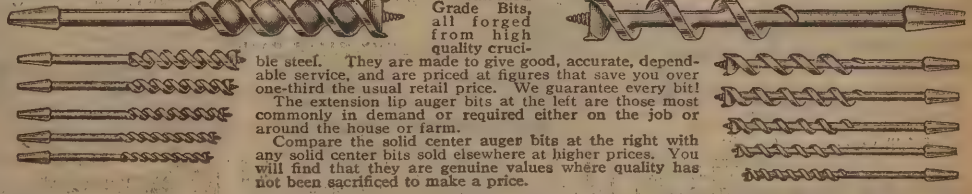
STANDARD AUGER BITS

30c and Up *Extension Lip Auger Bits* — *Solid Center Auger Bits* 19c and Up



Standard Grade Bits, all forged from high quality crucible steel. They are made to give good, accurate, dependable service, and are priced at figures that save you over one-third the usual retail price. We guarantee every bit!

The extension lip auger bits at the left are those most commonly in demand or required either on the job or around the house or farm.

Compare the solid center auger bits at the right with any solid center bits sold elsewhere at higher prices. You will find that they are genuine values where quality has not been sacrificed to make a price.

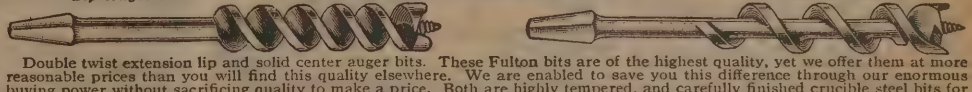
FULTON AUGER BITS

Double Twist Extension Lip Auger Bits — *Solid Center Auger Bits*



Double twist extension lip and solid center auger bits. These Fulton bits are of the highest quality, yet we offer them at more reasonable prices than you will find this quality elsewhere. We are enabled to save you this difference through our enormous buying power without sacrificing quality to make a price. Both are highly tempered, and carefully finished crucible steel bits for boring in either hard or soft wood. Solid center bits are the regular Jennings pattern extension lips with double cut head, fast cutting feed screw, sharp deep spurs, and double cutters. Finely polished and finished. Expertly tapered.

The ACME Two Speed Self Feed DRILL

Ball Bearing

A Third Gear Post Drill for Blacksmiths' Use

An excellent quality hard service drill. May be used either as hand or power drill. Flywheel with flat flange furnished as shown. Drill is made extra strong at points of greatest strain. For general blacksmith and repair shops.

DESCRIPTION

Bearings are made of die steel. Make running easy and double the life of the drill.

Self feed attachment can be set to a fast or slow speed.

Improved third gear enables the operator to change to a fast or slow speed by simply changing the crank from one shaft to another on the same side of the machine.

Drill table is extra heavy, can be raised or lowered 10½ inches, swung around or removed entirely from the forked support, which makes it ideal for drilling wheels, etc.

Shaft and spindle are made of high grade steel. Drills up to 1¼-inch holes and to center of 14⅝-inch circle. Has up and down run of 3¾ inches and is bored for ½-inch round shank drills. Shipping weight, 124 pounds.

99F5081—With lag screws for fastening to post..... **$14.50**

$14.50

Easy Running Strongly Made of High Grade Material

Our Vulcan Geared Forge

WITH HOOD **$16.75**

A complete well made outfit that we can unhesitatingly recommend.

Combination Geared Forge and Blower

Built to meet the demands of the blacksmith and farmer who desires a low priced forge producing a blast sufficient for all needs. Well constructed with oiltight, dustproof gear case and helical cut gears, 10-inch fan case. Fan makes 48 revolutions to 1 turn of crank. The cast iron hearth is 23x30 inches, mounted on four strong and securely braced pipe legs. Height to top of hearth, 30 inches; over all, 56 inches. Shipping weight, 143 pounds.

99F5050.....**$16.75**

Our Whirlwind Geared Forge

WITH HALF HOOD **$10.50**

22-Inch Cast Iron Hearth

Not to be compared with the light, inferior steel hearth types. For general light repair work in garages, on farms, etc.

Equipped with a cut geared, crank driven blower, helical gearing being used to give smooth easy running and noiseless operation. The gear ratio gives 48 revolutions of the fan to one of the crank, making a strong, steady, high pressure blast. The crank turns in either direction. The gear case is oiltight and dustproof, making this forge superior in every way to the old lever and wheel type. Size of fan case, 8 inches.

99F5036—With half hood, as illustrated. Height, 52 inches. Shipping weight, 90 pounds.....**$10.50**

99F5037—With shield. Height, 40 inches. Shipping weight, 85 pounds.....**$9.50**

Has Adjustable Blower Case

"Volcano" Blower

A Blower at an Unusually Low Price

$8.50

Gears are accurately cut and run in a bath of oil in dustproof gear case. Easy to operate. Crank turns either forward or backward. 8½-inch fan case. Shipping weight, eight, over all, 41½ pounds.

99F5000.....$8.50

Not mailable.

Cyclone Adjustable Ball Bearing Blower

12-Inch Fan Case

$23.50

The gear case is a one-piece oiltight and leakproof casting with removable covering. The high speed gearing has a special phosphor bronze spiral gear and tool steel spiral shaft with both gear and spiral shaft meshing into 8 full teeth continuously, making noise and lost motion impossible. Each turn of the crank in either direction produces 46 complete revolutions of the blast wheel. Equipped with extra heavy anti-clinker tuyere iron and complete piping. This tuyere, in combination with the high speed blower, produces a circular rotary whirlwind white heat blast which heats iron one-third quicker and with an equal saving in fuel. The highest type of blower made.

99F5005—Complete, as illustrated. Shipping weight, 160 pounds.....$23.50

$12.00

Look! TIGER BLOWER

Now $12.00

A Popular Priced Blower, Giving a Strong, Steady Blast

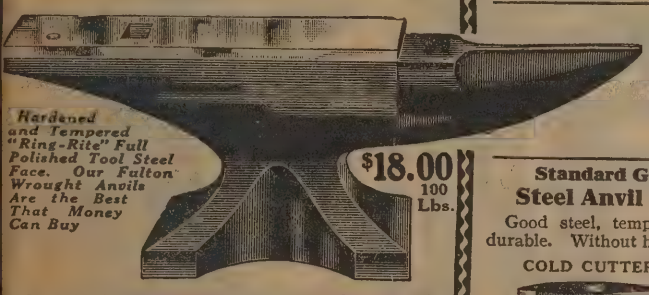
Has made friends wherever used. Investigate its features. A real value for the money.

Dimensions: Height, 43 inches; fan case, 11¼ in. in diameter. Has flat straight cut gears, steel shafts and composition bearings. Gear case is oiltight and dustproof, permitting gears to run in continuous bath of oil. Blower case can be raised or lowered. Crank turns forward or backward. Shipping weight, 111 pounds.

99F5001—Complete with piping and heavy anti-clinker tuyere as illustrated.....$12.00

FULTON American Made Wrought Anvils

You'll Find Order Blanks in Back of Catalog



Hardened and Tempered "Ring-Rite" Full Polished Tool Steel Face. Our Fulton Wrought Anvils Are the Best That Money Can Buy

$18.00 100 Lbs.

Superior in design, material and finish to any other anvil on the market. Made especially for us and sold only by us under our own guarantee. At our prices, not governed by any combination, our Fulton anvils as quoted below represent more real value than you can possibly secure elsewhere. If you want an anvil that will give you good, honest service, that will stand up under the hardest usage, that is made right, that is tempered right and that has a good clear ring, send us your order for one of our Fulton anvils.

Our Fulton anvils are made in the good old fashioned way of two pieces of tough wrought iron welded at waist. The face is made of a single piece of tool steel securely welded to the body and warranted not to come loose. The face, trued by a special machine so there are no hollow or uneven places, is perfectly tempered, making it hard without being brittle and tough without being soft. Has long, perfectly shaped horn and heel and the base has sufficient spread to insure stability and prevent tipping.

To prove that our Fulton is the best anvil ever offered, we sell it under our guarantee to take any one of them back at our expense within thirty days after you receive same, if it is not equal to or better than any anvil you ever used. All we ask for it is a fair trial, and if it is not all we claim for it, return it to us and we will immediately refund the full price paid. Could we afford to make this offer if our anvils were not first class?

	99F5780	99F5781	99F5782
Weight	75 lbs.	100 lbs.	125 lbs.

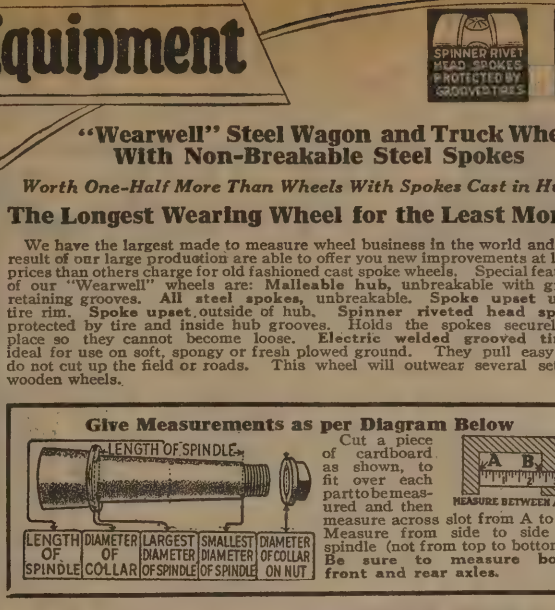
"Wearwell" Steel Wagon and Truck Wheels With Non-Breakable Steel Spokes

Worth One-Half More Than Wheels With Spokes Cast in Hub

The Longest Wearing Wheel for the Least Money

We have the largest made to measure wheel business in the world and as a result of our large production are able to offer you new improvements at lower prices than others charge for old fashioned cast spoke wheels. Special features of our "Wearwell" wheels are: **Malleable hub**, unbreakable with grease retaining grooves. **All steel spokes**, unbreakable. **Spoke upset** under tire rim. **Spoke upset** outside of hub. **Spinner riveted head spokes** protected by tire and inside hub grooves. Holds the spokes securely in place so they cannot become loose. **Electric welded grooved tire** is ideal for use on soft, spongy or fresh plowed ground. They pull easy and do not cut up the field or roads. This wheel will outwear several sets of wooden wheels.



SPINNER RIVET HEAD SPOKES PROTECTED BY GROOVED TIRES
SPOKE UPSET OUTSIDE OF HUB
SPOKE UPSET UNDER TIRE RIM
ALL STEEL SPOKES
MALLEABLE HUB
$4.60 AND UP

Give Measurements as per Diagram Below

Cut a piece of cardboard as shown, to fit over each part to be measured and then measure across slot from A to B. Measure from side to side of spindle (not from top to bottom). **Be sure to measure both front and rear axles.**

WILL OUTWEAR SEVERAL SETS OF WOOD WHEELS

Made to order only and shipped direct from factory near CHICAGO. We usually make shipment in from 5 to 10 days after order is received. Metal wheels are not mailable.

Made to Order to Fit Your Skein or Axle

These wheels are made to order to fit tapered wagon skeins of any size from the small 2½-inch by 8-inch skein to the large 3½-inch by 11-inch skein. We can also furnish them for straight axles from 2-inch by 8-inch to 3-inch by 11-inch. Wheels with special hubs, smaller or larger than listed, **can be furnished only at a special price.** Write us for prices.

State Height Wanted

State Height Wanted

$12.90 AND UP PER SET

We Offer 3 Qualities—Extra High Grade—Extra Standard—Standard

SECOND GROWTH HICKORY
TIRES BOLTED BETWEEN SPOKES
EXTENDED MALLEABLE FLANGES AND HUB
RIMS SCREWED ON EACH SIDE OF SPOKE
FULL ROUND EDGE TIRES

Extra High Grade—The Kind We Recommend

1st Quality All white straight grained second growth seasoned hickory spokes. Rims are screwed on each side of each spoke to prevent splitting. Hubs have extended malleable flanges and tires are bolted between each spoke. Extra grade wheels cost a little more than ordinary wheels, but will give you double the service and save you money. Extra grade wheels furnished in the white, oil finished. No defects to cover up.

Extra Standard Grade

2nd Quality Seasoned hickory stock and fully bolted. This quality is sold by all other supply houses as their best grade. Will give satisfactory service on repair work or on low priced new jobs. Furnished in the white, oil finished. Not primed or painted. No defects to cover up.

Standard Grade

3rd Quality A low priced wheel used by blacksmiths on cheap repair work and often misrepresented by other supply houses as a first class wheel. As a matter of fact, it is the cheapest wheel possible to produce. It is primed in oil and lead. Not recommended. We show it for comparative purposes only.

All wheels shipped from factory in OHIO.

Guaranteed All Pure Manila Rope

Long Fiber, Fresh New Stock, Full Size and Strength

For purposes of comparison our price on ¾-inch manila rope is about 28 cents per pound. We quote prices on rope by the foot for your convenience in ordering. Order by the 100 feet and take advantage of our low prices.

Guaranteed all pure manila, no jute or sisal mixed with it. High grade in every respect. For hay carriers it is unexcelled. Will stand 25 to 50 per cent more strain than ordinary rope. Can furnish in one piece any length up to 1,200 feet.

NOTE—Rope for our hay carriers should not be ordered larger than ⅞ inch in diameter. The ¼-inch size is excellent for clotheslines.

99F7825—State size wanted when ordering.

Rope Lariats With Hondas SEE PAGE 1067

8c ¼-In. Per Ft. Extra Heavy Grade "Plow Steel" Wire Hoisting Rope

Made of six strands of nineteen wires each, laid around a fiber core. Do not confuse this rope with the cheaper grades of iron and cast steel ropes offered by most stores as their highest grade. This rope is of the best quality and can be used for general purpose hoisting, for heavy loads where there are uneven pulls and strains and where great strength is required. Note the breaking strain shown on this rope. FOR STUMP PULLING we recommend sizes ⅝ to 1 inch. **When ordering be sure to give size of rope and length wanted in each piece. Shipment made promptly from factory in CHICAGO.**

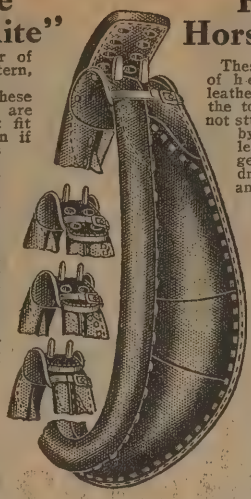
...ch	1.37		

The "Fit-Rite"



This is a collar of standard pattern, **greatly improved.** Order one of these collars and you are sure of a perfect fit at all times, even if your horse gains or loses weight. The top of the collar is unstuffed and flexible and has four pairs of adjusting holes on each side. **You adjust the steel pegs in the holes on both sides,** thereby lengthening or shortening the collar without changing the width at the top. This adjusting is easily and quickly done, and affords a practical method of changing the size of a collar so that it will always fit properly. Each collar can be adjusted to four different sizes.

Fitzall Horse Collars

These collars are made of heavy firm collar leather, thong stitched; the top of the collar is not stuffed, but stiffened by several layers of leather stitched together; the large draft is well stuffed and shaped to fit the hollow of the neck snugly and comfortably. The smooth leather pad at the top fits the top of the neck, reduces friction and prevents binding. The "Fit-Rite" Fitzall Horse Collars are made in three grades. Comparison of prices will show that the cost of these collars is very little higher than that of ordinary one-size collars of equal quality.

Just try the new improved "Fit-Rite" Fitzall Horse Collar. Watch your horse when he is pulling a heavy load with it and you will see how this collar differs from others.

"Mid-West Farms" Horse Collar

A Leader in the Field of Collar Manufacture and a Value That Shows the Way to Others

Examination of the material and workmanship of this collar will surely please and satisfy the most critical that it is one of the best low priced leather collars you can buy—the greatest collar value being offered anywhere. It is in all respects a high class product and only the fact that split leather is used at the rim and shoulder enables us to make so low a price. A grain leather collar of this grade could not be sold for less than twice the price we ask for this. At the outer edge the collar is ribbon thong stitched; the middle seam is also thong sewed and the throat built up full and stuffed; the collar opens at the top and is fitted with a heavy sole leather top pad and patent fastener; the draft is 16½ inches. Weight, about 7½ pounds. Shipping weight, 9 pounds.

How to Measure

Measure your horse's neck from top to throat, where the collar sets, on one side only and in a straight line. The number of inches will be the size needed. Or measure old collar inside of rim as illustration shows. The draft is the size around shoulder at widest part of collar. The weights of horse collars and sweat pads will vary with the size. We state the shipping weight of the 20-inch size of each number.

The "Jackson" Horse Collar

Canvas collar with heavy web rim. Half Sweeney pattern, for horses with thick necks and big shoulders; wide leather top pad, buckle top; split wear leathers at hame terrets and draft, around entire bottom of collar; cloth face, 18-inch draft. Well stuffed and splendidly made throughout. Shipping weight, 9 pounds.

Hercules Bull Tie

Designed to hold the most vicious bulls. This Bull Halter is constructed of stout chain and bark tanned leather. The leather, encased chain encircles the neck, locked underneath by a patented clasp. To this chain another is attached which passes over the poll, down the forehead and through the nose ring by which the bull is tied. A quick jerk will spend its effects, not on the ring, but over the poll to the neck chain, thus preventing accidents. No matter how hard he struggles, the Hercules Tie will render the bull harmless and will not do him injury.

10F1993—Shipping weight, 8 pounds **$5.95**

$5.25

"Man-o-War" Horse Blankets

Plaid blankets were always popular and fashionable, but high prices in late years made their use almost prohibitory. This year, however, we are offering two different designs at prices within the reach of all. This particular blanket is woven from very good materials, just the right amount of wool and cotton to give that soft, fluffy feeling and yet it has warp enough and body enough to insure excellent wear. The colors of this blanket are artistically blended into a very attractive pattern and we know that you will be pleased with it.

10F9932¼—Size, 80x84 inches. Shipping weight, 7 pounds. Each..... **$5.25**

10F9933¼—Size, 84x90 inches. Shipping weight, 8 pounds. Each..... **5.95**

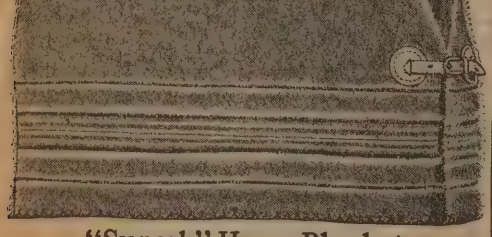
$5.95

"Zev" Horse Blanket

The young fellows like a nice plaid blanket their horse and we have not forgotten them year, but have added two kinds of plaid blank This is the better of the two in quality. It is wa enough for the most severe weather and wei approximately 6 pounds. It has a lot of wool i and is firmly woven. It is hard to describe beautiful colors. You must see the blanket it to appreciate it, so we are just going to say t it is a beautiful plaid of about seven or eight col made into a very artistic pattern.

10F9934¼—Size, 80x84 inches. Shipping weight, 7 lbs. Each..... **$5.9**

$4.50



"Superb" Horse Blanket

Here is a strong blanket made for hard service, half wool and half cotton. Much stronger than an all wool blanket, will last longer, stand harder wear and give more satisfactory service. The specifications to which it was made result in a blanket of warmth and durability. Its quality will be proved by long service. It has a brownish gray body with bright color headings and stripes. Good straps and buckles sewed on and the right amount of warp and filler in it to make it a good serviceable blanket. Buy this on our assurance that you will get complete satisfaction.

10F9920¼—Size, 84x90 inches. Shipping weight, 7½ pounds. Each..... **$4.50**

It's Easy to Order From the World's Largest Store. See Order Blanks in Back of Catalog

$2.85

"Sovereign" Horse Blanket

In describing this blanket we are not going to say very much as we want you to be agreeably surprised when you receive it. Will simply say this: It is made from heavy brown duck, lined with a good part wool lining and reinforced with stays and surcingles. The size is suitable for most all horses. The blanket is of material that makes it practical to be used as an outside blanket as well as a stable blanket and, at this low price, you can afford to buy for either purpose.

10F9720¼—Size, 76 inches. Shipping weight, 10 lbs. Each..... **$2.85**

Unlined Stable Sheets

Featuring the Finest Horse Blankets Made

$5.25

Our "Big Leader" Horse Blankets

These blankets are made by one of the best known manufacturers in the country, but, on account of our extremely low prices, they will not let us advertise them as their blankets. The blankets, however, carry the name of the manufacturer and when you get them you will wonder how we are able to sell them at such low prices. The body color of these blankets is golden brown, and they have a most original combination of colors in the head stripes, as well as neat body stripes running through the blanket. You will do well to purchase these for your horses.

Bark Tanned Black Harness Leather

Our leather is noted for its strength of fiber and unexcelled wearing qualities. It is the same high grade that we use in our sets of harness and miscellaneous strap work; is tanned by the old bark process, in use for over fifty years and never fails to give satisfaction. The hides are selected for their plumpness, firmness and freedom from bad spots. Sold in full sides, which include back and belly together, or the back and belly are sold separately in the weights mentioned. A side of leather is half a hide; the back is the upper part of the side; the belly is the lower part of the side, as the illustration shows. We will send you as near the weight you order as we can but we do not cut the sides, backs or pieces into straps.

10F7763½—Full Sides, weighing from 16 to 19 lbs. each. Lb. **52c**
10F7764½—Full Sides, weighing from 19½ to 24 lbs. each. Lb. **53c**

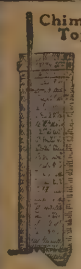
10F8022 Per pair..... **89c**

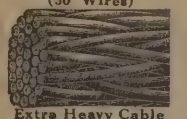
Protect Your Buildings

Lightning Rods Protect Them!



Do not wait until the lightning strikes before you give your home this important protection. Statistics of the Department of Agriculture and insurance companies prove that properly installed lightning rods are positive protection against lightning. The Department of Agriculture recommends their use. Insurance companies report practically no losses on properly rodded buildings.

Standard Cable is sufficient for all ordinary buildings. In sections where electrical storms are unusually severe and on large buildings requiring three or more groundings, we recommend heavier cables. Vanes mounted on brass swivel turn easily with the wind. Prices include copper clips and nails for fastening cable to building. A complete lightning rod outfit, with cable and tops, weighs, packed for shipment, from ¾ to 1 pound to the foot. **Shipped from our store.**



72F3700¼—Standard Copper Cable, about ⅜ inch in diameter. Per foot..... $0.08

72F3696¼—Heavy Copper Cable, about ½ inch in diameter. Per foot..... .09

72F3695¼—Extra Heavy Copper Cable, about ½ inch in diameter. Per foot..... .11

72F3698¼—Complete, plain top..... 1.15

72F3702¼—Complete top, with animal figure and glass ball. (State figure, whether horse, cow, pig, sheep or rooster and color of ball, opal, blue, silver, or gold).. $2.85

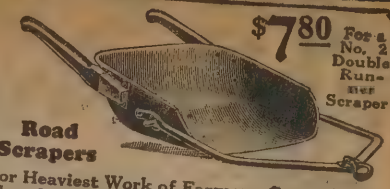
72F3712¼—Complete top, with arrow vane and glass ball. (State color of glass ball.)..... 2.15

72F3718¼—Complete Chimney Top, 6 feet high, 95c; 8 feet high, $1.25; 10 feet high (not mailable) $1.50

It's Easy to Measure Your Building for Rods

No Expert Needed

Run a cord over the building in the same lines the rod is to be run and, wherever the rod turns or branches, drive a nail to hold the cord in place. Allow enough so that all bends or turns over eaves or around corners are gradual, and where cable passes close to metal cornices, water spouts, ornaments, gutters, etc., it should be connected to such points. At least two ground connections are needed for every building, and on large buildings with more than five tops or points, three groundings. Cable must extend into ground 10 feet at each grounding. Tops or points should not be over 25 feet apart. Each cupola, tower and chimney should have a point or top and each gable or wing extending from main structure 10 feet or more should also have a point or top.



Road Scrapers

$7.80 For a No. 2 Double Runner Scraper

For Heaviest Work of Farmers, Contractors, Railroads and Townships.

Heavy gauge steel. Bowls are pressed from a single sheet of special high carbon scraper steel. Full thickness of steel at the point of greatest wear. Scrapers fill and clean easily. Bail and swivel are heavy forged steel.

Hardwood handles. Double runner scrapers have two runners of hardened steel riveted to bottom; double bottom scrapers, an extra bottom plate of hard steel, riveted to bottom. **Shipped from factory in OHIO.**

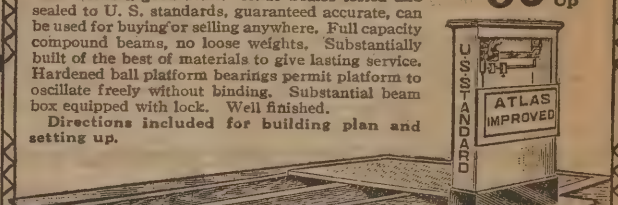
Atlas Improved Wagon and Stock Scales

A good investment in true economy. Every farm needs a good scale. Atlas Scales tested and sealed to U. S. standards, guaranteed accurate, can be used for buying or selling anywhere. Full capacity compound beams, no loose weights. Substantially built of the best of materials to give lasting service. Hardened ball platform bearings permit platform to oscillate freely without binding. Substantial beam box equipped with lock. Well finished.

Directions included for building plan and setting up.

$60.00 Up



Shallow Pit Scales

Recommended for permanent setting, all around heavy duty, and longest service.

These are known as five-lever scales, the most modern type of heavy scale construction.

Two main levers, one at each end, extend across the platform and rest on heavy bearing chairs. Another lever extends from each main lever and carries the weight to the fifth lever, which transmits it to the weigh beam.

The great advantage of this type scale is that the entire lever system always remains stationary, whereas in scales of the hanging lever type the levers swing with the platform, causing extra wear on knife edges and bearings.

Pit Wagon Scales				
Catalog No.	Capacity	Size, Platform, Feet	Wt., Lbs.	Each
32F1786	4 tons	14x8	670	$ 60.00
32F1787	5 tons	14x8	680	63.50
32F1788	6 tons	14x8	720	69.75
32F1789	10 tons	22x8	1,400	124.00
Pit Motor Truck Scales				
32F1790	10 tons	16x8	1,420	$150.00
32F1841	15 tons	18x9	1,800	245.00

Pitless Scales

Requires no pit, but set right on top of the ground. Easily set up, and can be moved from one location to another with little trouble. **They come with full steel frame,** and steel platform joists, ready to put together—all complete except platform.

$101.00 Up

Pitless Wagon and Stock Scales

Pitless Scales are recommended for their convenience. No pit, wall, wood frame timbers or platform joists are needed. Simply bolt steel together, hang in scale irons, lay on platform plank—and your scale is set; hence they are cheaper to install. They weigh as accurately as a pit scale.

Catalog No.	Capacity	Size Platform, Feet	Weight, Pounds	Each
32F1781	4 tons	14x8	1,375	$101.00
32F1782	5 tons	14x8	1,400	104.50
32F1783	6 tons	14x8	1,420	107.00

The lever construction is on the same principle as our Shallow Pit Scales.

All scales on this page shipped from factory near KANSAS CITY, MO.

21.65 Up

Portable Platform Scales

Sealed to U. S. standard and can be used for buying or selling anywhere. Guaranteed accurate, close weighing and durable. Shipped from factory near KANSAS CITY, MO.

Excepting the beam, these are the same scales as our regular single beam scales. The upper bar is graduated by ½-lb. marks to 50 lbs. The lower bar has large poise which engages in notches, weighing by 100 lbs. to the full capacity of the scales; full capacity double beams, using no loose weights.

Frame and levers are strong and heavy. Pivots and bearings, tool steel. Hardwood pillar, solid brass beam graduated to ½-pound and gliding poise. Nicely painted and varnished.

32F1774 50-Pound Sealed Test Weight. Guaranteed accurate. Used for testing any scale..... $3.75

David Bradley Tongueless Disc Harrow

For over 93 years Bradley tools have proved their superiority on thousands of farms. Honest tools, honestly made and sold direct to you at lowest factory prices. The Bradley Disc Harrow is one of the most popular implements ever designed by any factory. Extra strong construction throughout with every important improvement built into it.

An all steel harrow of true bumper type in which the gangs roll together without buckling or riding each other. **Frames** of heavy steel, rigidly braced throughout. **Gangs** are flexible, operated by independent levers. **Bumper washers** on inner ends of gangs. **Heavy steel yoke,** adjustable on the frame, holds discs level, makes them cut uniform depth and prevents buckling up in center. **Oscillating spring steel scrapers** are operated by foot levers and disengaged by hand throwoff levers. **Adjustable tongue truck** is flexible in all directions. Wide wheel spread prevents tipping, relieves horses of neck weight and makes turning easy. **Prices are for Disc Harrows complete with eveners, scrapers, weight boxes and tongue truck.** Third lever attachment is $1.75 extra. **Shipped from BRADLEY, ILL.**

Catalog No.	No. of Discs	Width of Cut	Size Hitch	Wt., Lbs.	16-Inch Discs	Wt., Lbs.	18-Inch Discs
32F330	8	4 ft.	2-Horse	400	$36.50	415	$38.50

$1.50 up

COMPLETE WITH BOLTS

Finished, Fitted, Ready to Attach to Your Plow

You Save Money Here—

These shares are guaranteed to be exactly the same in shape and fit as the original shares received with your plow and will give as good or better service. Made in our David Bradley Implement Factory, where years of experience in making shares assure you the best. They are the only plow manufacturers making this line of duplicate shares. Made of highest quality materials and have an extra wide lap weld which gives additional strength, long wearing qualities and permits frequent sharpening. These shares will make your plow work as good as new.

Read Before Ordering

We can furnish only RIGHT HAND shares with marks as shown below. When ordering do not fail to state size and tell us the marks which are stamped on the back of your old share.

Solid Steel Shares (known to the trade as "crucible") should be used in sandy, gravelly or stony soils which are apt to break hard tempered shares.

Hard Tempered Soft Center Steel Shares are for use in sticky soils and ground practically free from stones.

Shipping weights, 12, 14 and 16 pounds, respectively. **Shipped from our store.**

David Bradley Cob Crusher Feed Grinder

Large Grinding Capacity With Small Power

$25.50

8-Inch Burrs

A Superior Grinder

Grinds corn on the cob (without the shuck), shelled corn, oats or other small grain to most any degree of fineness from cracked feed to table meal. Cob breakers on the shaft and the worm feed constitute a force feed, giving grinder large capacity and making it an excellent mill for grinding small grain and shelled corn, as well as ear corn.

Extra heavy frame, cast in one piece, has hinged bottom with wood break pins.

Cold rolled steel shaft, 1½ inches in diameter, with ball bearing end thrust. Large bearings lined with engine babbitt and fitted with hard oil cups.

Large capacity sheet steel hopper. Ear corn will not bridge or choke.

Angle steel legs strongly braced.

Pulley is 12 inches in diameter with 6-inch face and should run from 300 to 500 revolutions per minute to give best results. Requires 4 to 6 horse-power engine. Can also furnish either 8x6, 10x6 or 14x6-inch pulley instead, without extra charge. State size of your engine pulley and its speed and we will equip the grinder with the proper size pulley. Capacity depends on power, speed and kind of grain. Grinds 10 to 25 bushels of dry ear corn, and 10 to 40 bushels of shelled corn, wheat, oats or barley per hour.

The 8-inch burrs are self aligning, self adjusting and extra heavy. A convenient lever regulates fineness of grinding and can be thrown off instantly, separating the burrs. Shipped complete with one set of coarse burrs for crushing or cracking ear and shelled corn for rough feed and one set of medium burrs for finer grinding of shelled corn and small grain. Special oats burrs, which are also suitable for grinding table meal, are extra at prices given below.

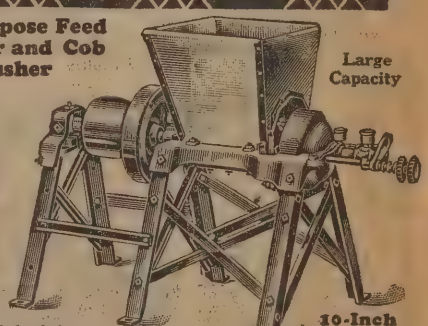
All Purpose Feed Grinder and Cob Crusher



Large Capacity

10-Inch Burrs

Built for heavy duty work. Requires a tractor engine or motor of 7 horse-power or more. Grinds ear corn without shucks, and oats and other small grains for feed, separate or mixed. Capacity, 20 to 60 bushels per hour, depending on power, speed, kind and condition of grain. Mill is strongly built throughout and strongly braced at all points of strain. Heavy steel frame supported on heavy angle steel legs, rigidly braced. Heavy, cold rolled steel 1½-inch main shaft has extra long babbitted bearings fitted with large oil wells, which are convenient to fill while mill is running. Chilled iron spiral cob breakers with safety break pin. The 10-inch burrs are of special "Crowfoot" pattern design. Very heavy and durable. Instantaneous lever control, for separating burrs. Ball bearing end thrust. **Illustration shows grinder with third bearing and stand, which we recommend for large motors, engines or tractors, and is furnished extra at price below.** Pulley, 12x6 inches, should be run from 400 to 700 revolutions per minute to give best results. Can also furnish 8x6, 10x6 or 14x6-inch pulley instead without extra charge when so ordered. **Shipped with one pair coarse and one pair fine "Crowfoot" pattern burrs from factory in EASTERN IOWA.**

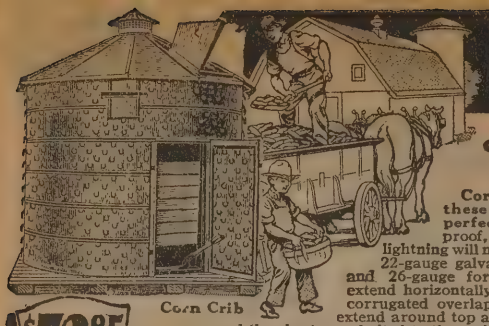
The Best at Lowest Prices



Corn Crib

$72.85 UP

Galvanized Steel Corn Cribs and Grain Bins

Corn or grain stored in these steel bins is kept in perfect condition. Rainproof, ratproof and fireproof; lightning will not harm them. Made from 22-gauge galvanized steel for the body and 26-gauge for the roof. The sheets extend horizontally around body, forming a corrugated overlapping joint. Steel circles extend around top and bottom of body inside and the sheets are bolted to these circles. Easily set up.

Door frames strongly formed, and doors equipped with strong hinges and double steel hasps which can be fastened with padlock. Sectional roof joined by standing seams, fastened with bolted clamps and bolted to body.

Hinged door in roof has hasp for locking. Perforated ventilating pipe extends from floor to top ventilator. The body perforations are elliptical, slightly larger at top than at bottom. The tongues of metal are punched out far enough to provide full ventilation, yet the projecting tongues prevent rain beating in.

Bottoms of corn cribs are extra. Bolts and anchors are furnished for setting on concrete or wooden floor. Shipped from factory in CENTRAL OHIO.

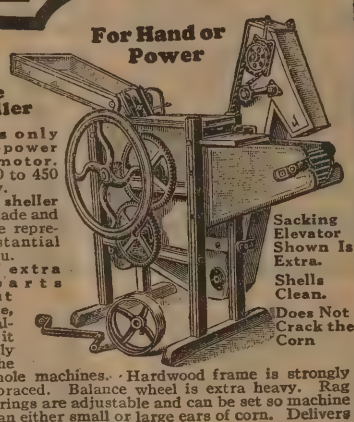
David Bradley Two-Hole Corn Sheller



For Hand or Power

Sacking Elevator Shown Is Extra.

Shells Clean.

Does Not Crack the Corn

Requires only one horse-power engine or motor. Capacity, 350 to 450 bushels a day.

No better sheller of this size made and our low price represents a substantial saving for you.

Made of extra heavy parts throughout for power use, yet so well balanced that it runs as easily by hand as the lighter two-hole machines. Hardwood frame is strongly bolted and braced. Balance wheel is extra heavy. Rag irons and springs are adjustable and can be set so machine will shell clean either small or large ears of corn. Delivers corn free from dirt and chaff.

Cob carrier has heavy drive chain, which separates the corn from cobs and delivers them to rear of sheller. Pulley is 10 inches in diameter with 3½-inch face and should be speeded about 350 revolutions per minute for best results. Attachments illustrated with sheller are extra. Price of sheller includes crank, pulley, fan and feed table.

Copper-Iron Kettles

All Year Hog Waterer

A first class waterer at a very low price. Made of No. 24-gauge galvanized steel, with one-piece cast iron trough extended to form drinking cups at both sides. Flow of water to cups regulated by float valve in bottom. Cleanout plug in bottom. Two kerosene lamps included, which set directly under cups; surplus heat circulates between inner and outer walls around main tank, preventing water in tank and cups from freezing in winter. Lamps burn twenty-four hours or more with one filling. Waterer can be filled by hand, or connected to a supply tank with float valve. Holds about 70 gallons. Weight, 137 pounds. **Shipped from factory in IOWA.**

32F2020 ..... **$17.50**

Sanitary Watering Fountain

For hogs, sheep and other small stock. Automatic feed. Tank is galvanized steel with top and bottom double seamed. Top is pressed into funnel shape and has brass filling plug. Mounted on well braced heavy angle steel sled. The fountain with heater has the base entirely enclosed with metal and is furnished with a three-burner kerosene heater. **Shipped from factory in OHIO.**

72F3257¼—Lots of 6. Weight, 21 pounds. Each..... **49c**

No. 22-Gauge Galvanized Steel

Peerless Dairy Barn Equipment

PEERLESS STALLS are substantial, simple and practical and contain all features necessary for cleanliness and convenience. Built of heavy 1⅝-inch outside diameter brazed steel tubing. All parts bolted together, no threads in tubing. Upright posts stand 5 feet 5 inches high above floor with 5 inches additional for imbedding in concrete. Triple bend stall partitions extend back 42 inches from uprights and 42 inches high from floor. Partitions have cast flange riveted to bottom to secure them in concrete. Stalls are finished in blue gray paint.

When ordering stalls give us this information:

Into how many rows will stalls be divided? The desired width of stalls.

Will rows join building wall at one or both ends?

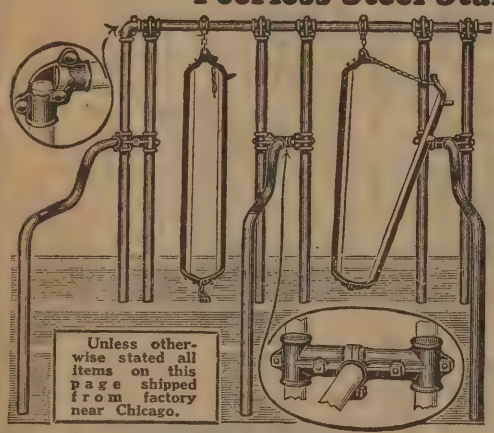
Also furnish a pencil drawing showing number of stalls in each row, the location, size and kind of any posts that may be in the way of the rows, and the distance between centers of posts.

Send for This Free Catalog 476F

Every dairyman should have this book. It shows larger illustrations, other style stalls and litter carriers, mangers, pens, and a complete line of Peerless Dairy Barn Equipment.

For Information About Barns See Page 985

Peerless Steel Stalls



MODEL A STALL

Model "A" Stall

Each stall has two uprights and crosspiece for supporting partition.

Price includes top rail, two uprights, one bent partition, necessary clamps and bolts, and one stanchion with anchor. Furnished 3 feet 6 inches to 4 feet wide, as ordered. State width. Illustration shows two stalls with partitions and one extra end section. Stalls are finished in blue gray paint. Weight, 75 pounds.

The Stanchion regularly furnished is our 32F2214¼. Will furnish 32F2209¼ Stanchion instead, if desired, at an extra price of 30 cents per stall.

32F2263
Model A Steel Stall...$8.15

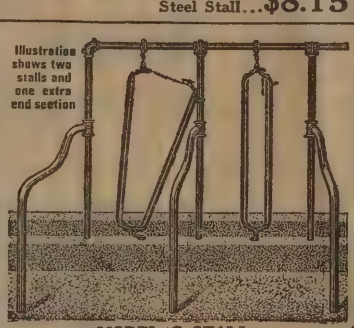
Model "C" Stall

Price is for stall complete consisting of top rail, one side upright and partition, stanchion with hanger and bottom anchor and necessary clamps and bolts. Stalls are finished in blue gray paint. Furnished any width, 3 to 4 feet. State width desired. Weight, 56 pounds. The stanchion furnished is our 32F2214¼. Will furnish 32F2209¼ Stanchion instead, if desired, at an extra price of 30 cents per stall.

32F2267—Model C Steel Stall..... $6.35

Where both ends of a row of stalls are independent and do not join the wall of building, one extra section composed of an upright and bent partition is required for finishing off the end of row.

32F2268—Extra End Section for finishing end of row, either Model A or Model C. Shpg. wt., 25 lbs..$2.85



MODEL C STALL

Peerless Stanchions

Install Peerless Stanchions in your barns. Their adjustable width holds the animal securely and yet allows for comfort and freedom of movement. You cannot find better quality than in the Peerless. We offer several designs at special low prices that will give you substantial savings.

$2.45

Improved Peerless Steel Stanchions

Sides are heavy steel U-bars, the channel turned inward and lined with smooth hardwood strips. The left side is extended around to form the top bar and slides in a malleable iron loop extending from the other side bar. Hinged side bar is thus supported top and bottom, and the cow cannot push against and spring it out of adjustment. Spring latch is protected but accessible. Opens 24 inches wide at top. Adjustable top and bottom for neck space. Height inside, 48 inches; chains, 6 inches long. Metal parts finished in black japan. Shipped from our store or factory near CHICAGO.

32F2209¼
Weight, 25 pounds.. $2.75

Oval Steel Stanchions

Furnished with or without wood lining. Side bars are heavy U-bar steel. Lined stanchions have smooth, rounded hardwood strips. The channel of the steel U-bars, being turned inward, the wood linings are firmly supported by the steel. Unlined stanchions have flat side of U-bars turned inward. Hinge, latch and top are malleable castings. Adjustable top and bottom for neck space; 48 inches inside. Chains, 6 inches long. Metal parts durably finished in black japan. Shipped from our store or factory near CHICAGO.

32F2214¼—Steel Stanchion with wood lining. Weight, 21 pounds..... $2.45

32F2213¼—Steel Stanchion without wood lining. Weight, 17 pounds..... 2.10

32F2273—6-Inch Hook Bolt for attaching stanchion to wood frames. Weight, 1 pound..... .4

32F2220—Bottom Anchor for fastening stanchion to concrete curb. (For any chain hanging stanchion) Weight, 1½ pounds..... .25

32F2221—Malleable Clamp with bolts for hanging stanchion to pipe frame. (1⅝ inches, outside diameter.) Weight, 8 ounces..... .25

Wood Bar Stanchions

Side bars are clear white hardwood, rounded, smoothed and oiled. Tops and bottoms heavy malleable. Adjustable for neck space.

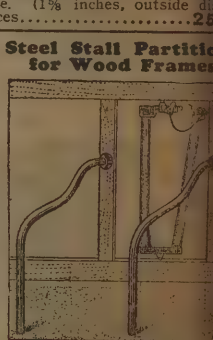
32F2215¼

Stanchion, 49 inches high inside. Chains, 6 inches long; pivots, 2½ inches long. Shipped from our store or factory near CHICAGO, ILL.

32F2215¼—Wood Stanchion, Pivot Hanger. Weight, 17 pounds..... $2.20

32F2216¼—Wood Stanchion, Chain Hanger. Weight, 17 pounds..... $2.30

Steel Stall Partitions for Wood Frames



Same as used with complete steel stalls. If you prefer wood frames you can buy the steel partitions separately. Prices do not include stanchion or frame work and are for one partition only. Shipped from factory near CHICAGO.

32F2270—Partition with flange and screws for attaching to frame. Weight, 15 lbs... $1.80

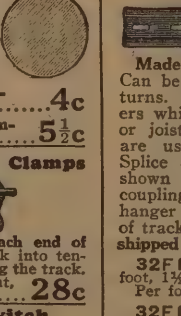
32F2272—Flange for wood floor. Weight, 3 lbs....45

Quick Detachable Water Bowls

Automatic in action. Require no attention except occasional cleaning. Attach to either steel or wood posts. A storage tank elevated a few feet provides all the pressure necessary. Water can be piped from either above or below. When piped from below two ordinary elbows and a short nipple are required. These are not included in the price of the bowl nor are the pieces of pipe and coupling shown above bowl in illustration.

Quickly detached for cleaning by moving small lever, which locks the bowl securely in place. Made of malleable iron, 10 inches in diameter and 4¾ inches deep, with rolled edges. Shipped complete with clamps from factory near CHICAGO. Weight, 12 lbs.

32F2242—Bowl for Steel Stalls..... $2.65
32F2243—Bowl for Wood Stalls.....$2.65

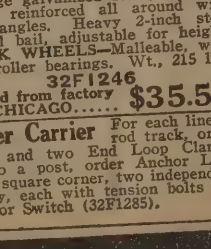


Complete Litter Carrier Outfit

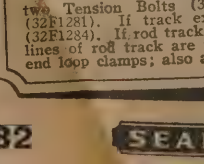
Why haul manure out of your barn with the back breaking wheelbarrow when it can be done so much easier with this carrier outfit? This style for use in barns with low ceilings or doorways. Bucket, 42 inches long, 24 inches wide, 16 inches deep. Galvanized steel, hardwood ends. Complete with 100 feet No. 0000 rod track, anchor loop, clamps, turnbuckle, and anchor rod. For additional track see prices at right. Shipped from factory near CHICAGO.

32F1275—Outfit complete. Wt., 200 lbs.. $27.50

32F1278—Carrier only. Weight, 135 pounds.....$18.75



Carrier With Automatic Lift



Suitable for any but the largest barns. Quick lift, self lowering, automatic clutch and brake. For either rod or I-beam track. BUCKET—Length, 42 inches; width, 24 inches; depth, 16 inches. Body is one-piece 18-gauge galvanized steel; ends 16-gauge, reinforced all around with steel angles. Heavy 2-inch steel channel bail, adjustable for height. TRACK WHEELS—Malleable, with steel roller bearings. Wt., 215 lbs.

32F1246
Shipped from factory near CHICAGO..... $35.50

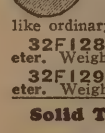
How to Order a Litter Carrier

For each line of rod track, order two Tension Bolts (32F1282) and two End Loop Clamps (32F1281). If track extends to a post, order Anchor Loop (32F1284). If rod track turns a square corner, two independent lines of rod track are necessary, each with tension bolts and end loop clamps; also a Curve or Switch (32F1285).

Litter Carrier Track and Attachments

Rod Track and Attachments

32F1280



32F1293

If you cannot use our complete straightaway outfit, make up your own by ordering carrier and attachments separately.

Polished round steel rod, can be looped like ordinary wire. Rolls in a coil for shipment.

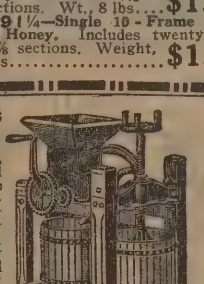
Standard Cider Mills

Powerful—Large Capacity

Senior Hand Power Mill



Grind grapes, berries, etc., as well as large or small apples. Hoppers are large and have forced feed. Cannot clog or choke. Heavy hardwood frames strongly bolted together withstand great pressure. Extra heavy cast iron crossheads. Steel press screws accurately threaded and fitted. All sizes are back geared and have heavy balance wheel. Junior and Medium Mills are operated by a single crank. Senior Mills are double back geared, and can be operated by either hand or power. The Senior Mill has two cranks, wide face balance wheel and can also be driven by belt from engine. Hardwood tubs reinforced by wrought iron hoops. Tub sizes given below are outside measurements. **Shipped from factory in EASTERN INDIANA.**

Catalog No.	Size	Capacity Cider, per Day	Size Tub, In.	Wt., Lbs.	Each

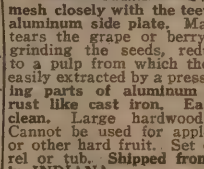
Grape and Berry Crusher



The aluminum roll is 4½x9 in. and has twelve rows of strong teeth which **mesh closely with the teeth on the aluminum side plate.** Mashes and tears the grape or berry without grinding the seeds, reducing all to a pulp from which the juice is easily extracted by a press. **Grinding parts of aluminum will not rust like cast iron. Easily kept clean.** Large hardwood hopper. Cannot be used for apples, pears or other hard fruit. Set over barrel or tub. **Shipped from factory in INDIANA.**

32F2384—Shipping weight, 40 pounds..... **$5.85**

$14.85

Steel Frame Family Cider Mill and Press

The heavy steel frame and legs and heavy steel crosshead make this an extra strong and rigid outfit which will outlast any wood frame press. Heavy steel press screw accurately threaded and fitted. Mill is geared, has a large hopper and extra wide adjustable throat, and will grind larger apples than any other type of single tub mill. Oscillating hopper sides automatically force the fruit against the cast iron grinding cylinder until it is reduced to a pulp. Grinder part can be detached, making a press only. Hardwood slatted tub 10 inches high and 10½ inches in diameter, reinforced by heavy wrought iron hoops securely riveted. Capacity, 1 to 2 barrels per day. **Shipped from factory in EASTERN ILLINOIS.**

32F2386—Weight, 140 pounds..... **$14.85**

Farm Fencing Shipped From

St. Louis | St. Paul

Champion Farm Fencing

Made in Our Own Fencing Factory

You are interested in good farm fencing. You know, too, that fencing to give satisfactory service and proper protection must be designed correctly and made from good galvanized wire.

Champion Farm Fencing is just this kind of fence. It is made in our own fence factory of the best full gauge galvanized fencing wire that money can buy. We know that you cannot get better quality at any price. Our Champion Standard Fence meets all ordinary farm requirements and will give lasting and satisfactory service. We offer our Champion Extra Heavy Fencing if you need an extra strong fence.

The continuous one-piece stay wires, spaced 6 or 12 inches apart, prevent bagging and sagging between the posts. It stretches straight and tight, and needs the fewest possible number of posts. Heavily crimped line wires compensate for expansion or contraction by heat and cold, and provide elasticity for sudden strains. Each wire locked to the stay wire as securely as if stapled to the post and both line and stay wires carry equal strain. **Our Champion Farm Fencing has no superior.**

Send us your fencing orders. We guarantee satisfaction in every respect and guarantee to save you money as well. Shipped in 10, 20 and 40-rod bales from warehouse nearest you. We do not cut bales. Full 16½ feet to every rod.

23½c

Steel Fence Posts

Build your fence on Sears steel posts and your post troubles are over. They hold your fence securely in line. The first cost is the only cost. No annual repair expense. Will not rot or break off at ground line like wood posts. Are stronger, neater appearing and cheaper. You can burn weeds along your fence lines. No holes to dig. Posts are pointed—just drive them into the ground like a stake. Steel posts can be used anywhere—orchards, poultry yards, vineyards, as well as for all farm fencing purposes.

Made from rail carbon steel, the strongest and most durable fence post material. They possess the advantage of lightness with strength and stiffness and great durability.

Line posts have oval shape holes, ⅝x⅝ inch, punched 2 inches apart, through which ordinary fence staples can be driven and clinched, or fencing can be attached by tie wires. Line posts should be set about 20 inches in the ground. Posts with anchor plates are especially recommended for loose soil as they give additional bearing surface. **Shipped from factory in NORTHEASTERN ILLINOIS.**

Line posts shipped in bundles of five posts. We do not break bundles.

Standard Line Posts

32F5475—1¼x1¼x¼-Inch Angles

Total L'gth of Post	Weight, Each Post	Each, Less Anchor Plate	Each, With Anchor Plate
5 feet	6 lbs.	20c	22c

X-L-All Farm Fencing

Save Middlemen's Profits

When you buy fencing from Sears you save middlemen's profit. Made in our own up to date factory of the very best full gauge galvanized fencing wire that money can buy. You secure the highest quality fencing it is possible to make at the lowest possible prices. We guarantee our fencing to give you absolute satisfaction and also guarantee you big savings as well. The interlocked stay used on X-L-All Fencing firmly locks line and stay wires together in a strongly woven fabric, so that there is no spreading of the line or stay wires no matter how severe the usage. You can climb the entire height of an X-L-All Fence and every wire will spring back into place. There are no exposed ends to rust. It will not bag or sag; stretches straight and conforms to irregularities of the ground. **Sold in 10 to 20-rod bales only.** Full 16½ feet to every rod.

Special Fencing

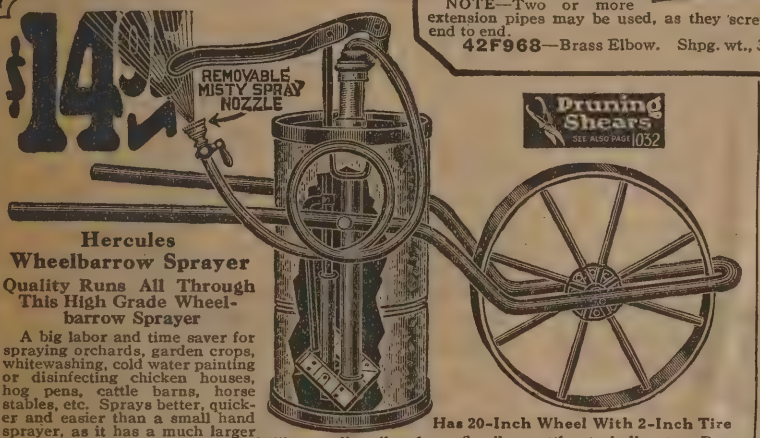
42F907¼ $4.90

$14.95



Hercules Wheelbarrow Sprayer

Quality Runs All Through This High Grade Wheelbarrow Sprayer

A big labor and time saver for spraying orchards, garden crops, whitewashing, cold water painting or disinfecting chicken houses, hog pens, cattle barns, horse stables, etc. Sprays better, quicker and easier than a small hand sprayer, as it has a much larger pumping and carrying capacity. Will spray lice oil on hogs, fly oil on cattle, stock dip, etc. Pump can be removed and tank and barrow used for carrying water, feed, grain, slops, etc. It is one of the most useful farm implements you could have on your premises. In season or out of season it serves many useful purposes. Open top galvanized iron tank holds 11½ gallons. Pump cylinder and base castings are all of brass. Nothing to corrode; not affected by strong mixtures. Large size upright air chamber maintains continuous pressure. Produces a pressure of 150 pounds. Has bronze ball valves. Handles are of 1-inch heavy steel tubing in one continuous piece, forming a yoke around the front of wheel as shown. Easily pushed through narrow row crops. The large agitator paddles keep the solution thoroughly mixed. Has 8 feet of heavy ⅜-inch spray hose, shut off cock and spray nozzle. By attaching a number of Brass Extension Pipes 42F944, above in center, or using Bamboo Pole 42F943¼, shown above, high trees may be easily sprayed.

42F903¼—Shipping weight, 56 pounds.....$14.95

Has 20-Inch Wheel With 2-Inch Tire

Pruning Shears SEE ALSO PAGE 1032

Heavily constructed, strong and well made. Long lever handle and heavy parts permit high pressure, so necessary for good spraying. For spraying or whitewashing. Nothing to catch on low hanging branches. Develops 125 lbs. pressure. Height over all, 37 in. 1¾-inch brass cylinder and valve seats. Solid bronze ball valves. Not affected by strong solutions. Has brass connection for ½-inch hose coupling and brass strainer in base. Two-paddle agitator keeps solution thoroughly mixed. Easily attached to any barrel. Prices do not include hose, shut offs, nozzles or barrel. Large boiler tube air chamber, 2¾x28½ in. high. Shipping weight, 40 pounds.

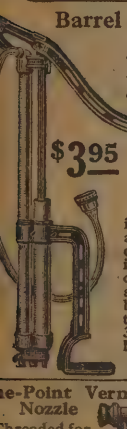
For spraying, whitewashing and applying disinfectants. Gives powerful continuous spray. Operates by working telescoping tubes forward and backward. Has nozzles for coarse spray, fine spray and solid stream. Made of brass. Has wood handle and ¼-inch suction hose with piece of pipe and strainer on end.

42F938—Shipping weight, 4 pounds.....$3.35

Barrel and Bucket Spray Pump

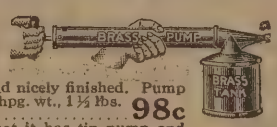
$3.95



May be used with either bucket or barrel for all general spraying, whitewashing, cold water painting, disinfecting, etc. Has bracket casting on pump for bolting to inside of barrel. Malleable stirrup is detachable. Cylinder is of heavy seamless brass tubing. Air chamber cylinder is brass, 1⅛ inches in diameter by 26 inches high. Pump cylinder is 1½x12 inches. Bottom casting and valves are brass. Produces large, powerful continuous spray with slow pumping. Has 3 feet of ⅜-inch hose and combination nozzle for fine spray or solid stream. Air jet agitator in brass base casting keeps liquids thoroughly stirred. Height over all, 31 inches. Shipping weight, 11 lbs. **Mailable.**

42F905¼.....$3.95

Hercules Hand Sprayer



Compressed air type. Has brass ball check valve and is furnished with angular and straight stream nozzle. Throws continuous spray up or down in any position. Exceptionally well made and nicely finished. Pump and reservoir are solid brass. Capacity, 1 quart. Shpg. wt., 1½ lbs.

42F926.....98c

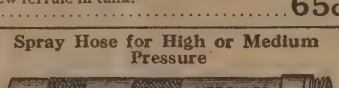
42F928—Sprayer, same as above, except that it has tin pump and tin reservoir. Brass spout and brass screw ferrule in tank. Shipping weight, 2 pounds.....65c

Excelsior Hand Sprayer

A very efficient and reliable hand sprayer. Made with tin pump and reservoir. Simple and effective. Capacity, about 1 quart. Shipping weight, 2 pounds.

42F934.....32c

Spray Hose for High or Medium Pressure



When comparing our prices on sprayer hose remember we furnish two couplings with each length of hose.

Half-inch hose furnished with standard ¾-inch hose connections; ⅝-inch hose furnished with standard ¼-inch connections. Be sure to order correct size hose to fit your sprayer.

42F950¼—Perfection Double Braid Smooth Spray Hose for 150 pounds pressure. Comes only in lengths specified below. **Furnished complete with coupling connections.** Shipping weight, per foot, 5 ounces.

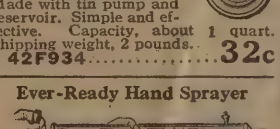
Ever-Ready Hand Sprayer

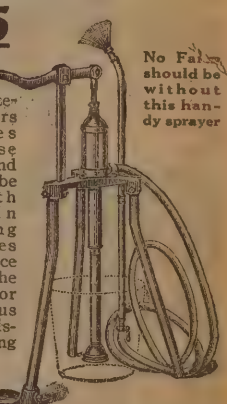


Compressed air type. Has brass ball valve. Two nozzles furnished, one straight and the other angular for spraying up under the leaves. Throws a continuous spray up or down in any position. Has tin pump and galvanized reservoir. Capacity, 2 quarts. Shipping weight, 2½ pounds.

42F911.....$1.25

Handy Whitewashing and Spraying Machine

$7.75



No Farm should be without this handy sprayer

It forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infested with lice you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice or dirt from head to foot.

For spraying sheep and cattle it is especially efficient, as it forces the liquid through to the hide, where it is really wanted.

Has 6-foot iron spray pipe with a ¼-inch brass shut off cock and brass spray nozzle, extra brass nozzle for straight stream work, rubber suction hose with screen attachment, and 8 feet of ⅝-inch special high pressure spray hose. Shipping weight, 22 pounds.

42F901¼.....$7.75

ne-Point Vermorel Nozzle

Threaded for ¼-inch pipe. ipping wt., z. 42F964. 59c

Has caps for coarse d fine spray.

Bordeaux Nozzle

For spraying whitening and d water painting. readed for ¼-in. pipe. pg. wt., 7 oz. 42F960.....42c

Misty Spray Nozzles

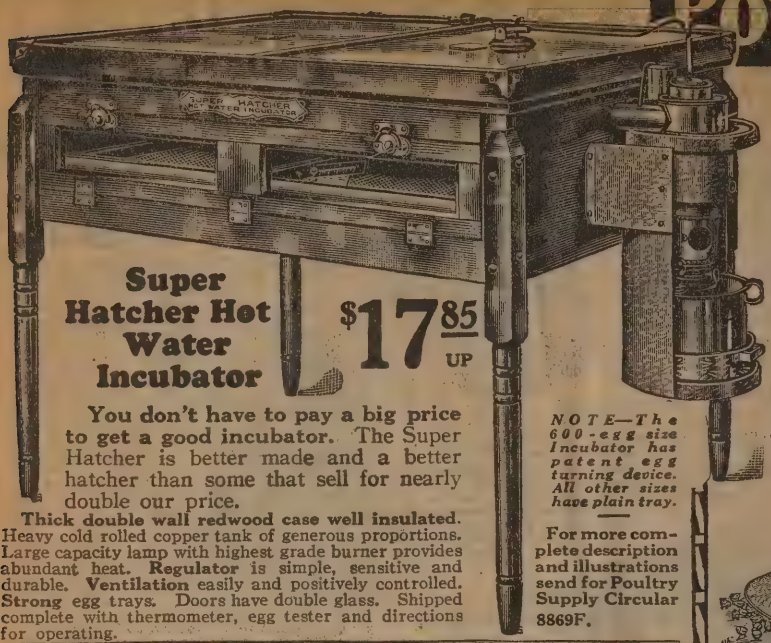
Have fine and coarse spray discs. Threaded for ¼-inch pipe. Shipping weight, 7 ounces.

42F956 Misty Straight Nozzle. 28c

42F958 Misty Angular Nozzle. 35c

For Garden Hose See Page 1033

Poultry Raisers



Super Hatcher Hot Water Incubator

$17.85 UP

You don't have to pay a big price to get a good incubator. The Super Hatcher is better made and a better hatcher than some that sell for nearly double our price.

Thick double wall redwood case well insulated. Heavy cold rolled copper tank of generous proportions. Large capacity lamp with highest grade burner provides abundant heat. **Regulator** is simple, sensitive and durable. **Ventilation** easily and positively controlled. **Strong** egg trays. Doors have double glass. Shipped complete with thermometer, egg tester and directions for operating.

NOTE—The 600-egg size Incubator has patent egg turning device. All other sizes have plain tray.

For more complete description and illustrations send for Poultry Supply Circular 8869F.

Little Brown Hen Incubator

The Time Tried Original of Its Type—Over 200,000 Satisfied Users

Pre-eminently the leader in its field. More of them in use than any other incubator of similar capacity

Year after year the Little Brown Hen has kept this lead because we have constantly made it better and better. Simple, convenient and easy to care for, it has become famous for the healthy, vigorous chicks it hatches. Used by large and small poultry raisers everywhere.

Diameter, 18 inches. Height, 15 inches. Holds fifty average size hens' eggs.

Furnished complete with lamp, thermometer, moisture pan and instructions for operating. Strongly made of metal with felt lined nest. Nicely finished in brown enamel.

Can be shipped by parcel post, freight or express. When ordered by parcel post be sure to send amount of postage extra. **Shipped from our store.**

72F3011¼—Weight, 14 pounds..... **$4.75** Holds 50 Average Size Hens' Eggs

Sectional Galvanized Metal Trap Nest

An essential item for every poultry raiser. Avoids feeding poor layers during winter months when feed is expensive and scratching space for hens is often limited. Aids in breeding only heavy egg producers. Easily cleaned, absolutely sanitary, no place for mites and lice to hide. Sloping top prevents fowls roosting on top. Opening in nests, 9x11 inches. Trap consists of a shutter hinged to center with wire rods sliding on outside of nests. Ample ventilation provided for hen in each nest. Large size nest cannot be shipped by parcel post. **Shipped from our store.**

Shipped from stock.

Protein, 20%
For Big Egg Supply

Produces eggs without lowering vitality of hen.

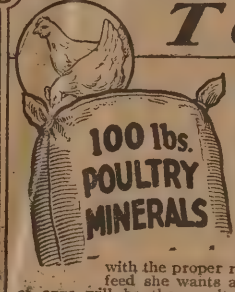
Healthy hens, with sufficient nourishment, lay eggs most of the time. When penned in, hens cannot get the necessary egg forming materials and the egg yield drops. Silver Quill Laying Mash is a high quality mash, rich in protein, fat and mineral matter and supplies in correct proportion the necessary ingredients for egg production. Make your hens pay by making them lay.

79F968—25-pound bag.. 95c

79F969—100-lb. bag... $3.48

Shipped from stock.

Tonics



Poultry Minerals for Laying Hens

Insures more eggs, healthier flocks, more rapid growth, better results from food taken—greater profits.

A hen is an egg factory. If she is supplied with the proper raw materials, the feed she wants and needs, plenty of eggs will be the result. The necessary mineral ingredients are usually lacking in the winter feed and when shortage occurs, the hen stops laying. We simply supply this deficiency in REPUTATION minerals and this increases the egg production. This formula is the result of years of tests. Give it a trial.

Formula: High calcium limestone, 1,000 pounds; spent bone black, 700 pounds; glauber salts, 40 pounds; epsom salts, 20 pounds; sulphur, 120 pounds; iron oxide, 20 pounds; meat meal, 100 lbs.

8F978½—100-pound bag.... $2.65

Shipped from warehouse in INDIANAPOLIS, INDIANA.

79F981—25 pound bag..... 98c

Shipped from stock.

50 lbs. GRANULATED CHARCOAL

Granulated Poultry Charcoal

Absorbs gases and aids digestion. Poultry Charcoal is in small granules, for both old and young fowls. Cannot be shipped by express.

Relative Size. Caponized and Non-Caponized

It Pays to CAPONIZE

Increase your profits. Caponize the young roosters you intend to market. Caponized roosters bring high prices. You are absolutely safe with this no clip outfit. And it is so easy with our "E-Z" Set, as it is designed for us by an expert and is a simple and easy set to use. No expert skill required.

Caponizing is practiced and endorsed by the leading poultry men. This simple operation enables one to market birds at a season when most other fowls are off the market; and, due to the scarcity of fowls at these seasons their added size and firm, choice quality of meat, bring fancy prices and are always in great demand.

This set is of simple design, safe, easy to use and very effective and, with the completely illustrated instruction booklet furnished, enables all poultry raisers to easily and safely raise capons. Shipping weight, 10 ounces.

8F1940—Caponizing Set and directions..... $2.85

Capons for Money—A 40-page book of full instructions and pictures, giving diagrams, when and how to caponize. Do not miss it. Shipping weight, 7 ounces.

8F640—Per 1-lb. carton... 33c

8F641—Per 5-lb. pkg..... $1.39

Whiticide

A disinfecting white water paint to be used in the poultry house, stables, cellars, etc. It is non-poisonous. Spray or paint everything in the poultry house from the floor to the ceiling with Whiticide. Mix with water and easily put on with brush or spray. Doesn't scale or rub off.

8F647—5-pound package..... 65c

Economy King

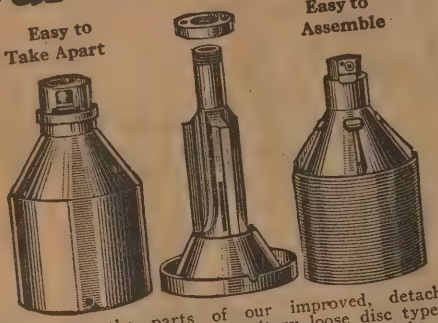
MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

Guaranteed Cream Separators Built in Our Own Factory

Our Sanitary Bowl

Easy to Take Apart

Easy to Assemble



Here are the parts of our improved, detachable spindle bowl. It is of the sanitary loose disc type and heavily double tinned, giving a smooth, bright, rust resisting finish. Very simple, easy to take apart, wash and assemble, and a wonderfully close skimmer.

It will skim milk that is warm or cold, milk from cows on dry feed, stripper cows, milk from breeds whose milk is most difficult to skim, taking the cream practically to the last drop. It gives you a smooth, velvety cream of any desired density from the thinnest to the heaviest, all regulated by turning a simple screw in the bowl head, in or out.

Economy King bowls purify and cleanse the milk, removing any dirt, hair or insects that may have fallen into it so that both the skim milk and cream leave the separator in better condition than the original whole milk. The butter fat globules are unbroken and, after cooling, the cream is in elegant condition for shipping or to ripen for home butter making.

Buy Direct From the Maker

In buying an Economy King Cream Separator from Sears, Roebuck and Co., you make your purchase direct from the manufacturer, as every cream separator we sell is built in our own big cream separator factory at Buffalo, N. Y. We are one of the largest and oldest makers of hand cream separators in the United States. Our cream separators are constructed by skillful mechanics and of selected materials. Finished machines are tested by experts of long experience and we can and do guarantee that any separator you buy from us will do its work perfectly and will satisfy you in every way.

Easy Terms We make it easy for you to become the owner of an Economy Cream Separator. If you prefer to buy any of the dairy sizes on monthly payment terms just fill out the time payment order blank on page 1100 and send it to us together with a deposit of $5.00 (or $10.00 if you order an Electric Drive Separator). Once a month, starting after thirty days' trial, send us a payment of the amount stated under the price of the size selected and in a few months the separator is paid for and is your property. Should you prefer to send cash with the order, as most of our customers do, you can make a saving by taking advantage of our somewhat lower cash prices.

30 Days' Trial We want every dairyman to give the Economy King a trial on his own farm, in his own way. We will gladly send you an Economy King of any size to test in your own dairy, skimming the morning and evening's milk daily for a full month at our risk.

If you find a liberal increase in the butter you make or in the weekly checks from the creamery, and a big saving in the daily work, you will want to keep it. If, on the other hand, you are not perfectly satisfied to keep and use the Economy King, just send it back to us and we will at once return all money paid for it and also pay the freight charges both ways.

Lowest Prices Our cream separator prices as quoted on these pages are real factory prices. Our separators cost as much to build as other first class standard machines but by selling to you direct we save for you the profits and selling expense of agents, retailers and jobbers, and you keep this saving right at home in your own pocketbook when you buy from us.

Just compare our cream separator prices with those asked by local dealers and agents. You will usually find a difference of $20.00, $30.00, $40.00 or even $50.00 on the larger sizes and a proportionate saving on the smaller sizes, and you keep that difference for yourself when you buy from us instead of paying it for other people's profits and expenses.

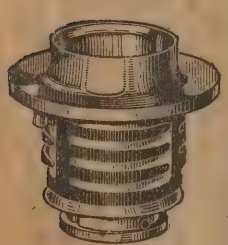
Remember, nothing is added to a cream separator after it leaves the factory door, and these extra profits between maker and user do not add a cent to the value of any separator.

Our Guarantee When we ship you a cream separator no salesman goes along to call your attention only to its good features. You buy the separator on trial and it must sell itself to you on its own merit, after you have tested it carefully and given it a most searching examination. This makes it necessary for us to build and test our separators with greatest care. Each one is run and tested by a skilled expert, and when he puts his O. K. on the machine you may be sure that it is perfect in every way. To still further protect you, you will receive a written guarantee which protects you against defects in workmanship and material during all the years you use the separator.

Quick Delivery—Low Freight. For the convenience of our customers and to make the freight charges low we carry Economy Cream Separators in stock in **warehouses in NORTHEASTERN ILLINOIS and ST. PAUL, MINN. Send your order to Sears, Roebuck and Co., Chicago Ill.,** at the price quoted for shipment from the warehouse nearest you and we will ship promptly from this nearby warehouse.

When Ordering on Time Payments, Use the Easy Payment Order Blank on Page 1100

Flexible Self-Oiling Bowl Spindle Bearing

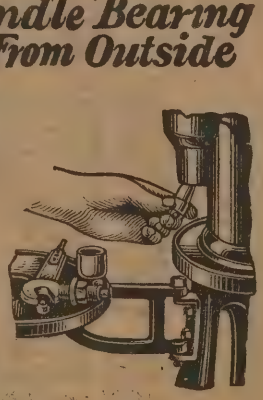


The upper bowl spindle bearing is flexible. It cushions and centers the bowl so it runs smoothly and easily without noise or vibration. This is due to our improved multiplex spring, which, though a single piece, has a series of flexible spring steel tongues which yield gently to the motion of the bowl, preventing undue vibration or friction, but at the same time holding it in perfect control.

When in operation, a constant supply of oil is fed upward between the bearing and the bowl spindle, insuring cool, easy running with practically no wear or friction.

Spindle bearings are compounded of an expensive, anti-friction alloy, especially designed to prevent wear on the steel spindle so that after long use it is only necessary to replace the bearings, at little expense.

Lower Bowl Spindle Bearing Easily Removed From Outside



At the lower end of the bowl driving spindle is a tool steel bearing point which turns on a hardened steel ball. The bowl spins like a top on this almost frictionless bearing and is held in true line by bushings of a special anti-friction alloy.

Our lower bowl spindle bearing is quickly removed from the outside of the frame without disturbing the gearing and when replaced centers itself accurately. Putting in a new bearing, if ever necessary, is the work of but a few minutes.

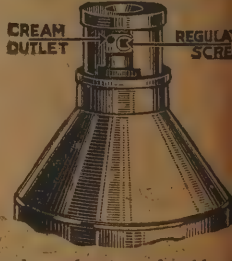
In many separators this bearing is removable only from the inside of the frame, after first taking out both the worm wheel and pinion, which is a much more difficult operation.

Economy bearings, shafting and all operating parts are true to gauge and accurate to a thousandth part of an inch. They go right into their proper place, fitting perfectly and making filing or adjusting unnecessary.

This Indicator Shows Working of Oiling System

Our oiling indicator is a little glass window against which the oil splashes constantly in operation. It is always in plain view of the operator and shows you that the oiling system is working properly, and all bearings are being continuously flooded with fresh oil. If the oil should be frozen or the oil supply too low you see it at once. An overflow pipe keeps the oil at the proper level and an oil drain screw provides for the quick emptying of the oil basin.

Quickly Adjusted for Any Light or Heavy Cream



Our Cream screw is quickly regulated, does not require a fine adjustment and gives you any cream from the thinnest to the heaviest. It is extra large and substantial, and much more durable the small light cream screws necessar save space in some separators and whi lost or mutilated prevent the use of separator until replaced.

Here Are Two Special Money Saving BARGAINS

Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK AND CO.

400 lb. Separator for $38.90

Where Can You Match This Bargain?

A high quality, close skimming cream separator with a capacity of 400 pounds an hour, at the surprisingly low cash price of $38.90.

This special Economy King has all our latest improvements, including sanitary, loose disc bowl that skims warm or cold, new or old milk to perfection. Perfect oil splash lubricating system with patented oiling indicator; seamless, no-splash supply tank; handy disc washer; simple crank speed timer and every convenience. Very easy to run, to clean and to care for. Well adapted for use by women and girls who cannot easily handle a heavier separator.

It has all the big features of our standard Economy King line and although somewhat lighter in construction, is heavy enough to give many years of splendid service with ordinary care.

23F5624—Special Economy King Cream Separator No. 24. Skims 400 pounds or about 190 quarts an hour. Adapted for a dairy of from two to six or seven cows. Shipping weight, 155 pounds.

	Price if Shipped From Northeastern Illinois	St. Paul, Minn.
Cash price	$38.90	$39.90
Time payment price, $5.00 with order and balance in monthly payments of $4.00 each, starting after 30 days	43.75	44.75

$51.50 for the Big 600 lb. Size Cash

Here Is Another Big Leader

This fast skimming Special Economy King handles 600 pounds or about 290 quarts an hour. It skims a milk pail full every two minutes, saving time and labor every day you use it. Handles a big milk flow when necessary and enables you to increase your herd and hence your profits, without buying a larger separator later on.

It has all the latest Economy King improvements and conveniences, but is somewhat lighter in construction than our regular Standard Economy King Cream Separators, which we always recommend for those who want the best. These special separators, however, are better than those commonly sold and will give you years of satisfactory service with ordinary care.

They skim warm or cold milk to a trace and give you a smooth, even cream of any wished for thickness. Sent on 30 days' trial and guaranteed to please.

23F5626—Special Economy King Cream Separator No. 26. Skims 600 pounds or about 290 quarts an hour. For dairies of from three to twelve or fifteen cows. Shipping weight, 195 lbs. Cash price.....

Time payment price, $5.00 with order, balance in monthly payments of $5.50 each.

Easy Time Payments If Desired

Best for Little Dairies

Economy King Cream Separator No. 10

Skimming Capacity, 135 Lbs. (About 65 Qts.) an Hour

This size skims at the rate of a trifle over a quart a minute. Because of its small capacity we recommend its use where only one or two cows are milked and the quantity to be skimmed is always small. In most cases it is better to buy the larger capacity table machine, listed below, as it saves time with every skimming.

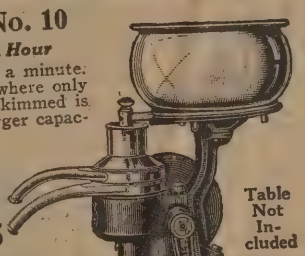

Table Not Included

23F1230—Economy King Cream Separator No. 10, without stand. Skimming capacity, 135 pounds of milk an hour. Shipping weight, 90 lbs. **Sold for cash only.**

Price if Shipped From Northeastern Illinois	St. Paul, Minn.
$29.75	$30.25

Economy King Cream Separator No. 11

Skimming Capacity, 200 Lbs. (About 95 Qts.) an Hour

For dairies of one to three cows, which you do not expect to enlarge later on, this is the size we advise buying. Before ordering, however, be sure to figure on future additions to your herd, which may make your purchase of a larger size advisable.

23F1231—Economy King Cream Separator No. 11, without stand. Skimming capacity, 200 pounds of milk an hour. Shipping weight, 100 lbs. **Sold for cash only.**

Price if Shipped From Northeastern Illinois	St. Paul, Minn.
$33.65	$34.15

IMPORTANT Our Standard Economy King Cream Separators in the dairy sizes shown on the following pages, are built heavier and more substantial and have wider gears and bigger shafting than even the most expensive separators of equal capacity sold by agents and dealers. They cannot, in any way, be compared with the flimsy separators with light weight frames and sheet iron or light steel bases weighing as much as 30 to 60 pounds less for equal capacity, sold by some concerns.

Such separators cannot last and give good service. The solid, reliable Economy King is always the least expensive and best in the long run.

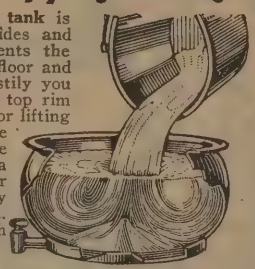
Don't Pay More Than Our Price for Any Separator. Better Separators Than Our Standard Economy Kings, in the Dairy Sizes, Listed on the Following Pages, Are Not Made.

Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

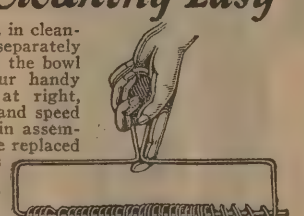
Separators for Those Who Want the BEST

Sanitary No Splash—One Piece Supply Tank



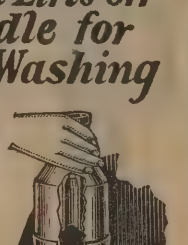
Our no splash supply tank is formed with full curving sides and convex bottom, which prevents the milk splashing over on the floor and machine, no matter how hastily you pour it into the tank. The top rim is broad and easily grasped for lifting from any position. Feet are provided which protect the faucet if tank is set on a flat surface. No seams or sharp corners and heavily double tinned to resist rust. Quick draining, easy to wash and very sanitary.

Our Handy Disc Washer Makes Cleaning Easy



The skimming discs, in cleaning, are not handled separately but are removed from the bowl and transferred to our handy disc washer, shown at right, with almost the ease and speed of a single piece and in assembling the bowl they are replaced just as easily. This permits you to clean each disc separately or rinse all at once, after which the discs are spread out on the washer and hung up to dry and air.

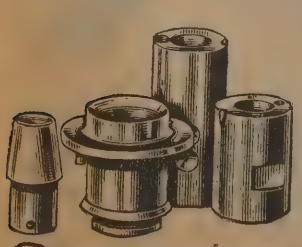
Skimming Bowl Lifts off Driving Spindle for Emptying and Washing



The skimming bowl, for emptying or washing, is lifted off the driving spindle and can be replaced just as easily. This makes it lighter and easier to handle and avoids damaging the spindle or driving worm which remain in the machine. The driving spindle sockets in a bronze sleeve in the bowl and a wedge shape key locks it in place. An improved bowl seating key is provided which enables you to seat the bowl on the spindle instantly.

All Bearings Flooded with Oil While Running

In operation, the lower rim of the worm wheel runs in a basin of oil, throwing the oil in a fine spray which fills the gear case. This oil is collected in pockets and fed into the bearings so that they run in a constant bath of oil, making them almost frictionless.



Bearings are of extra length and provided with an oil circulating system so that oil reaching the end of the shaft does not leak out, but is collected and drained back into the oil basin.

We Recommend Our Standard Economy Kings Listed Below

IN OUR Standard Economy King Cream Separators, listed below, we give y every improvement and convenience, including valuable exclusive patented featu not obtainable in any other make of separator, at a price which represents a sin margin of profit over the actual cost to build. Don't pay more than our price f any separator.

Standard Economy King No. 12

Skimming Capacity, 250 Pounds (About 120 Quarts) an Hour

This is the smallest of our regular dairy machines with stand and will give good satisfaction where the herd is small, two to four cows, and you do not intend to increase it. This size is easy to run, handle and to keep clean. It skims any quantity of milk from 1 gallon up and has all our latest features, including crank speed timer and detachable spindle loose disc skimming bowl.

Standard Economy King No. 14

Skimming Capacity, 375 Pounds (About 180 Quarts) an Hour

A very good size for any herd of from two to five or six cows. For more than five cows we always recommend the No. 16 machine, listed above at right, as it does any skimming in two-thirds the time or less, saving a world of time and labor in the course of a year. This size, however, will give splendid satisfaction with a small herd. It is a substantial, well built machine adapted for hard everyday dairy use and a splendid skimmer, taking practically every drop of cream from the milk in any condition in which milk can be skimmed.

23F1234—Economy King Cream Separator No. 14, with stand. Skimming capacity, 375 pounds of milk an hour. Shipping wt., 190 lbs. Cash price...

Standard Economy King No. 16

Skimming Capacity, 600 Pounds (Abo 290 Quarts) of Milk an Hour

This is the best size for dairies of from three twelve or fifteen cows, and is the size selected by m of our customers. It skims at the rate of a milk full every two minutes and does a big skimming short order.

If you have a small or medium size herd, this is Economy King we recommend. It saves time and la daily, and because of its big capacity handles the spring milk flow easily. Should you enlarge your h in coming seasons, as you will be more than likely do, it will take care of the extra milk up to a herd eighteen or twenty cows, if necessary, and save you expense of buying a separator of larger capacity.

It is a wonderfully close skimmer and takes cream to a trace from warm or cold milk, gives yo cream of any wished for density, from the thinnest the heaviest, and cleanses and aerates both the cre and skim milk.

This No. 16 Economy King has all our latest provements and conveniences. We fully guarantee and allow you full thirty days for trial, giving plenty of time to prove its worth in your own dairy

23F1236—Economy King Cream Separator No. with stand. Skimming capacity, 600 pounds of milk an hour. Shipping weight, 240 pounds.

Standard Economy King No. 18

Skimming Capacity, 800 Pounds (Abo 390 Quarts) of Milk an Hour

We advise buying this size for herds of ten or twel to fifty cows or more. It readily takes care of extra large milk flow when the cows are fresh or spring pasture, because of its big capacity. It runs easily that you can handle a large quantity of mi without the use of power, if desired.

It skims at the rate of six and one-half quarts minute, or a pailful in about one and one-half minute City milk dealers and ice cream makers who must se arate large quantities of milk without loss of time w find this size just what they need.

It is well adapted for use with power because of heavy frame and base and substantial constructi throughout.

We guarantee this Economy King to please you every way. Send us your trial order today.

10 BIG REASONS

for Buying the Standard

Increased Profits Quickly Pay for the Economy King

Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

30 Days' Farm Trial and Complete Satisfaction Guaranteed

1 Our cream separators take practically every drop of cream from any new or old milk, and milk from cows of any breed or in any stage of lactation.

2 They give you purified and aerated cream of any wished for density, from the thinnest to the heaviest.

3 Self oiling throughout. While running, every bearing runs in a constantly circulating bath of fresh, clean oil.

4 A simple speed timer, on all dairy sizes, enables you to turn at just the right speed to do the best skimming with the least effort.

5 An oiling indicator, always in plain sight, shows at a glance that the oiling system is working properly.

6 Both spindle and pinion shaft bearings and gears are easily removed and replaced by the user if necessary, after long use.

7 Our Standard Economy Kings have longer bearings and larger diameter shafting than other separators of equal capacity, hence wear longer.

8 Easy to clean. Bowl lifts off spindle and skimming discs are cleaned on our handy disc washer almost as quickly as a single piece.

9 Easy to use. Cranks are at the right height for easy turning. Supply tanks are low for easy filling, and cream and milk spouts high enough to put ten-gallon milk cans under them.

10 New open base keeps the floor clean and dry. Sanitary one-piece supply tank and latest type loose disc bowl insure clean, high quality cream.

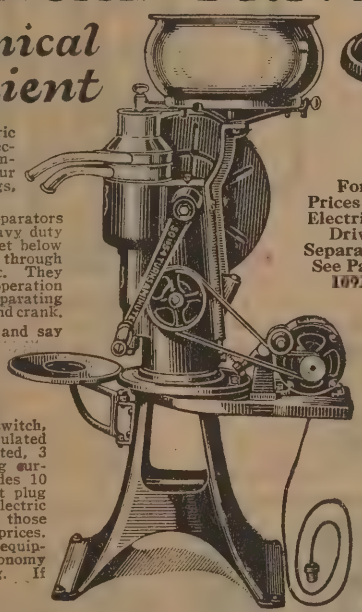
ELECTRICAL DRIVE

Is Economical and Convenient



If you have a home electric lighting plant or can buy electric current, we always recommend the purchase of our Electric Drive Economy Kings, listed on the opposite page.

Our electrically operated separators are provided with special heavy duty motors, mounted on a bracket below the drip shelf, and drive through a pulley on the pinion shaft. They do not interfere with hand operation and if the power is off, separating can be done by turning the hand crank.

In ordering, give voltage and say whether you have direct or alternating current. If alternating, find out from your electric company the number of cycles or frequencies. The 32-volt motor equipment includes knife switch, fuse plugs and 40 feet of insulated wire. (Extra wire, if wanted, 3 cents per foot.) Alternating current motor equipment includes 10 feet of cord with attachment plug for lamp socket. If your electric current is different from those listed, write for special prices. We can also supply electric equipment for the dairy size Economy King you are now using. If interested, write us.

For Prices on Electrical Drive Separators See Page 1092

An Economy King Reduces Dairy Work But Increases Dairy Profits

The Best Size to Buy

There are many good reasons for selecting a cream separator of ample capacity, as any experienced cream separator user will tell you. The larger sizes skim the milk much more quickly, saving time and labor every day in the year. They are cleaned about as quickly as the smaller sizes and are practically as easy to run and care for. They easily handle the big milk flow you will have at certain times of the year and save much valuable time in the planting and harvest seasons when every moment counts.

Another advantage of these larger sizes is that they will last longer than the smaller machines. A cream separator, like any other machine, only wears as it is used, and as the larger sizes do any skimming in about one-half the time of the smaller sizes, they are used only about half as long each day and naturally will run about twice as many days before wearing out or needing repairs, so that although the price is a little higher in the first place, in the long run they cost you less per year than the smaller sizes.

Pulleys for Power

Applied by removing crankshaft and replacing it with the pulley. To be used with a countershaft and cannot be belted to a gasoline engine direct, as engine runs too fast.

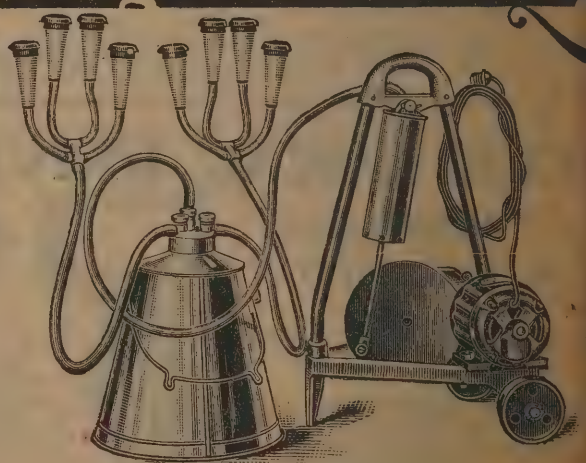
Frost's Electric Milking Machines

FROST'S Electric Milking Machine can be operated by a home electric lighting plant or purchased electric current. It milks two cows at the same time or one cow if desired, and will milk from 12 to 20 cows an hour, depending on how much milk they give, and also how much you strip.

$109.00



It is a simple, complete unit consisting of an easily moved truck on which are mounted electric motor with enclosed gearing and vacuum pump; a milk pail with a positive automatic valve and regulated suction releasing means in the cover and two sets of teat cups with the necessary rubber hose connections. There is no pipe line, no vacuum tank, no delicate and unreliable pulsator, no vacuum in the pail. No pulleys, belting or pumping rods for you to install. All you provide is the necessary electric wiring in the alley behind the cows with ordinary lamp sockets. We supply a two-way plug which enables you to use both the lamp and milker at the same time and 18 feet of electric cord so milker can be operated about 20 feet each way from socket.

Two sets of Frost's patented teat cups are supplied with this machine which, in milking, gently massage the teats from the top downward, just as is done in hand milking, or the same as the action of the calf's mouth in feeding. This gentle, squeezing action as the suction is applied, keeps the teats in healthy, normal condition, giving you all the advantages of the most expensive double tube pipe line milker with but a single tube to the milking cluster. Milks faster and cleaner than any solid cup. Does not require a cord or surcingle to hold it on the cow and milks either small or large teats without changing the rubber cap on the cup. Sights are provided in the pail cover so that the flow of milk from each cow can be seen at all times.

The motor is of ample power and operates the pump at the proper milking speed of 42 pulsations a minute through a flexible coupling and train of gears running in an oil bath. Milk pail is heavily tinned and holds 50 pounds, or 6 gallons. All parts quickly taken apart for cleaning and easily assembled. Necessary cleaning brushes are included.

Sent on 30 days' trial and your money returned, including transportation charges, if not satisfied. **In ordering, state whether you have alternating or direct electric current and give voltage. If alternating current is used, also give number of cycles or frequencies.**

23F11—Frost's Electric Milker.
Shipping weight, 105 pounds..... **$109.00**

Milk two cows at once with your Hinman Milker. See below for Frost Hinman Milker Attachment

Milking Machine Tubing

High grade red rubber Milking Machine Tubing, especially compounded to resist the oil of the butter fat in the milk. Will stand up perfectly under Board of Health requirements which include sterilization of the tubing after use, in water heated to 170 degrees and allowed to cool. Sizes to fit all milking machines. **State length and size wanted.**

	Inside Diameter	Thickness of Wall	Per Foot
23F862	7/32 inch	9/32 inch	19c

Shipping weight, per foot, 4 ounces.

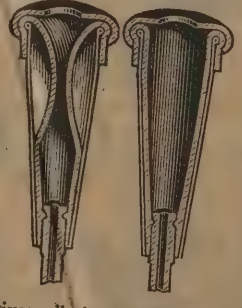
Milk Two Cows at Once—With Your Hinman Milker

If you are using a Hinman Milking Machine you can, by the use of Frost special attachments, milk two cows at the same time into each pail instead of only one.

Frost Hinman Attachments consist of a cover to fit the Hinman milk pail, equipped with improved valve chamber and check valve; one set of Frost patented Teat Cups with massaging action; one milk hose; one claw and two shut-off rings. You use all the Hinman parts except the pail cover and valve chamber which we supply in addition to the extra parts for milking another cow.

You can milk two cows as quickly as you now milk one, or a single cow if desired. Practically as easy to handle as the single unit Hinman and saves at least one-third of the time so that one milker can handle 50% more cows if desired. Comes with complete instructions so that anyone can make the necessary connections in a few minutes' time and learn to use it in a single milking period.

23F9—Frost's Hinman Attachment. Shpg. wt., 6 lbs... **$16.50**



Frost's Teat Cups

A splendid invention for use with the Hinman, Liberty, New Badger, Burton Page, Clean Easy, Success or any pump type milking machine with only one tube to the teat cup cluster. Massages the teats from the top downward, just as is done in hand milking or identical with the action of the calf's mouth in feeding. This action keeps the teats in splendid condition by its gentle, squeezing action as the suction is applied. It gives all the advantages of the most expensive, double tube pipe line milker, with but a single tube to the milking cluster. Milks faster and cleaner than any solid cup. Sanitary and easy to take apart, clean and assemble. Does not require cord or surcingle to hold it on the cow. Sent on 30 days' trial and your money returned, including transportation charges, if not satisfied. Shipping weight, 2 pounds.

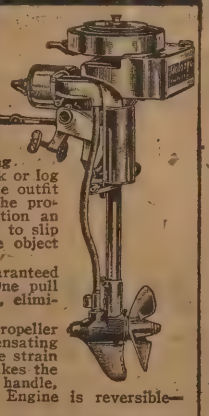
Shipped from CINCINNATI, OHIO.

Rowboat Motor



Our Motorgo Rowboat Motor fastens on the back of any ordinary rowboat and will propel it from 6 to 8 miles an hour any place that a rowboat will go—through streams with barely enough water to float the boat.

It is equipped with a tilting device so that if you strike a rock or log or run into a bunch of weeds the outfit tilts enough to pass over. If the propeller blade strikes the obstruction an automatic safety clutch allows it to slip until you have passed over the object when it takes hold again.

Equipped with a high grade guaranteed magneto and a rope starter. One pull turns engine over several times, eliminating all starting trouble.

The Motorgo steers with the propeller and is equipped with a compensating spring that takes care of the side strain on the steering handle, which makes the outfit very flexible and easy to handle, particularly in rough weather. Engine is reversible—stopped and started instantly.

Propeller is weedless, 9 inches in diameter with 10-inch pitch. The cylinder is 2⅝-inch bore, 2½-inch stroke. Speed 1,000 revolutions per minute, commonly called 2 horse-power. Actual weight, 50 pounds.

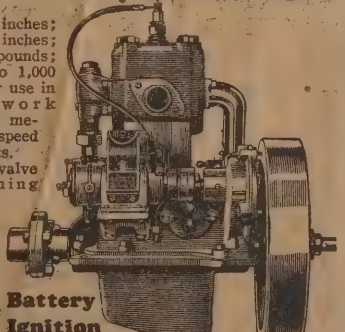
Furnished with Alemite grease gun and connection for greasing lower gear housing. **Shipped from factory in SOUTHERN MICHIGAN.**

47F812—Motorgo Rowboat Engine, with magneto ignition. Shpg. wt., 85 lbs.. **$97.50**
47F813—Under Water Exhaust. Aluminum. Weight, 1 pound..... $2.25
47F814—Waterproof Cover for top of motor. Weight, 1 pound..... $1.75

Write for Marine Engine Circular

Our Marine Engine Circular 7317F pictures and describes fully our two and four-cycle boat engines in one to four cylinder models, rating from 2½ to 15 horsepower and quotes prices that are bound to save you money. It also lists propellers, shafting, reverse gears and other boat equipment, all at prices you will find surprisingly low. Write for it today—it's FREE. Ask for Marine Engine Circular 7317F.

5 H.-P. 4-Cycle Gasoline Marine Engines



Battery Ignition

Bore, 3¾ inches; Stroke, 4 inches; weight, 160 pounds; Speed, 350 to 1,000 R. P. M., for use in slow speed work boats or for medium high speed pleasure boats.

All valves, valve tappets, timing gears, piston rings, connecting rod, bolts, nuts, manifold gaskets and bearings are interchangeable with similar parts used on the Ford engine.

Complete with Holly brass carburetor (Ford style); Bosch magneto with impulse couplings, a spark plug and wire, bronze plunger pump and rear coupling for attaching propeller shaft; muffler; starting crank and book of instructions.

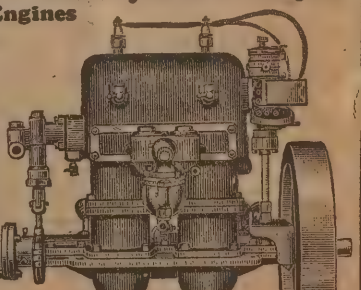
For boat equipment we furnish a 14-in. two-blade bronze speed propeller, 6 feet of ⅞-in. propeller shafting and a ⅞-in. stuffing box, with lag screws; steel shafting for fresh water, bronze for salt water. Shpg. wt., 200 lbs. **Shipped from factory in SOUTHERN MICHIGAN.**

47F805—5 Horse-Power Four-Cycle Boat Engine with Bosch Magneto and Boat Equipment. Fresh water..... **$124.00**
Salt water..... $129.50

47F8051—5 Horse-Power Four-Cycle Boat Engine with Battery Ignition and Boat Equipment. Fresh water..... **$118.00**
Salt water..... $123.00

Marine Engines

Single and Double Cylinder Two-Cycle Marine Engines



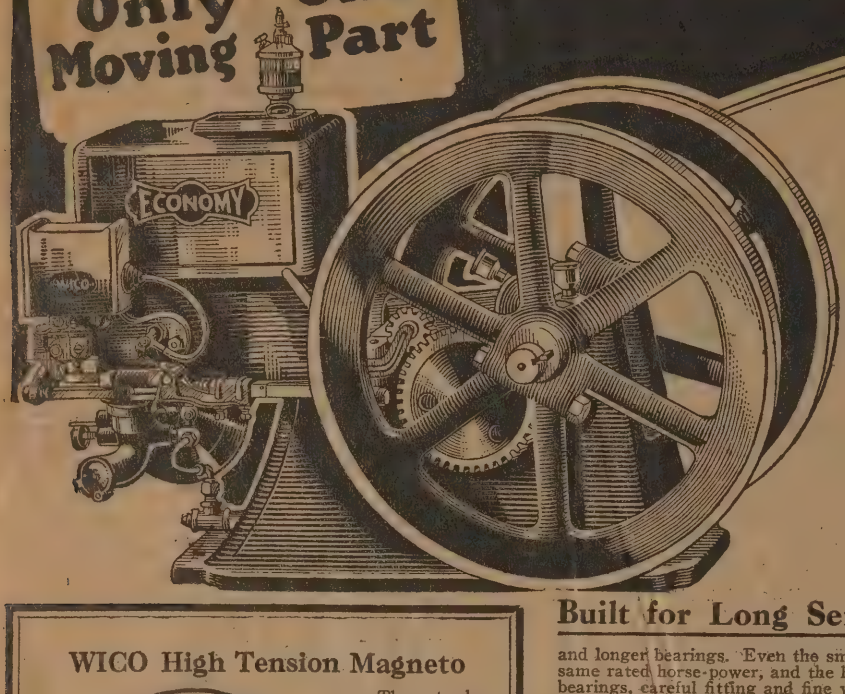
Complete with timer, Schebler carburetor, bronze plunger pump, grease cups, a spark plug and priming cup for each cylinder, thrust bearing and rear coupling. Battery ignition consists of five dry cell batteries. A high grade vibrating spark coil and the necessary wiring with terminals, muffler, starting crank and book of instructions.

Boat equipment consists of 6 feet of propeller shaft (steel for fresh water, bronze for salt water), a bronze stuffing box with lag screws and a two-blade bronze speed propeller. (Can furnish three-blade at extra price.) **Shipped from factory in SOUTHERN MICHIGAN.**

47F803—2½ horse-power single cylinder with boat equipment and battery ignition. Shpg. wt., 186 lbs. Fresh water, **$92.00**; Salt water..... **$96.00**
47F804—4 horse-power single cylinder with boat equipment and battery ignition. Shpg. wt., 242 lbs. Fresh water, **$102.00**; Salt water..... **$107.50**
47F806—6 horse-power double cylinder with boat equipment and battery ignition. Shpg. wt., 260 lbs. Fresh water, **$131.50**; Salt water..... **$137.00**
47F808—8 horse-power double cylinder with boat equipment and battery ignition. Shpg. wt., 350 lbs. Fresh water, **$151.00**; Salt water..... **$158.50**
47F809—Bosch Magneto with impulse starter in place of Battery Ignition for 4, 6 or 8 horse-power, add..... **$18.95**

WICO MAGNETO Only One Moving Part

Real Value in Economy



ECONOMY ENGINES HAVE HEA
CAST IRON BASES. NO WOOD SKI
TO CRACK OR WARP. PROTECTED G
OLINE TANK IN BASE. BALANCED FI
WHEELS. SPEED REGULATOR A
AMPLE SURPLUS POWER.

Great Fuel Savers

Our Economy Engines of the hit and miss ty conceded by engineers to be the most economical in use of fuel. When running idle or with a light load, little fuel is required. As the load is increased, the supply automatically increases to maintain the pro working speed and is reduced the moment the loa cut down.

Built for Long Service

These engines are much heavier and more substantial most other engines of equal horse-power. They have he crankshafts and connecting rods, larger and heavier flywh and longer bearings. Even the smallest size weighs 50 to 60 pounds more than most other engines o same rated horse-power, and the larger sizes are also heavier. This extra weight, combined with the bearings, careful fitting and fine workmanship throughout, insures long service and high efficiency u the hardest working conditions.

Removable Bearings, Interchangeable Parts

Main shaft and necting rod are with removable cast, interchangeable bearings of high grade babbitt metal with heavy reinforced bearing stands for shaft bearings. Suitable shims or liners are provided to take up wear, but if, after long service, bearings are required, we supply them at a reasonable cost and they drop into place without any fi or filing. Our crankshafts are drop forged, high carbon steel, accurately machined and ground. Connec rods are of heavy I-beam type. Bronze bearing for wrist pin. Small gear on crankshaft and gove gear are forged steel and cam gear of gray iron, all accurately machine cut. Small wearing parts, w necessary, are made of steel, hardened and ground.

Simple Venturi type mixing valve with automatic suction feed and needle valve adjustment. So choke or damper closes the mouth of the air intake in starting. Special balanced flywheels, correct burization to secure just the right mixture, the always reliable WICO Ignition and our accurate s controlling fly ball governor combine in making the Economy powerful, dependable and economic operation.

Easy Starting, Surplus Power

Economy Engines are designed to start e and quickly under all average weather co tions. The scientific WICO Magneto, in bination with the simple Economy tripping device, furnishes a hot fat spark at low speed just as readil at high speed and guarantees an easy starting engine. A reserve capacity over the rated horse-powe each engine not only takes care of a momentary overload, but enables you to run the Economy for periods at its full rated horse-power, or even beyond.

Economy Engine Specifications

Guaranteed Horse-Power	Cylinder Bore, Inches	Stroke of Piston, Inches	Engine Speed, R. P. M.	FLYWHEELS Diameter, Inches	FLYWHEELS Weight, Pounds	Crankshaft Diameter, Inches	Actu Engi Wt., L

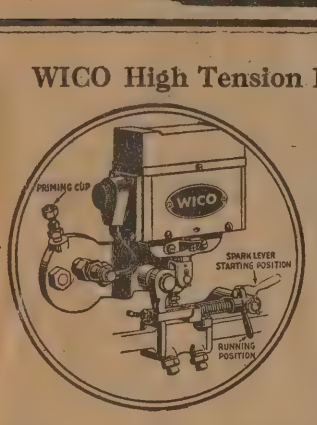
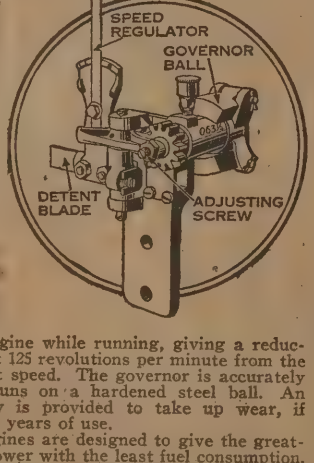
14	7½	12	350	44	530	2¾	2,433

WICO High Tension Magneto



The sturdy, simple WICO Magneto is used with a standard ½-inch spark plug. Hot or cold, wet or dry, it produces a hot, flamy spark that insures easy starting. It is water, oil and dust proof, simple in construction and easily taken care of. Operated by a tripping lever that is in turn actuated by the cam gear, making the action positive and sure and giving a big fat spark no matter how slow you turn the engine over. Only one moving part to the Wico; there are no rotating or oscillating parts and no delicate wires or bearings to wear out. The best ignition we have ever seen.

Close Regulation of Speed



Our gasoline engines are of the hit and miss type with a fly ball governor which automatically controls the engine so that it uses only just enough fuel to maintain proper working speed and do the work required. A speed regulating lever is also provided so that you may change the speed of the engine while running, giving a reduction up to about 125 revolutions per minute from the engine's highest speed. The governor is accurately balanced and runs on a hardened steel ball. An adjusting screw is provided to take up wear, if necessary, after years of use.

Economy Engines are designed to give the greatest amount of power with the least fuel consumption. A special valve lock on the cylinder head which holds the intake valve tightly closed when the exhaust is open, preventing any blowback through the mixing valve and avoiding loss of gas at this point, is one of the fuel saving features.

Take Two Months' Trial

Economy Engines are always sold on our "try before deciding" plan. We will gladly ship you engine of any size on sixty days' trial. Set it up on your place and use it for two full months, compa with other engines in your neighborhood in economy of fuel, ease of starting, power produced and s substantial construction. Make any other comparison you see fit and if you do not find the Econ equal or superior in every point to engines of the same rated horse-power, costing one-fourth to one- more, you are at perfect liberty to return our engine and we will send back all money paid and pay freight charges both ways.

The engine you order must sell itself to you by proving, under an actual farm test, that it is a be engine for less money than you can obtain anywhere else or we do not expect you to keep it.

You Can Buy on Monthly Payments

You can easily become the owner of an Economy Gasoline Engine by taking advantage of our monthly payment plan, if you do not find it convenient to send cash with your order.

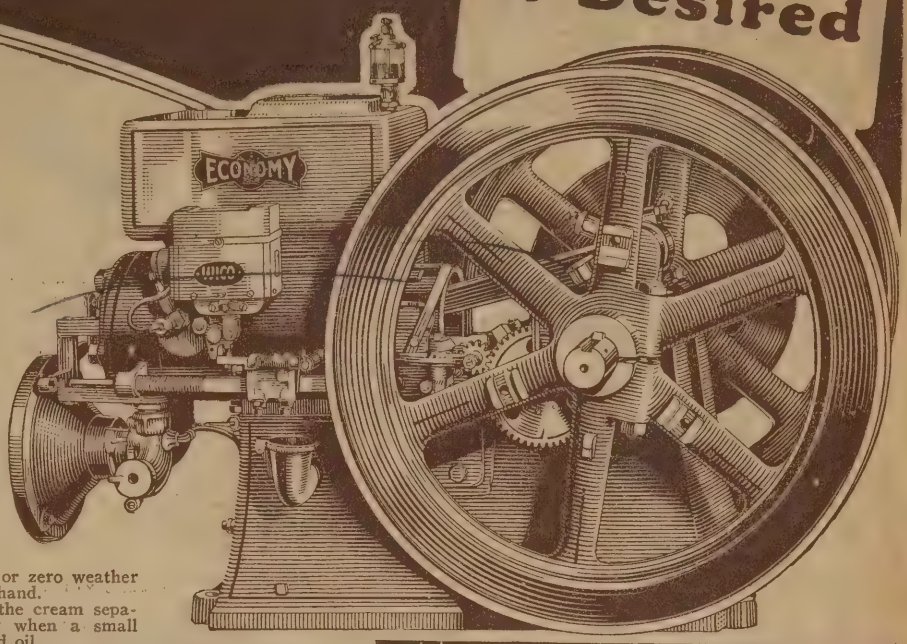
You simply fill in the order blank on page 1100 and send it to us, together with a deposit of amount stated in the price list on the next page. Once a month, starting after thirty days, send payment of the amount given under the price of the size selected and in a few months the engine is for and is your property.

Of course, we always recommend sending the full amount of cash with the order if possible, as cheaper and better for all concerned, but, whether you buy for cash or monthly payments, you have benefit of our sixty days' trial plan. In case you decide to return the engine after your trial, we back all money paid, regardless of how you order.

Gasoline Engines

EASY PAYMENTS if Desired

COMPARE SIZE OF CRANKSHAFT, WEIGHT AND SIZE OF FLY-WHEELS AND TOTAL ENGINE WEIGHT WITH OTHER ENGINES OF EQUAL HORSE-POWER. A HEAVILY BUILT ECONOMY IS YOUR SAFEST BUY, BECAUSE LONG LASTING AND ALWAYS DEPENDABLE.



The Great Farm Labor Saver

Economy Engines practically solve the farm labor problem. y doing away with most of the hard manual labor they enable ou to farm the greatest acreage with the least help and hence btain the largest profit from your farm. Many of the time nsuming chores and nearly all of the hard drudgery of farm-g can be avoided by the use of an Economy Engine of the roper size. This will enable you to give your time and energy seeding, cultivating and harvesting your field crops and in aring for your stock, as it is in these that your profit lies.

An Economy Engine can be set on a solid foundation or ounted on a truck and hauled to wherever the power is quired. It can be run in a building or outside, in rain, snow or zero weather d will do most work faster and better than you can do it by hand.

Why waste your time and energy pumping water, running the cream sepa-tor, washing machine, churn, fanning mill or crosscut saw when a small conomy Engine will do it for you at a trifling cost for fuel and oil.

For the heavier jobs—grinding feed, baling hay, cutting and hoisting ensilage, sawing logs and poles, nning corn shellers, cane mills, etc., there is an Economy that will just meet your need.

Prompt Delivery From a Nearby Warehouse

For the convenience of our customers and to make the freight charges a small item, we carry Economy ngines in the 1¾, 2¼, 3½ and 6 horse-power sizes in warehouses at **St. Paul, Minn., and Fargo, N. Dak., addition to our Evansville, Ind., factory. If shipped from St. Paul, Minn., or Fargo, N. Dak., we charge ly enough extra to cover the carload freight rate and handling as shown in our price list. Send your der direct to Sears, Roebuck and Co., Chicago, Ill., at the price quoted for shipment from the warehouse arest you and we will ship promptly from this nearby warehouse.**

The 8, 10 and 14 horse-power engines are not carried in stock in our warehouses, but are shipped from e factory in EVANSVILLE, IND.

Economy Gasoline Engines

With WICO High Tension Magneto

47F9175—1¾ Horse-Power Economy Gasoline Engine with 4x4-inch pulley. Shipping weight, 8 pounds.

	Price if Shipped From Evansville, Ind.	St. Paul, Minn.	Fargo, N. Dak.

Cash price $209.00

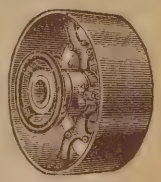
Time payment price, **$30.00** with order and balance in monthly payments of **$33.00.** ch 240.00

47F9140—14 Horse-Power Economy Gasoline Engine with 20x8-inch friction clutch pulley. Ship-ng weight, 2,600 pounds. **Shipped from Evansville, Ind.**
Cash price $295.00

Time payment price, **$40.00** with order and balance in monthly payments of **$45.00.** ch 336.00

When Ordering on Time Payments Use the Easy Payment Order Blank on Page 1100.

Clutch Pulleys



Bolts to the spokes of the fly-wheel and enables the operator to start the engine without starting the machine or having to disconnect the belt. You can also stop the machine without stopping the engine.

Recommended on all engines of 6 horse-power or larger. Furnished as standard equipment on 10 and 14 horse-power Economy Gasoline Engines. **Shipped from Evansville, Ind.** For price in place of regular pulley, see engine prices at left.

47F510—10x8-Inch Friction Clutch Pulley. Weight, 83 pounds..... **$13.90**

47F512—12x6-Inch Friction Clutch Pulley. Weight, 83 pounds..... **$17.80**

47F516—16x8-Inch Friction Clutch Pulley. Weight, 100 pounds..... **$21.50**

47F520—20x8-Inch Friction Clutch Pulley. Weight, 210 pounds..... **$28.50**

47F524—24x8-Inch Friction Clutch Pulley. Weight, 225 pounds..... **$29.00**

47F530—30x8-Inch Friction Clutch Pulley. Weight, 235 pounds..... **$31.00**

Hand Trucks

$4.75

If you have several jobs for an engine to do you should have a hand truck to move the engine from one place to another. These trucks are all steel, painted red and have holes drilled and bolts furnished ready to fasten engine to truck. Can be used for any engine up to 6 horse-power by boring new holes to fit.

The 47F1 Truck, as shown in the illustration, has an angle steel frame, 26 inches long; ¾-inch pipe axle, 18 inches wide; cast wheels, 9-inch diameter with 2-inch tires; for use with our 1¾ and 2¼ horse-power Economy Engines.

The 47F35 Truck has an angle steel frame, 36 inches long; 1⅛-inch solid steel axle, 30 inches wide; steel wheels, 14 inches in diameter with 2½-inch tires; for use with our 3½ and 6 horse-power engines.

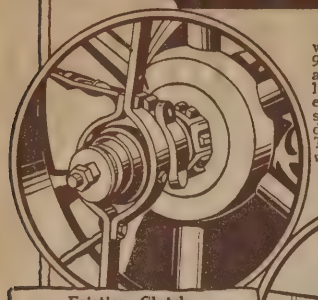
47F1—All Steel Truck for any 1¾ or 2¼ horse-power engines. Shipping weight, 45 pounds..... **$4.75**

47F35—All Steel Hand Truck for any 2½ to 6 horse-power engines. Shipping weight, 118 pounds..... **$12.60**

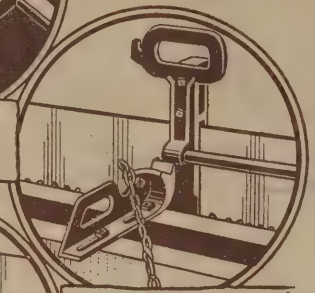
Shipped from St. PAUL, MINN., or NORTHERN ILLINOIS Factory.

Express and Freight Rates Are on Page 799

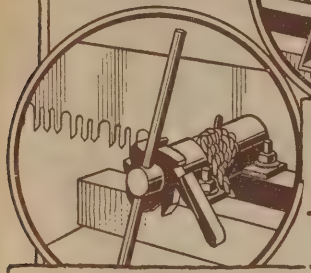
Log Sawing Outfit



Friction Clutch
Our improved multiple-disc friction clutch permits starting and stopping the saw while the engine is running.



Saw Guide Handle
The saw guide handle and chain hold and lock the saw rigidly which permits the outfit being moved without damage to the saw or danger to operator.



Anchor Hook
An anchor hook holds the frame of the machine rigidly on to the log while sawing. This insures perfect saw action.

The Economy Drag Saw Outfit is complete with a 1¾ horse-power engine mounted on a 9-foot hardwood frame, with a 5-foot saw blade and multiple disc lever clutch. The multiple disc lever clutch enables the operator to start the engine without starting the saw or to stop the saw without stopping the engine and prevents damage to saw blade in case it binds in the cut. The two all steel wheels, 18 inches in diameter, with 3-inch tires, are mounted on swivel axles that can be easily changed, so the outfit may be drawn from one place to another or moved from cut to cut along the log. Saw blade is 5 feet long, made of high grade saw steel and is filed and set, ready for use. Length of stroke, 20 inches; saw operates at 170 strokes per minute.

$89.50

Engine will operate saw successfully on any log from 8 inches up to 3 feet in diameter in either hard or soft wood. Exhaustive tests show that one man can cut through a 2-foot log in two minutes, while it requires two men ten minutes to cut the same log with hand crosscut saw. Outfit will pay for itself in a very short time, as it will saw as much wood in one week as three men would handle in four weeks with hand crosscut saw. Saw is held by guide, which holds the saw rigid while outfit is being moved. A truss rod extends full length of the frame, strengthening the outfit and preventing vibration. The anchor hook holds outfit to the log, is easily handled and prevents slipping. Standard binder chain is used for driving saw, as chain drive is very flexible, easy to handle and repairs can be purchased at nearly any hardware store.

Engine can be removed from the saw frame and used for pumping water or any other work. Puller, furnished at extra price, so that engine can be used for other work when not sawing wood. Weight, complete, 490 pounds; crated for shipment, 525 pounds. Full instructions accompany the outfit, telling how to set it up, how to start and run the engine. **Shipped complete from factory at EVANSVILLE, IND.**

47F2232—Economy Portable Drag Saw Outfit, including engine and 5-foot saw. Shipping weight, 525 pounds..... **$89.50**

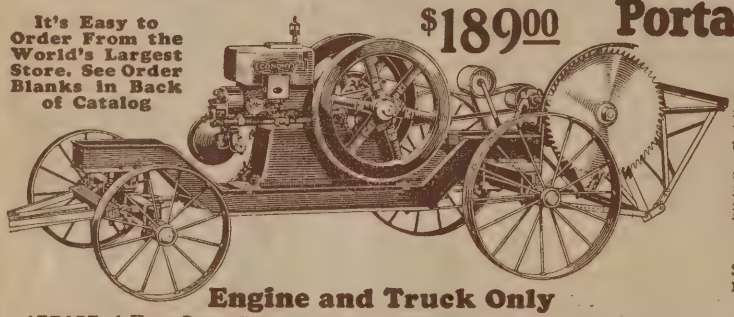
47F2233—Drag Saw Outfit only with Saw but without engine or friction clutch. Shipping weight, 250 pounds. **Be sure to give horse-power of engine and size of engine shaft; also size of key way in shaft**..... **$35.00**

47F229—5-foot Extra Saw Blade for Economy Drag Saw only. Weight, 15 pounds..... **4.50**

47F404—4x4-Inch Pulley to run other machines, extra. Weight, 10 pounds..... **1.25**

Portable Engines and Pole Saw Rigs

It's Easy to Order From the World's Largest Store. See Order Blanks in Back of Catalog



$189.00

Engine and Truck Only

47F457—6 Horse-Power Engine and Truck. Shipping weight, 1,447 pounds..... **$158.50**

47F477—8 Horse-Power Engine and Truck. Shpg. wt., 1,787 lbs..... **$199.00**

47F4978—10 Horse-Power Engine and Truck. Shpg. wt., 2,633 lbs..... **267.00**

47F41278—14 Horse-Power Engine and Truck. Shpg. wt., 3,248 lbs.... **342.00**

These Saw Rigs are complete, ready to saw wood. Consisting of an Economy gasoline engine with **Wico high tension magneto,** and regular cast iron pulley, an all steel bent channel truck with pole, and an all steel tilting saw frame with belt tightener securely fastened and braced to the back of the truck, saw blade and belt. Saw frame is easily removed when it is desired to use the engine for other work.

The truck is of special construction, with bent channel steel frame. Axles are solid steel, 1⅝ inches in diameter, reinforced with 3-inch I-beam. Wheels are all steel, 24 inches front, 32 inches rear with 4 by ⅜-inch grooved tire. On the 6 and 8 horse-power truck we furnish a 5-inch steel channel frame 8½ feet long, on the larger sizes a 6-inch steel channel frame 9 feet long.

Sawing Outfit Complete

47F4573—Portable Sawing Outfit with 6 Horse-Power Engine, 10x6-Inch Pulley, Saw Table, 26-Inch Saw and Belt, Shipping weight, 1,703 pounds..... **$189.00**

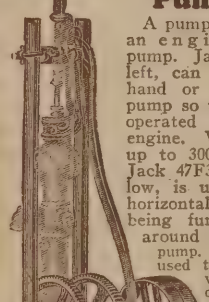
10x8-Inch Friction Clutch Pulley in place of regular, add..... **$10.70**

47F4773—Portable Sawing Outfit with 8 Horse-Power Engine, 16x6-Inch Pulley, Saw Table, 30-Inch Saw and Belt. Shipping weight, 2,043 pounds..... **$226.00**

16x8-Inch Friction Clutch Pulley in place of regular, add..... **18.45**

The 6 horse-power engine is shipped from ST. PAUL, MINN., FARGO, N. DAK., or EVANSVILLE, IND. Larger engines are shipped from EVANSVILLE, IND. Trucks and saw frame shipped from NORTHERN ILLINOIS factory.

Pump Jacks



47F337

A pump jack is used with an engine to operate a pump. Jack 47F337, on the left, can be used on any hand or windmill force pump so that pump can be operated by hand or with engine. Will handle wells up to 300 feet deep. The Jack 47F312, as shown below, is used to operate a horizontal pump, a clamp being furnished to fasten around the handle of the pump. It can also be used to operate a three-way pump or as an overhead jack.

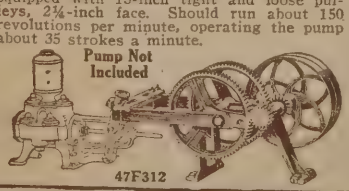
Shipped from EVANSVILLE, IND., ST. PAUL, MINN., or FARGO, N. DAK.

47F337—Double Gear Jack, for wells up to 300 feet deep. Shipping weight, 90 pounds..... **$6.95**

47F312—Double Gear Horizontal Jack, with hand clamp and stand support. Shipping weight, 95 pounds..... **$7.95**

47F370—11 feet of 2-inch Rubber Belt with fastener to use with pump jack. Weight, 2 pounds..... **$1.50**

Both jacks are back geared four to one, with three strokes, 4½, 7 and 9½ inches, equipped with 13-inch tight and loose pulleys, 2¼-inch face. Should run about 150 revolutions per minute, operating the pump about 35 strokes a minute.



Pump Not Included

47F312

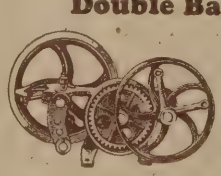
Line Shaft Outfit

Complete with speed governor and clutch control. Can be used with any engine up to 3 horse-power, to run the cream separator, churn, washing machine, pump jack or any small machine, as the speed governor takes care of variations in speed of engine and size of engine pulley. It can be set permanently for any desired speed, or can be increased or decreased as desired. Full instructions with each outfit. **Shipped from factory in NORTHERN IOWA.**

47F321—8-foot shaft, speed governor, one 4-inch, one 6-inch, two 8-inch pulleys and two hangers, mounted on 8-foot wood base. Weight, 115 pounds..... **$20.85**

47F322—12-foot shaft, speed governor, one 4-inch, two 6-inch, three 8-inch pulleys and three hangers, mounted on 12-foot wood base. Weight, 150 lbs..**$25.90**

Double Back Geared Jack



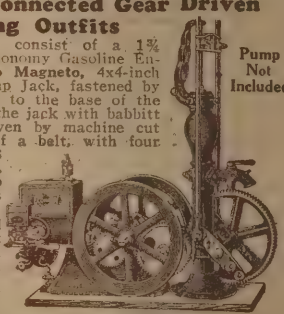
47F339

For use with engine on very deep wells, where slow speed is required or **electric motor.** Will handle a 2-inch cylinder or less on wells up to 350 feet deep, back geared, sixteen to one, with three strokes, 5, 7½ and 10 inches. 13-inch Center Drive Pulley with clutch for starting and stopping. Pulley should run about 560 R. P. M. with electric motor to run pump 35 strokes per minute. With engine for deep wells pulley should run about 480 R. P. M., running pump 30 strokes per minute. Will fit any pump standard up to 4 inches in diameter. Gears completely covered with steel gear guard. **Shipped from factory in SOUTHERN MICHIGAN or ST. PAUL, MINN.**

47F339—Double Back Geared Center Drive Clutch Jack, with Steel Gear Guard. Weight, 100 pounds... **$8.50**

47F371—Clamp for attaching jack to handle when used with horizontal pump. Weight, 1 pound..... **65c**

Direct Connected Gear Driven Pumping Outfits



Pump Not Included

47F3152

These outfits consist of a 1¾ Horse-Power Economy Gasoline Engine with **Wico Magneto,** 4x4-inch Pulley and Pump Jack, fastened by four cap screws to the base of the engine so that the jack with babbitt bearings is driven by machine cut gears instead of a belt, with four strokes, 5, 6, 8 and 10 inches, running pump about 40 strokes per minute.

The vertical jack shown at the right is built to clamp around the body of any ordinary hand or windmill force pump, and is furnished with long iron pipe pitman rods and crosshead. Will handle up to 300-foot well. Width over all, 22 inches; length, 45 inches.

The horizontal jack shown below has a stand that holds the outer end of the jack and short rods with a clamp to fasten to the handle of any force pump. Width over all, 22 inches; length, 59 inches.

Engine can be detached from the jack and used for other work. Shipping weight, 390 pounds.

47F3152—1¾ Horse-Power Direct Connected Vertical Pumping Outfit with 4x4 Inch Pulley..... **$65.75**

47F3153—1¾ Horse-Power Direct Connected Horizontal Pumping Outfit with 4x4-Inch Pulley..... **$65.75**

Shipped complete from EVANSVILLE, IND., only.

Let the Sears-Roebuck Agricultural Foundation *Help You!*

Work Better

What is it you want to know? Our Farm Adviser can tell you how to accomplish more for your work. He knows the latest methods and the newest wrinkles.

And, for the women, we have a Home Adviser who can tell how to get better results from the work in the house.

The weather and crop reports, broadcast hourly by our own farm analyst over W L S, help you work more efficiently every day.

Our baby beef calf demonstration taught farm boys everywhere how to raise a thousand pounds of beef from one cow in a year.

Our National Seed Corn Show taught a nation the value of testing its seed corn. Our breed and seed shows are teaching everybody what improved types mean in field and feedlot.

Live Better

Most of the time of our Home Adviser and her staff is spent in telling folks how to live better. By letter, by air, by our catalog literature and by publicity, these home economic experts help you.

Time was when many a farm family cherished the day when they could afford to "retire" and move to town. For what? To hear good lectures, to listen to grand opera, to attend the shows, to see the big leaders who shape the thought of the world. Now, by means of a loud speaker on your living room table, we bring all these things, and more, to you.

Our Home Research Department has organized hundreds of observing farm women for the one purpose of finding out ways and means to better living conditions in the farm home.

For your boys and girls we promote junior farm republics, distribute awards of merit, entertain juvenile tourists, hold demonstrations and tell the world that the farm is the best place for young folks.

Sell Better

We are vitally interested in seeing that the farmer gets the biggest dollar for his products. We interest ourselves all the time in methods to improve the distribution of farm products. We have helped farmers' committees organize themselves for improved marketing. We have told thousands of farmers where to sell to better advantage.

Our Research Division digs out the basic facts underlying profitable farm production and marketing. Assisted by a voluntary corps of 6,000 local crop and market observers, this department publishes the Agricultural Index every month, showing the trend in the condition of agriculture. It is sent free to anyone who writes for it. The Research Division is our own fact finding Department.

Every hour our market analysts tell you the state of the market over W L S. Many farmers have written us how they have made money through being guided by our market reports. Radio, we believe, is to become a prime influence in the orderly marketing of farm products. Our radio station—super-power now—is on the job morning, noon and night for you. We broadcast markets from the source—grain markets from the Board of Trade, live stock markets from the Stock Yards. We try to be first with the latest.

Ask Us - *This Service Is FREE!*

The Sears-Roebuck Agricultural Foundation is your farm organization. We render service to farm families everywhere. This organization is helping farmers everywhere to Work Better, Live Better and Sell Better. The information we furnish is the latest and most accurate that can possibly be secured. Today there is hardly a farming or home or marketing problem on which we cannot furnish you quick and valuable help. Hundreds of thousands of farm men and farm women have written us for a solution of their problems. We can help you, too, if you tell us what you want to know. We are eager to do it. And remember, there is no charge. This service is the free-will offering of the World's Largest Store to American Agriculture.

More money for your raw furs

A New Free Service by the WORLD'S LARGEST STORE

We have established a new free service to help our trapper friends sell their raw furs in this big Chicago Market at the highest prices the market offers. AND WE DO THIS WITHOUT A PENNY OF PROFIT TO OURSELVES. This free service is purely an accommodation for our regular customers for which there is positively no charge or commission of any kind.

Hundreds of our customers who trap, either in a large or a small way, have in the past sent us their furs, asking our help in disposing of them, and later they have written us saying how pleased they were with the grading and the prices we secured. Many received even better prices than they had hoped for. And all were certain they had been dealt with in absolute fairness and honesty.

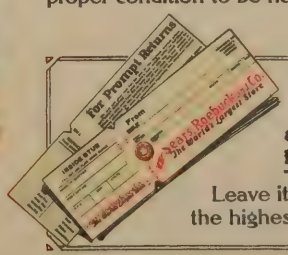
We sell them for you at the highest market price

Understand, we do not buy the furs ourselves. We simply act as your sales agents. Since we are located in the center of one of the country's greatest fur markets, we are in a position to insure your getting the fairest and highest grading of your raw furs, and, consequently, the highest prices. We guarantee that any furs you send us will be promptly graded by experts, and valued and sold on that grading. In short, we guarantee you a square deal all the way through and see that you get your money without delay.

If you want us to sell your furs, write us at once and we will immediately send you full instructions and shipping tags. We can guarantee the best results only if your furs are shipped in accordance with our instructions.

All furs must be shipped direct to our Chicago Store

We are willing to hold your furs subject to your approval of the price, but can do so only if your request to hold them is written on the tag accompanying the shipment. Of course we cannot hold your furs if they are too green or not in proper condition to be held without spoilage.



Do not ship any furs until you have written for tags and full instructions. This is important!

Leave it to us to do the rest and get you the highest prices to be had.

Silvertone Radio

Made for Better Reception and Biggest Saving

Made Complete in Our Own Radio Factory

This big five-tube Silvertone Radio Console at $69.00 is unquestionably America's outstanding bargain in a radio receiver. Notwithstanding our low price, we guarantee this receiver to be equal in range and quality of reproduction to any five-tube receiver on the market. Do not overlook this great opportunity if you want the utmost in value, performance and dependability.

We are one of the world's largest manufacturers and distributors of radio products. Every element entering into the manufacture of Silvertone Radio Receivers—designing, engineering, assembling and cabinet making—is carried out entirely in our own factories. We maintain our own radio laboratory and employ our own engineers.

This Silvertone Receiver embodies a five-tube tuned radio frequency circuit, the assembly of which reflects skilled engineering, fine workmanship and ruggedness of construction.

The tubes are mounted on a heavy, floating type sub-base which absorbs any disturbance or jar to the set which might otherwise be heard through the reproducer.

The condensers are of the latest design to meet present day broadcasting conditions, thus giving a uniform spacing of stations throughout the entire dial without undue congestion at any one point.

Large transformers with heavy cores, which bring out low tones with distinctiveness and realism.

Latest type low loss coils wound on heavy tubing have high signal strength and permit sharp tuning.

The cabinet is made of heavy genuine mahogany veneer stock, dark mahogany finish, decorated with two-tone effect. Top of console can be raised. Size, 32 inches wide, 17 inches deep and 41 inches high. Built-in sound chamber with high quality reproducing unit. Head phones can be connected whenever desired.

Model 1 Silvertone Radio Receiver, without accessories. Shipping weight, 135 pounds. **$69.00**
